Thornhill Socials

Kitimat was the subject at the Women's Mission Circle of Thornhill Baptist Church last Wednesday when pictures were shown of the great development taking place in that area. A survey has been made by Baptist representatives and it is hoped a permanent work will be started at Kitimat in the near future. Owing to the inclement weather numbers were a little disappointing, but those who attended were able to get a glimpse of the great strides that are being made in industry.

The meeting was presided over by Miss G. Stevens and Mrs. W. Raeburn took the devotional exercises.

A half hour of social fellowship was enjoyed by all at the close of the meeting.

Next month the meeting will hear of missionary work in Bolivia as seen through the eyes of a layman. Guest speaker will be Mr. G. Simmonds.

Accepts Position
Miss Elizabeth Neil, daughter of Mr. and Mrs. R. H. Neil, Thornhill, left on October 1st to take a position as Supervisor of Woodgreen Cerebral Palsy Centre near London, Ontario. Miss Neil took a course at Ryerson Institute prior to accepting this new position and is a graduate of Richmond Hill High School and Loretto Abbey.

ARC Supper Dance
A delightful supper dance was held on Friday, September 30, by the Thornhill Area Recreation Committee for the staff of the Thornhill Swimming Pool and friends in appreciation of the fine work accomplished during the past season. The event took place at Uplands Golf Club and was well attended.

Library Opens New Quarters

Last Tuesday, the Thornhill library opened its doors for business at its new quarters, 4 Centre St. Crowds of excited children along with a few adults were on hand to inspect the new quarters and exchange books and all were most enthusiastic about the new building.

At present, only the adult room of the new library is open and the children's books are being kept in the hall. The new adult room, which was the former living room in the L'Aventure home, has been most completely refurbished and redecorated and the pine floor, together with the open fireplace gives it an intimate look. Autumn flowers decorate the book cases and nine paintings decorate the walls of the room. Eight of the paintings are on loan from the Thornhill Daub and Sketch club, while the other painting which hangs over the fireplace has been loaned by Mr. Fred Haines.

The library was closed for 12 days while the extensive decorating and painting took place. All the work on the room was done by members of the Library Board, their families and friends donating their time and effort. Instrumental in getting the project pushed through to completion were Mr. Allan Sumner and Mr. R. H. Neil.

On Wednesday, work started on completing the new children's room in the library and work is expected to be finished on that room within a month to six weeks. Work on this section of the project is expected to take longer due to the fact that new shelving and drapes will have to be installed in the room. The cost of outfitting the new children's library room is being borne by funds being received by the Bart Edwards Memorial Library Room Fund and it is reported donations are flowing into both banks in Thornhill where they are being accepted for the fund.

Work Progresses On High School

Work on the high school in Thornhill is progressing satisfactorily with the fine weather of the past few days. A shortage of labor and bricklayers has slowed up work to some extent but it is expected that the building will be fully enclosed before cold weather sets in so that work can continue through the winter. Final completion of the project is hoped for around Easter of next year.

The landscaping of the grounds around the school has been completed and the playgrounds have been leveled, graded and rolled and seeded. A sturdy steel fence has also been built around the whole area. The plumbing and electrical work in the school itself is in the final stages of installation and the main gymnasium and auditorium is almost fully covered in and roofed.

Don Valley Pond Project

It was learned recently that the pond on Centre St., about a half mile west of Yonge has been accepted as a project by the Don Valley Conservation Authority. Previously, a group of Thornhill business men, took steps to preserve the pond as a game preserve and wild-life sanctuary and permission was received from the Planning Department of Vaughan Township.

Before the project can be established, it must receive the consent of the Minister of Planning and Development and application is being made now.

Nursery School Holds Tea

The September Tea of Thornhill Nursery School was held on Thursday afternoon, September 29, at the Nursery School in the home of Mrs. W. Kajola.

Refreshments were served by the executive under the sponsorship of Mrs. G. Chandler. The president, Mrs. J. Kearns, welcomed the mothers and introduced this year's executive. Mrs. Gage, school supervisor, gave an outline of the year's work of both the kindergarten and the nursery groups.

Forms for Parent Education were filled out to see what subjects the members were most interested in hearing discussed at the next meeting.

Horticultural To See Film

The October meeting of the Thornhill and District Horticultural Society which will be held next Tuesday evening, will feature as the guest speaker Mr. Alfred Bunker of "Happy Nook" Pickering, Ontario. A railway engineer by profession, Mr. Bunker makes a hobby of bird banding and will show colored movies of birds, flowers and animals. The pictures were taken in the St. Lawrence River Valley and should be of interest to nature lovers.

