Sunday School Leadership
At the School for leadership, held on Tuesday, Wednesday and Thursday evenings of last week in the United Church in Markham, Millie Willis, Joyce McDonald and Freeman Barker, attended all the lectures. Headford's total registration was eight, and these with enrolments from Victoria Square and Brown's Corners, made this circuit's attendance equal to one-third of the total attendance at the school. It was very much worth while to have this opportunity. The Sunday School Convention date was announced as January 20, and will be held in Unionville.

Personals
It was very nice to see Mrs. Ralph James in church on Sunday. Mrs. James is visiting her sister, Mrs. George Barker, and is here to attend the convention of the W.I. as a delegate from her home in the north.

Also visiting church and Sunday School was Mrs. Harold Wright and her family. Mr. Wright is in Halifax on business for the CBC.

Copies of the much publicized book, "What's the Difference?" by Rev. Arthur G. Reynolds, were on hand in church on Sunday, courtesy of Mr. Stewart Rumble. The Brodies, the Rumbles, Mrs. Freeman Barker, attended

the Autumn Thankoffering meeting of Brown's Corners W.M.S. on Sunday evening, and very much enjoyed the new film "Where none shall thirst." It is the interesting story of Andrew Lally, orphaned son of a native missionary of north-western India, who after a disappointing success where it was bringing many souls to the well "Where None Shall Thirst".

School Notes

There are three student teachers from the Toronto Teachers College at the Carrville public school this week.

Home and School
An auction sale featured the November meeting of the Home and School held last week. President, Mrs. Nicholls, was in the chair. George Williams, a grade 6 pupil acted as pianist.

Mr. Chevis did an able job auctioning a great many articles which brought good prices. The children did most of the bidding. It is a very successful evening and the money so collected will boost the association treasury.

The social convener, Mrs. Wood served refreshments, assisted by several of the parents.

As the bridge east of the school has not yet been repaired, a majority of the parents had to travel at least six miles, in order to reach the meeting. It is hoped some attempt will be made to repair it shortly.

Armistice Service
The pupils and teachers at the Carrville public school held a joint Armistice service on Wednesday afternoon in the senior room. Miss Judy Nicholls, grade 7, was pianist. Mr. Green read the scripture and a paper. Miss McKinnon led in prayer. A two-minute silence was observed and the hymns "O God Our Help in Ages Past" and "Abide With Me" were sung.

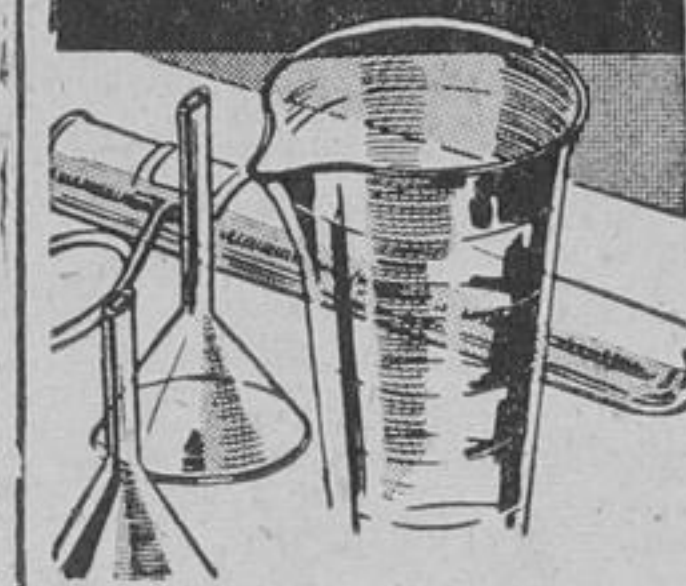

We thanked the teachers for holding this service with the children. It helps impress on them the reason for having a Remembrance Day.

A trophy is to be awarded to the school which collected the most money during the poppy sale. With a total of about \$103, we are hoping that the Henderson School pupils will be the winners.

On Friday at Thornhill school the Area Public Speaking Contest was held. The nine speakers were exceptionally good, and the judges had a difficult time, picking a winner. Our representative, John Macdonald spoke on a personal experience during Hurricane Haze. His impromptu speech on My Hobby was quite humorous.

Congratulations to Mr. and Mrs. W. Myers on Glen Cameron Ave. on the birth of a daughter.

The regular monthly meeting of the Doncaster Ratepayers Association was held on November 9, in the Henderson Ave. Public School. The guest speakers were J. Howard, Markham Township engineer and Mr. Fleming, the assessment superintendent for Markham Twp.

CARS ARE MY LINE

By Bud Lauria

An automobile engineer recently figured out that if cars today were built with the tools and methods of 1910, but at today's labor and material costs, a medium priced car would sell for more than \$60,000.

That's just one way of measuring the wonderful progress that's been made in the automobile industry. Without that struggle for advancement the auto industry might well have killed itself with \$60,000 cars.

What you get for your money at today's prices is astonishing.

Today's cars have more than 15,000 parts, the electrical system leading the way with 8,000 separate parts. Many cars use 7 miles of wire to link this all together.

There are more than 400 springs of 175 different kinds in an average car; the two coil springs in front are the largest, the springs in the carburetor are the smallest.

With all the planning and engineering that goes into cars, I always shudder at the driver who thinks his car is fine as long as it moves. You'd be surprised how many seemingly careful, conscientious drivers there are like this.

Medical science has prolonged the life of man by I don't-know-how-many years and a good mechanic can do the same for your car. You may not want to keep your car for 70 years but when you're selling it one of the best advertisements will be: it was serviced regularly by the same mechanic. A regular servicing program can save you money and we'll be glad to show you how.

There ARE ways to stretch your gas mileage, but it's mainly up to you; a few hints next week
