Council Takes No Action

Druggists Request Closing By-Law

Industrial Commission Soon To Be Appointed

Richmond Hill council took no action Monday night on a request from local druggists for the passing of a by-law to regulate the closing hours for drug stores in the village. Petitioning council were Alec Clarke and Hugh Wight who submitted the request on the grounds that 100 per cent of the druggists in the village favoured the closing schedule which was referred to council. According to law, under such circumstances, a by-law must be passed within a one month period.

The schedule submitted to council set the closing hour for Monday, Tuesday, Thursday and Saturday nights at 8.30 p.m., Friday at 9 p.m., Wednesday at 6 p.m. and Sunday at 12.30 noon. Council was of the opinion that in view of the frequent urgency for the filling of prescriptions, such a service should be available for the public when the need arises.

The application was tabled until council consulted its solicitor on the matter. Planning Board Appointment Robert Johnston, 121 Wright Street, was appointed to the

Planning Board to fill the vacancy left by the resignation of Jack Teetzel. The motion was put forward by Councillors Wesley Middleton and Harold Jones, and carried unanimously.

Industrial Commission Councillor Jones pointed out the need of an Industrial Commission for the village and stated cases when he had been approached by speculators who were at a loss to find a source of information regarding suitable industrial sites within village limits. He suggested a five-man board be appointed by council, each councillor making one appointment.

Councillor Floyd Perkins, in referring to the Commission in Aurora, noted that theirs was a five-member board, consisting of two members of council, one appointed from the Jaycees, one from the Senior Chamber of Commerce, and one from the Board of Trade. The appointments were made for two and three year terms.

Council was in unanimous agreement with Councillor Jones' suggestion that there was a need for a central agency for prospective industrial enquiries, and on a motion by Councillors Jones and Middleton agreed to set up a five-man Commission, each councillor to make an appointment at the next meeting.

Resolution Re Apartment House W. H. Markel of Markay Construction Ltd., requested Council for a second time for permission to erect a 40-suite apartment building on a lot on the south side of Centre Street West. Council again gave a negative decision to the request and on the motion of Councillors Middleton and Jones passed a resolution that council was unanimously opposed to such a move. It was pointed out the site was not suitable for an apartment building and that the zoning by-law, which is nearing completion, does not allow for such a building in that area.

Mr. Markel asked the council's main objections to the apartment house being built on Centre Street was in no way to the building itself, but to the fact it would be a multiple family dwelling in a residential area.

Ask For Stoptlight Council will request the Department of Highways to erect a stoptlight at the Yonge-Markham Road corner in order to alleviate heavy traffic congestion at the intersection.

School Crosswalk Chief Constable Robbins, following a request by council, stated a crosswalk would be painted across Yonge Street in front of the Public School at the earliest possible date.

Rapid Tulip Development Forces An Earlier Show

Due to unseasonably mild weather, resulting in rapid tulip development, it has been found necessary to advance the date of the tulip show to Friday, May 20, and it will be held at 8.30 p.m. in the Lions Community Hall, Dr. H. H. MacKay and Y. T. Lambert are convenors of this show.

Mrs. C. W. Campbell of Lorge Park, widely known in horticultural circles, will act as judge. Members are particularly recommended to come and hear Mrs. Campbell's commentary on the show.

Daffodil Show The daffodil show was, on the whole, quite successful although it could have been a great deal more so if more members had exhibited their blooms and arrays. There were some particularly fine specimens and several very outstanding arrangements. Far too few exhibitors were noted in the classes for new members. If a member does not possess the best specimens, it is quite possible to make up for it in artistic arrangement.

The plant sale, efficiently handled by Messrs. Mumberson, Little and Beatty, brought out a wide variety of plant materials and proved a boon to many members, as well as an uplift to the Society's revenue.

Philip Dell's instructive discussion of insecticides, fungicides and herbicides was most fitting, and brought forth much favorable comment.

Prize winners are as follows: Dr. Hugh MacKay won the prize for highest aggregate points in the specimen daffodils, donated by I. D. Ramer.

Mrs. C. R. Wilcox, won the prize for the best miniature arrangement, donated by Mrs. S. G. Chalk.

Mrs. Ernst Redelmeier won the prize for the best arrangement in Class 17, "Spirit of Spring", donated by Paul Angle. Daffodil, long trumpet, single, yellow, one, Dr. H. MacKay (3rd). Daffodil, long trumpet, single, white, one, Dr. H. MacKay (2), R. D. Little. Daffodil, double, one, Dr. H. MacKay, Mrs. Norman Gibson, Mrs. E. Redelmeier. Daffodil, long trumpet, single, white, five, Dr. H. MacKay (3rd). Daffodil medium trumpet, one variety, five, Dr. H. MacKay (3rd). Daffodil, bi-color, long trumpet, one or more varieties, three, R. D. Little (3rd). Narcissus, short-cup, five, R. D. Little, Mrs. E. Redelmeier. Narcissus, multiple flowered type, six stems, Dr. H. MacKay. Tulip, early, single, one, Dr. H. MacKay, R. D. Little, Mrs. W. J. Large. Tulip, early, double, one, R. D. Little, Dr. H. MacKay. Tulip, early, single one variety (three), Dr. H. H. MacKay, R. D. Little, Mrs. J. Cottrill. Tulip, early, double, one variety, three, Dr. H. MacKay, R. D. Little.

Decorative Arrangements: Arrangement of favorite spring flowers suitable for a living room table, Mrs. H. MacKay, Mrs. O. Boyd, Mrs. Wm. Strugnell. A buffet arrangement of spring flowers, featuring daffodils, front

DEPT. OF HEALTH TWP. OF NORTH YORK Not Bread Alone

"All new babies should get affection in large doses," says a "health talk" of the Illinois State Medical Society. "They need it as much as they do food. A normal baby cries because it is uncomfortable or hungry and a mother should never hesitate to pick up her crying baby and cuddle it. With much common sense and judicious affection, a new baby will take its rightful place in the home." CARL E. HILL, M.D., M.O.H.

CARS ARE MY LINE

By Bud Lauria

It's interesting to look at the license plates of passing cars, to see how far from home the drivers are. You often get a good idea of the sort of place the people are from, too: "Grand Caynon State," "Sunshine State," "Peach State" or the "Land of Enchantment."

(How many of those states can you identify, incidentally?)

And then there are license plates cut out or outlined in the shape of the issuing state, or bearing an emblem that's supposed to convey the charm of the homeland. Wyoming, for instance, has a bucking bronco.

But all of this, while interesting, is a headache to the car designers. License plates vary so greatly, a large and awkward space has to be left for them—or else the plate looks just "stuck on."

The Automobile Manufacturers Association has been trying to get some degree of standardization into the size and shape of license plates so the plate can be treated by designers as an integral part of the car. Their idea is a plate 12 inches by 6 inches; a size that would still leave room for signs and slogans.

There's a big catch. In North America there are 68 different license plates, issued by the 65 separate jurisdictions. Just try and get them all together!

While they argue it out, we'll talk about the used cars at our lot. Many of them are cars that you've seen around town a lot, driven by people you know are careful drivers. And they've had them serviced right here too, so we know them like one of our own kids (except that our cars behave a lot better.)
