Wants Lower Insurance Rates For King City

Robert McLeod, chairman of King City Trustees, who is seeking lower fire insurance rates for the village, to this end recently made a rough map of the village showing location of all fire hydrants and water mains. The main street and buildings are also located on the map. Glen Urquhart, a captain of the local Fire Brigade, made a draft of the map which will be sent to the Canadian Underwriters Association.

Mr. McLeod feels the village can obtain a lower insurance rate because protection is provided by the King City brigade.

Screen Star keeps "young" look

Time and weather can't mar the perennial good looks of aluminum screen cloth. It gets star-bling among builders and home owners both because it lasts so much longer and because it never stains or discolors surrounding woodwork.

It is also the lowest-priced non-rusting insect screen on the market. And that adds point to the happy fact that Canada is the world's most efficient aluminum producer. And that fact, in turn, means that people who make aluminum screen and window frames, roofing and hardware for Canada's active building industry can do so at prices that save a lot of people a lot of money.

Laskay United Church Scene Of Thomas - Bryson Nuptials

A lovely wedding of wide interest was solemnized in Laskay United Church on Saturday, August 27, when Jean Elizabeth Bryson, daughter of Mr. and Mrs. William C. Bryson became the bride of Henry E. Thomas, son of Mr. and Mrs. George Thomas of Maple. Standards of colored gladioli formed a background for the ceremony. Rev. M. R. Jenkinson, assisted by Rev. A. G. Donald of Maple United Church, officiated. Mrs. Norman Bryson was organist. Mrs. Allan Orr sang "O Perfect Love" and "I Love You Truly."

The bride given in marriage by her father wore a gown of white satin styled with a fitted bodice and long, ruffled sleeves of Chantilly lace over satin. The full pleated skirt fell to a short train while the high neckline was fashioned with a swing collar. Her fingertip veil fell from a matching Juliet cap and she carried a bouquet of red roses, stephanotis and bouvardia.

Mrs. Merwyn McQuarrie, cousin of the bride was matron of honor. She wore a waltz-length gown of shrimp taffeta with matching gloves, and a Juliet cap trimmed with sequins. CARS ARE MY LINE

By Bud Lauria

Should a person buy a new car or a used one?

For people who have owned a lot of cars the answer to this question has often become a matter of habit: they buy a new car every year, or two or three, or else they keep trading in for better used cars every year or so.

But let's look at it a little more closely. A friend of mine has figured out that if you hold on to a car for four years it costs you only \$75 a year more to start with a new car than with a year-old car. This was an average figure and the results could easily slide up or down.

Starting with a two-year old car, the average saving over four years was \$150 a year.

He felt more sure of himself in a new car, though, so he stuck his old pre-war habit of trading in every second year. This was just a "habit," but it was a good habit because he had figured out exactly why he did it and what it meant to him financially.

The question of "what shall it be, new car or used?" involves a lot more than how much money you happen to have in the bank at the moment. What kind of driving you're going to be doing, what you're going to be carrying, who's going to be driving it - all these count.

Because we're in both the new and the used car business, we help a lot of people to make the right decision. It's really important to us - to make it right both kinds to stay in business. We can often take the facts YOU know and add them to the facts WE know and come up with a happy solution. If you'd like to talk it over - and I think you should - come in and see me personally and we'll put our heads together.
