Plans First Play

The "Curtain Club" of Richmond Hill is again active and members are planning their first production of the season at the Lions Hall on November 10, 11, and 12. The play is "The Passing of the Third Floor Back", which was written by Jerome K. Jerome, the author of the English classic, "Three Men in a Boat". The late Sir Johnston Forbes-Robertson starred in this play shortly after the turn of the century and it was one of his most successful productions.

Direction is in the capable hands of Rex Sevenoaks of Toronto.

Still Has \$658,528 Left

At a meeting of the Richmond Hill District High School Board a letter was received from the clerk of York County advising the Board that there is \$658,528 left to the credit of the Board from the \$875,000 debenture issue for the new Thornhill High School.

The debenture issue was for \$875,000, which sold for \$98,33 yielding \$860,387. With amounts drawn already from the County the balance figure has been calculated. The Board passed a resolution at this meeting to request that the balance be transferred to the Board account at the Canadian Bank of Commerce.

AUCTION SALE OF CATTLE, SHEEP, HAY, GRAIN, IMPLEMENTS, ETC.

The undersigned has received instructions from **GEORGE OLDFIELD** To sell by public auction at **WEST HALF LOT 9, KING TP. 1 mile north of Nobleton on 27 Highway, east side of road on FRIDAY, SEPT. 23**

- Cattle**
 25 Stock Calves
 Sheep
 34 Breeding Ewes
 Hay, Grain, etc.
 Choice Red Clover Hal, 1300 bales
- Quantity of Registered Montclair Barley**
Quantity of Registered Climax Timothy
Quantity of Alfalfa Seed
Quantity of Jute Bags

Large List At Clubine Sale

As farm auction sales become fewer and fewer in the Toronto area, local auction sale-goers will be interested to note an unusually large sale which is to be held at the farm of Lorne Clubine on the second concession of Markham (Lot 32) on Saturday, September 17. Prentice Brothers, auctioneers for the sale have pointed out that this is one of the largest sales in the area in recent years and expect a large crowd in attendance.

In addition to a large herd of dairy cattle and a full line of farm implements, the sale will include a number of fine antique pieces in furniture, glass and china.

The sale is being held due to the recent sale of the farm which has been in the Clubine family since it was purchased by the late David W. Clubine in 1911. The late Mr. Clubine was well known among the older farm families in the area as a cattle valuator and a member of the United Farmers Organization. The farm has been purchased by a Toronto businessman.

Mr. and Mrs. Clubine plan to move into their new home at Victoria Square in the near future.

Community Swing Begins Again

The Richmond Hill Community Swing, a group which has enjoyed square dancing together for more than four years expects to open a new season on September 26. Members are requested to watch for further information regarding group activities in next week's issue.

Jefferson School Housed In Three Units

School life for the teachers and pupils of Jefferson Public School will follow a more "normal" pattern this year, as the various grades are now almost at their desired capacity, per room. The Dept. of Education maintains that there should not be more than 35 pupils to each room. Last year Miss Leary had around 50 pupils in her room, comprised of grades 5, 6, 7, and 8.

This year has an attendance roll of about 115 children, made up as follows: Grade 1, 21; grade 2 and 3, 18 and 15 respectively; grades 4 and 5, 26 children, and grades 6, 7, and 8, 32 pupils.

The above set-up leaves room for expansion which always follows the beginning of a new term and the influx of new residents with the resulting new registrations.

Staggered hours were in effect at the school for first graders and Grades 2 and 3 for four days at the beginning of the Fall term, until official word was received from the Board of Directors at the LTB and Orange Home, that the overflow from Jefferson could be accommodated there.

For the present, at least, Jefferson school children will be housed in three separate units. Grade 1, taught by Mrs. Margaret Burnett, is at the new school; Grades 2 and 3, under Miss Florie Beynon's tuition are at the Orange Home school, grades 4 and 5 are studying with Mrs. Eleanor Dorsey at the old school, and grades 6, 7, and 8 are with Miss Audrey Leary at the new school.

First graders will attend school from 9 a.m. to 2.30 p.m., at least until Thanksgiving, after which they will probably stay at school an extra hour. Other grades are attending school daily from 9 a.m. until 3.30 p.m.

Everyone concerned is very pleased that the Orange Home has so kindly supplied Jefferson with a well-arranged, regulation schoolroom.

Plans which Jefferson school board laid, as early as last January, for an additional two rooms at the school were held up through no fault of the school board itself and this has resulted in the overcrowding which exists.

It is expected that the new rooms will be ready for occupancy around the end of this year.

Enjoy Corn Roast
 Richmond Hill L.O.L. and L.O.B.A. members and children enjoyed a corn roast at the Orange Home last Saturday night. Owing to the inclement weather the party had to take place 'under cover' but nevertheless a good time was had by all.

New Neighbors
 We extend a cordial welcome to our community to Mr. and Mrs. Harry Smith and children, who moved to Elgin Mills from Toronto recently.

Kitimat grows

Already Alcan's big new West Coast smelter goes ahead with TWO major increases to meet the rapid growth in demand for Canadian aluminum

The broken lines on the photograph roughly indicate the additional area to be occupied by new smelters and other buildings. Beyond the present plant (the aluminum structure in the middle ground) can be seen the harbor and docks of Kitimat.

In August, 1954, only 3 1/2 years after ground was broken, the Kitimat smelter commenced production of aluminum with an annual capacity of 91,500 tons. Almost immediately a 60,000-ton extension was started. And in the spring of 1955 the decision was made to proceed with a flexible program to add a further 180,000 tons to ingot capacity.

... A progressive increase to 331,500 tons, more than three times the size of the original installation, and well on the way to our ultimate Kitimat goal of 550,000 tons a year.

"This continuing expansion of Kitimat in successive stages", stated Aluminium Limited president Nathanael V. Davis, "should, we believe, help to keep pace with the growing free world demand for aluminum and particularly the demand in our major export markets, the United Kingdom and the United States."

The new facilities will go into production step by step, with the first unit starting up in the fall of 1956. It is expected that the present building program will be completed in 1959.
