The Bourkes all work at the Bell!

Away back in 1922, a young man by the name of Arthur Bourke joined our company. Little did he realize that his children—all six of them—would follow in his footsteps—to careers at the Bell. Today Mr. Bourke would be more than proud of his handsome family. We know we are!

And this is as it should be, for good telephone service depends upon people who like their jobs, and convey this feeling to our customers. This is the feeling that is largely responsible for "the spirit of service" you find in Bell employees wherever you meet them.

Lady Eaton First Lady Win Award

Lady Eaton, of Eaton Hall Farm, King City, Ontario, has become the first member of the so called weaker sex to be included in the hitherto all male group of Master Breeders of Holstein cattle.

A Master Breeder shield, recognizing the achievements of the Eaton Hall Farm Holsteins was presented on behalf of the Holstein-Friesian Association of Canada at the Association's annual meeting held February 2nd to Harry Goulding, herdsman at Eaton Hall, who received it on behalf of Lady Eaton. The actual presentation was made by Honourable George S. Henry, former Premier of Ontario, and himself a longtime Holstein breeder.

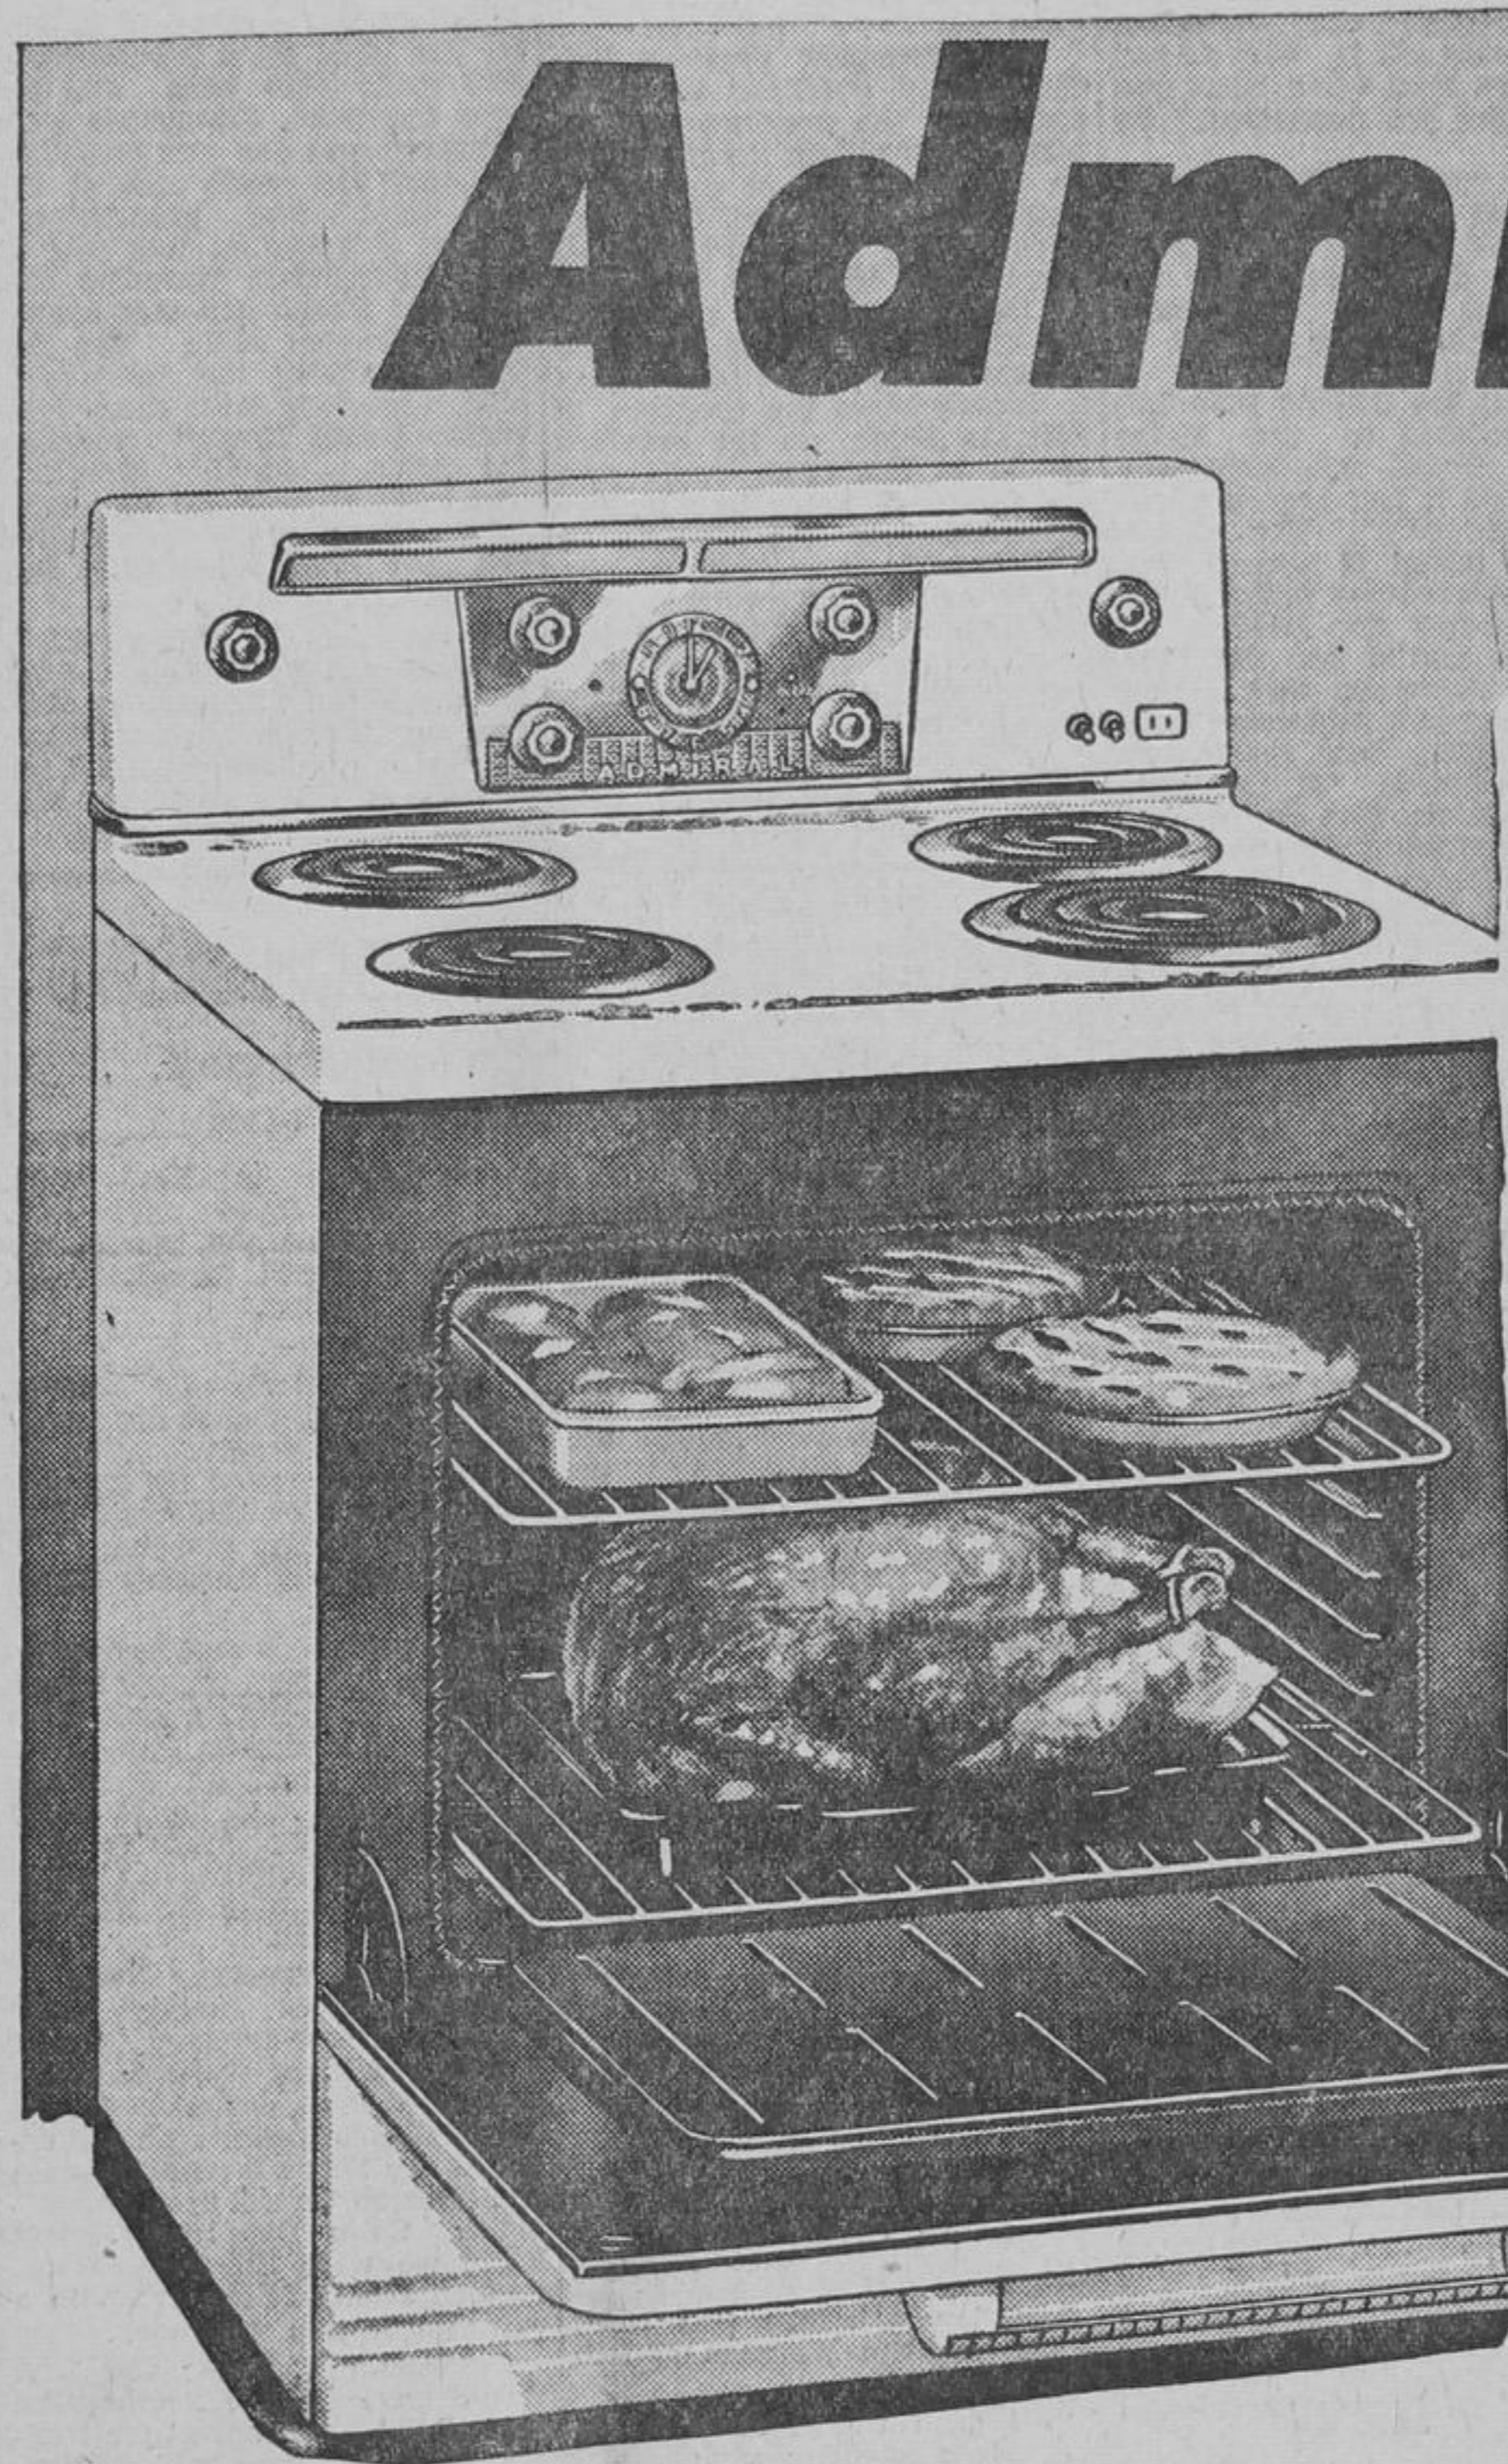

A Master Breeder shield is the highest honour that a Holstein breeder can receive, and both P. L. Whitlock, former farm manager of Eaton Hall Farm and G. E. Walker, the present farm manager were basking in the reflective glory of this achievement.

Among the outstanding animals developed at Eaton Hall have been Susie Korndyke Fayne Lass, who is the present Canadian Champion for Lifetime production of milk, with her total 230,179 lbs. milk containing 7557 lbs. butterfat. This would be a total of 82,076 quarts, which would keep the milkman busy on his house to house rounds for many a day.

The cow on whose blood the modern Eaton Hall herd is built is Glen Valley Pietje Beauty, who was three times named All-Canadian Aged cow, and has two consecutive records that average above 23,000 lbs. of milk, and 850 lbs. of butterfat.
