### Lake Wilcox Fast Becoming Local Fishermen's Paradise

by Mrs. C. Butt  
There is an old saying that "far away pastures look greener". That goes for good fishing spots, and how many of us travel for hours on a week-end to get to some northern out-of-the-way place for a good fish. Just how many ardent fishermen are aware of the excellent fish there are waiting to be caught in our own local lake? Each week-end this summer has seen many good catches of bass, perch, pike, etc., taken from the waters of Lake Wilcox.

Bill Haanpaa on the South Rd., who rents boats to many of the

fisherman has reported that over the Labour Day holiday a certain Bill Miller caught two beautiful pike, one weighing 15 lbs. and measuring 38 inches, another was an eight pounder. Many others have taken home big pike that have almost been a record. Why go any further on a week-end, with our lake so handy and so few miles from the city. During these past few years, many changes have been made at the lake and it also affords year round healthy sport for the youngsters. The swimming is good in the summer, and all look forward to skating in the winter months.

The July winner of the "suit of the month club" sponsored by

MARKHAM: A group of developers has offered the village council a proposition whereby the village would acquire 70 acres of industrial land in return for services and approval for a 12-acre housing development. After receiving estimates, Council felt that the cost of providing services at present would render the industrial sites too high in cost.

## Expect Dial Changeover Oak Ridges In December

The installation of dial switching equipment is under way in Oak Ridges new exchange building in preparation for the changeover to a new dial exchange for this area early in December, C. E. Blodale, Bell Telephone manager for this region, announced this week.

Initial installation of equipment in the exchange building, located on Fairview street, east of Yonge Street, will be sufficient to service some 800 telephones. This will provide service for all existing customers, those waiting for telephones, and will meet the demand for some time to come.

Telephone numbers will begin with the exchange prefix P-Rospect 3, which will be followed by four other numerals. A typical number would be P-Rospect 3-2342. The new numbers will be contained in a directory to be distributed throughout Oak Ridges shortly before the changeover.

**Calling Area**  
Following the inauguration of the new exchange, calls between Oak Ridges and Aurora will be free of long distance charges. In addition, residents of Oak Ridges still will be able to place calls to and receive calls from Richmond Hill and King without extra charge. However, long distance charges will be adopted for all calls between Oak Ridges and

Thornhill and Maple. Further Extension  
In Richmond Hill, facilities capable of serving about 500 new customers are now being installed. This equipment extension which will be completed in October will take care of nearly all customers waiting for telephone service. A further extension of exchange equipment in Richmond Hill is planned for fall, 1957.

**Recreation Ass'n. Discusses Funds**