The Horticultural society is richer by \$40 as a result of the four first prizes won by basket arrangements at the recent C. N. E. The work of making up the arrangements is an exacting job and credit goes to Mr. and Mrs. L. J. Smith, Mr. and Mrs. Allan Sumner and Mr. Percy Bone for the work they accomplished in making the win possible. Those supplying flowers for the baskets were: Mr. Hughes, Mrs. Heslop, Miss Shaw, Mrs. Smith, Mr. Kohler, Mrs. Riley, Mr. A. Sumner and Mr. P. Bone.

The judges for the October flower show will be two Home Economists, Miss Agnes Sedgewick, head of the Home Economics Department at Bathurst Heights Collegiate and Vocation school and Miss Margaret Stewart, head of the Home Economics department at Downsview Collegiate Institute. The flowers and vegetables will be judged by Messrs. Kohler and Delf.

Wed In Thornhill

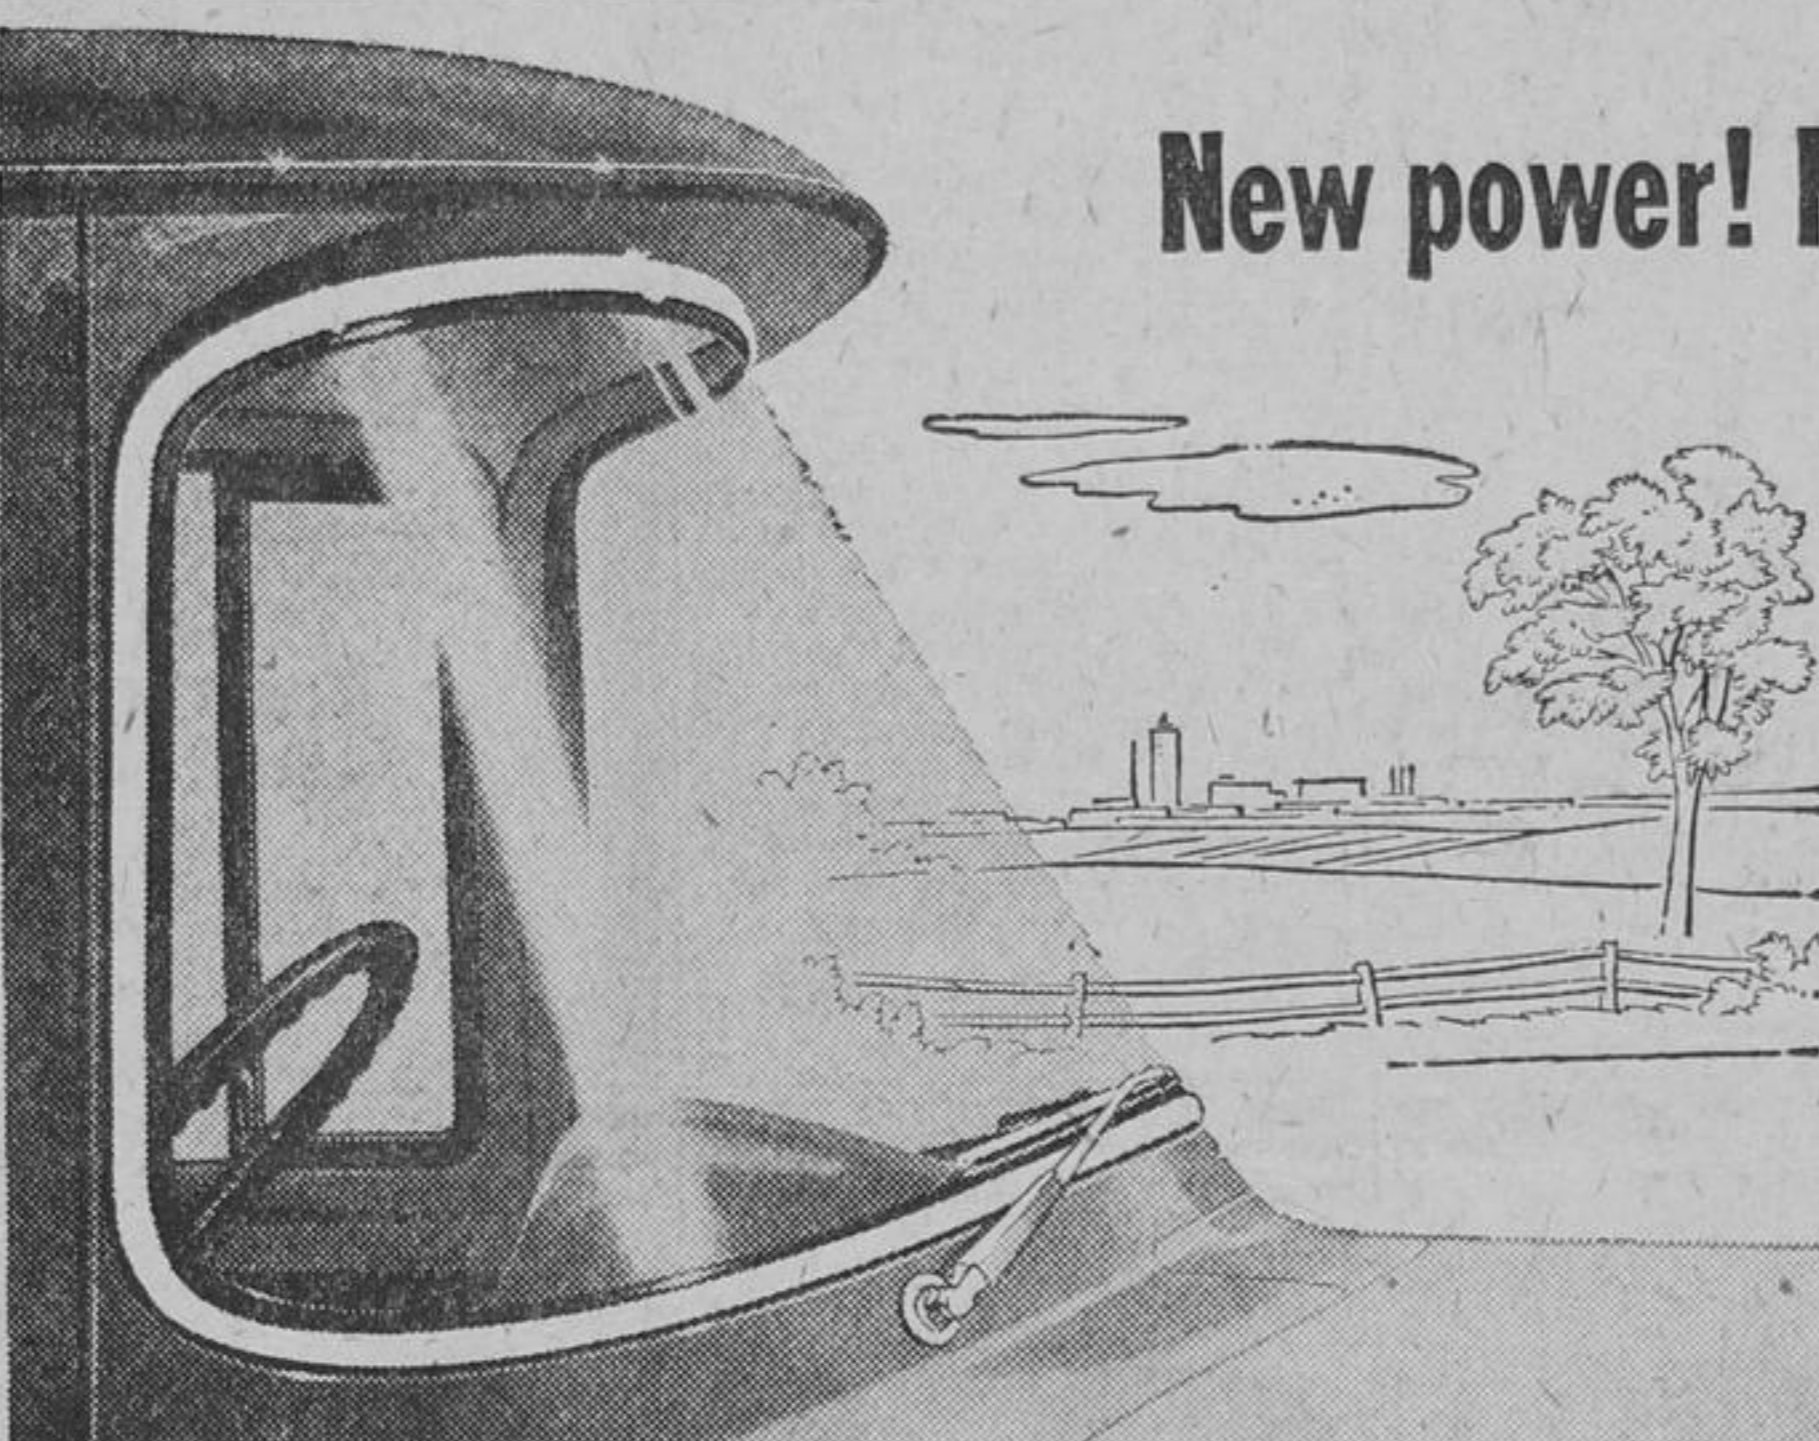

Just leaving Trinity Anglican Church, Thornhill, after their wedding on September 14, are Betty Mae Atkinson, daughter of Mr. and Mrs. Charles Atkinson, Thornhill, and Clare Casey, son of Mr. and Mrs. Earl Casey, Nova Scotia. The couple left on a wedding trip to Nova Scotia and will reside in Toronto on their return.

New power! New styling! New capacities!

