THINK

HOW valuable is your driver's licence?
Does your job or business depend on it?
Do you really need to drive?
Does that vacation you are planning include the operation of your car?

THINK Don't take your licence for granted. The operation of a motor car or motor truck is a privilege which can be suspended.

REMEMBER Your driver's licence will be suspended if you are convicted of a criminal offence or of any offence arising out of an accident. 21,000 licences were suspended in 1954. Many of those whose licences were suspended lost their jobs—others had to find a new line of business. What would YOU do without a driver's licence?

THINK and keep your licence.

COMPETITION IS TOUGH!

Competition is tough in the oil business, too. While we believe Imperial is the **best** oil company in Canada, it's far from the only one. We're beset on all sides by healthy competitors.

From the Maritimes to British Columbia more than 240 companies are competing in the search for crude oil.

In 45 refineries from Halifax to Vancouver, 24 companies refine this crude oil into hundreds of useful oil products.

In all of Canada, scores of marketing companies compete for the motorist's and home owner's dollar.

In all its operations from coast to coast, Imperial Oil faces competition which is vigorous and resourceful, benefiting both the industry and the consumer.