MORE POWER PER DOLLAR WITH NEW SHORT-STROKE Y-8 ENGINES!

NEW HIGHER HORSEPOWERS! You get higher horsepower in every engine in the great new Ford Truck line for '56 . . . from 158-Hp. right up to a mighty 200-Hp. for extra-heavy hauling! Ford's new superior short-stroke power means less friction, less power waste, greater gas savings, much less wear on moving parts, much longer engine life.

NEW HIGHER TORQUE! Because of new engineering improvements, Ford's higher horsepower are translated into more usable power at the clutch! New higher torque in all Series—up to 318 ft.-lb.—means faster getaway, more agile performance, more power per dollar.

NEW HIGHER COMPRESSION RATIOS! Ford's new record-high compression in all models in the line wrings extra power from fuel.

NEW 4-BARREL CARBURETION! Now, new 4-barrel carburetors on "Special" Y-8's boost power output when it's needed . . . pay off in faster acceleration, extra pull for hills and hard going. Second 2 barrels come into action only when extra power is required!

NEW LONGER-LASTING VALVES! New sodium-cooled exhaust valves in Heavy-Duty Y-8 engines run up to 22% cooler than solid-stem valves and last far longer. Tungsten-cobalt valve facing and solid tungsten-cobalt alloy seat inserts defy wear.

NEW 12-VOLT ELECTRICAL SYSTEM! Standard in all '56 models, new 12-volt electrical system gives more positive, more efficient combustion at higher engine speeds, quicker cold-weather starting, greater reserve capacity to handle today's heavier electrical loads.

7 NEW DEEP-BLOCK Y-8 ENGINES WITH UP TO 26% MORE POWER!

ANNOUNCING THE NEW '56 FORD TRUCKS

NEW LEADERSHIP STYLING MAKES THE '56 FORD TRUCK A STANDOUT

NEW FULL-WRAP WINDSHIELD! Ford Trucks for '56 feature new wrap-around windshields with almost 1000 sq. in. of visibility! New "built-on" exterior visor makes driving safer and more pleasant. Standard rear window is more than 4 feet wide!

NEW LIFEGUARD DESIGN! New deep-centre steering wheel is designed to absorb impact; in the event of an accident, it cushions the driver, protects him from contact with the steering post. New safety-hold door locks have special rotor covers that prevent doors from springing open on impact.

NEW ALL-TIME-HIGH CAPACITIES CARRY MORE PAYLOAD PER TRIP!

NEW G.V.W. RATINGS! New G.V.W.'s, for all series from F-250 up, boost payload capacities to an all-time high! New G.C.W.'s mean more profitable tractor-trailer hauling! Lean, rugged chassis design reduces ton-mile hauling costs!

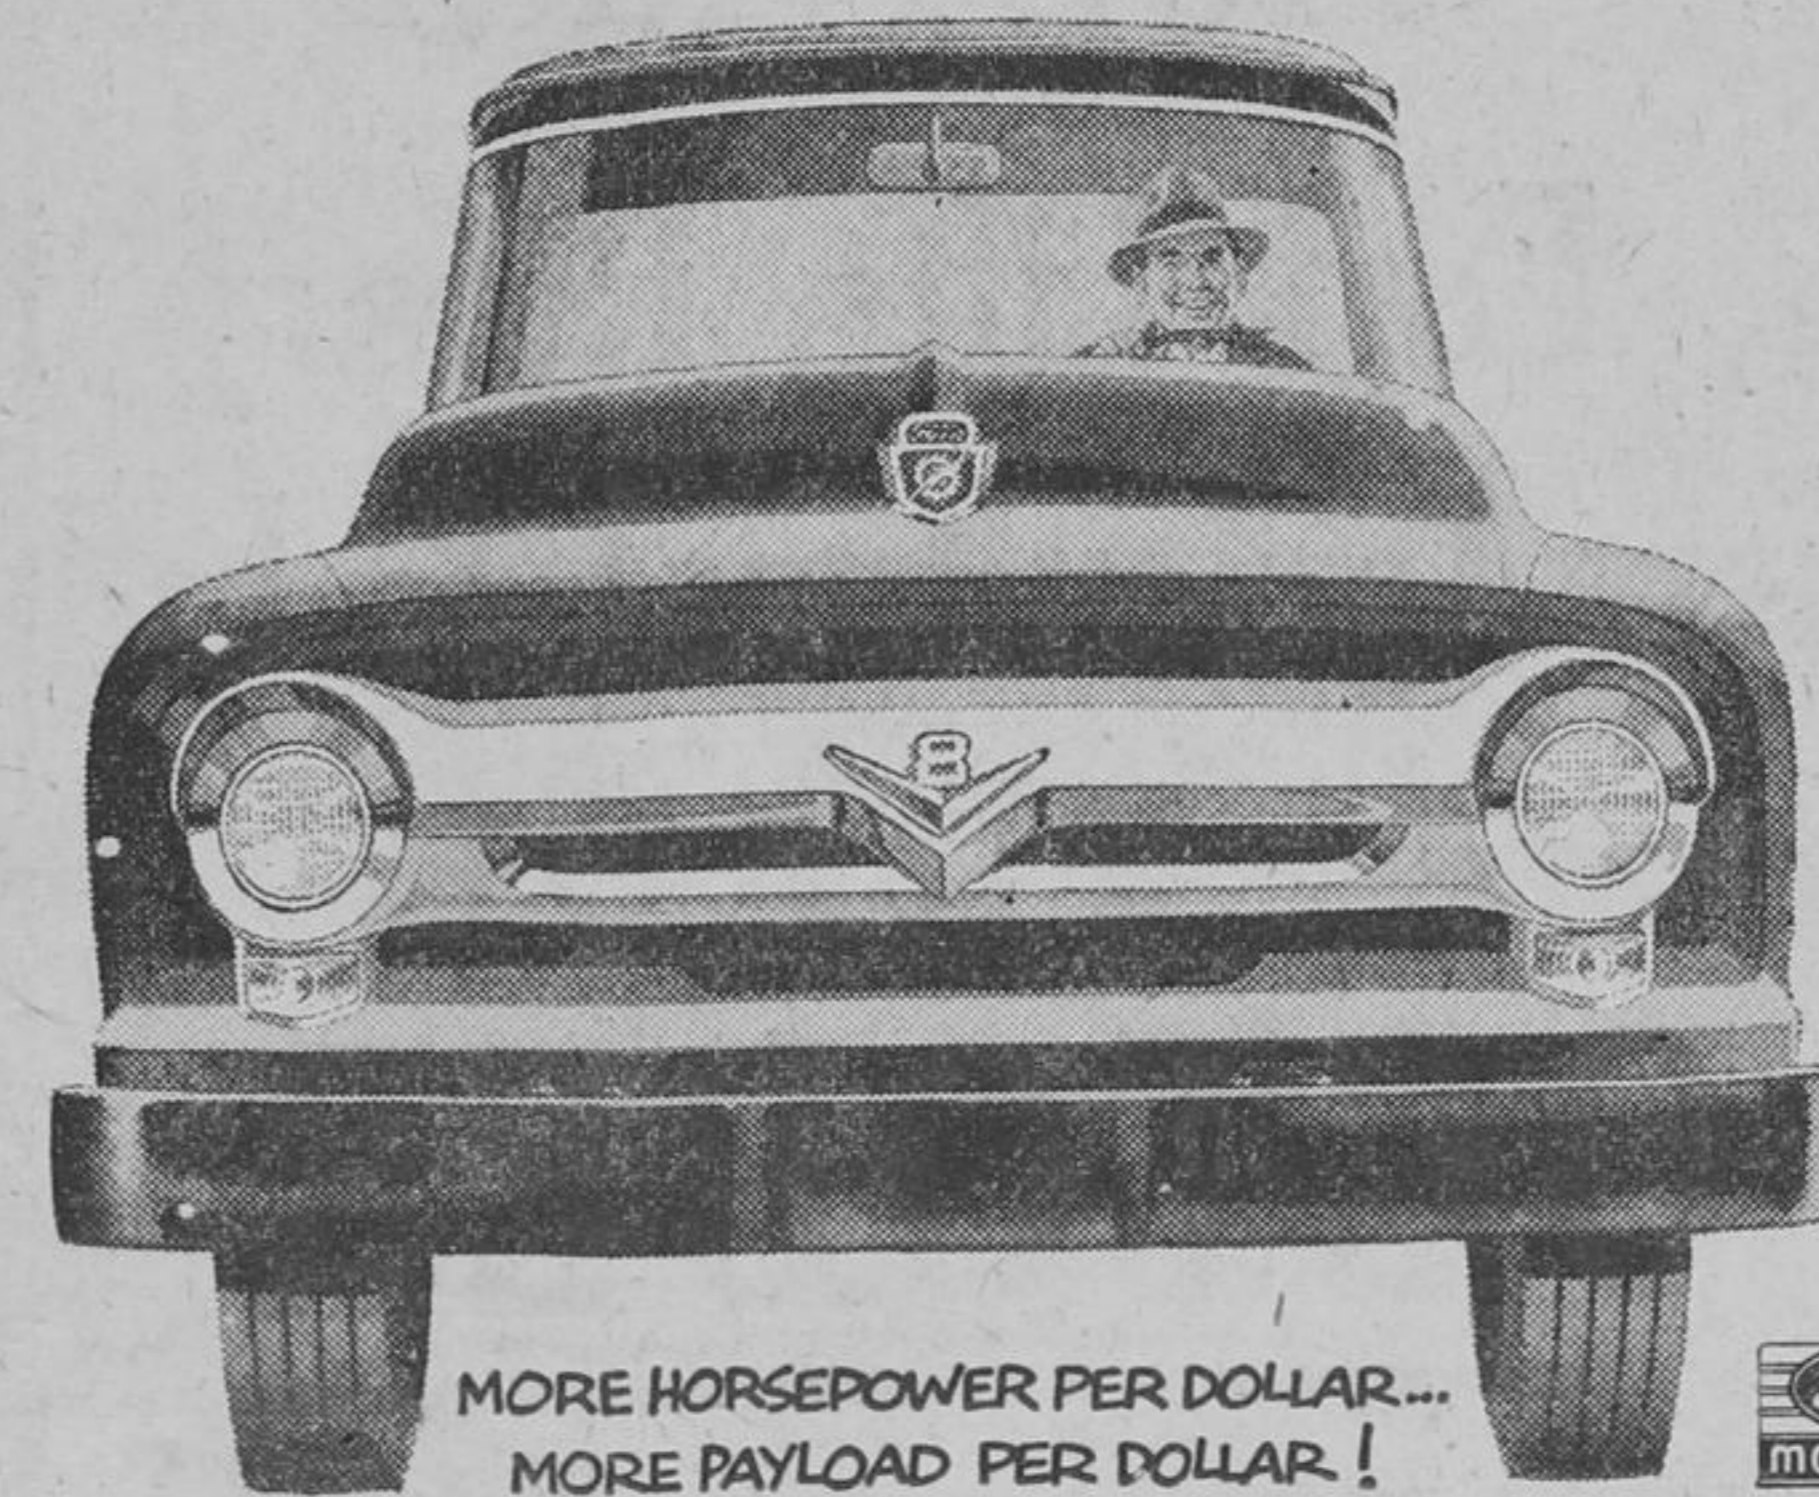

NEW 8-FT. EXPRESS! The Ford F-100 Series for '56 features a brand-new 8-ft. Express. This low-cost hauler is ideal for light-bulky loads. With wheelbase of 118 in., load capacity is 65.4 cu. ft.

NEW TANDEM SERIES! New T-750 series for '56 rounds out the famous Ford Tandem Axle line! This six-wheel giant takes 10- to 19-ft. bodies, has load capacity of 26,865 lbs.

NEW POWER OPTIONS! Automatic transmission is now available on all light-duty models, including F-350 with duals and P-500 Parcel Delivery. Power Steering is now standard on many models and available on all "Big Jobs".

NEW LONGER-LASTING BRAKES! New thicker brake linings on many models extend service life up to 33%, reduce maintenance costs. All Ford Truck rear brakes have self-energizing action to build high braking pressure at the shoes.

NEW TUBELESS TIRES! New higher-capacity tubeless tires, standard on all '56 models, run cooler, give more mileage, resist punctures and blowouts.
