Mrs. M. Patton In 87th Year

Residents of Richmond Hill and Elgin Mills were saddened to learn last week of the passing of Mrs. Matthew Patton. After a lengthy illness she passed away at the home of her daughter, Mrs. William Charles, Horsham Ave., Willowdale. She was in her 87th year.

The former Lillie Morris, she was born in King Township in 1870. She was married over 60 years ago and for some years lived in Richmond Hill. She was a member of the Anglican Church.

Mrs. Patton was well known in the district having lived in Elgin Mills for many years. During her life, her kind amiable disposition had earned her many friends and she will be much missed by her friends and neighbours. Until recent years Mrs. Patton had enjoyed good health and even while in her late seventies, she was often seen showing the younger generation some of the intricate dance steps popular in Canada half a century ago.

In addition to being fond of music she derived a particular enjoyment from flowers and residents of the district will recall her flower garden at Elgin Mills as one of the most attractive in the district. It was appropriate that her many friends' last tributes to her were so many lovely flowers.

Left to mourn her passing are her husband Matthew Patton, daughters Mabel and Briece and sons George and Maurice. A son William predeceased her in 1937.

The funeral service was held at the Wright and Taylor Funeral Chapel on Monday, November 19, and was conducted by the Rev. W. F. Wrixon assisted by Rev. A. A. Chote. Pallbearers were Harry Charles, Ed. Badger, Mac. Tennyson, Elmer Garret, Ray Charles and Ewart Patton. Interment was in Aurora Cemetery.

Father & Son Night Very Enjoyable

With a near record attendance of 120, the annual "Father and Son" dinner of the Richmond Hill United Church Men's Club was celebrated on Monday evening. President Dickson Miller presided and Rev. C. G. Higginson was also present. Following the excellent dinner served by the ladies of the church W.A., the guest speaker, Mr. Douglas Maxwell, was humorously introduced by Mr. Frank Southwell.

The speaker, a well known T.V. and sports announcer for the CBC in his topic "Sportsmanship and the Olympic Games" - covered a wide field of great interest, not only to father and son, but also to quite a few grandfathers present. Mr. Maxwell outlined the origin and scope of the Olympic Games, tracing from its start 1,200 years ago to the present series of World Olympics, which were organized in 1896. He stressed the importance of athletics in education, mind, body and the health of individuals.

In using every-day analogies, the speaker graphically made clear the pertinent points of his subject to all, from six to 60. In concluding his address, the speaker invited questions from the floor, and, judging by the depth of some of the "puzzler" queries from the very youngest present, the youth had been paying rapt attention.

While some of the general questions provided considerable laughter, the answers were very interesting and informative. Mr. Maxwell was accorded a very hearty vote of thanks for his fine talk.

Musical entertainment was provided by Mr. Alec Campbell and his accordian, featuring popular songs. Some of the "sons" entertained the "fathers". One eight year old trio was a musical riot and several teenager's acts also added to the hilarity.

Late Dr. C. A. Chant Founded U of T Astrophysics Department

Dr. Clarence Augustus Chant, 91, founder of the University of Toronto's astrophysics department, died Saturday at Observatory House, Richmond Hill.

During his 65-year study of the stars, he helped confirm an Einstein theory and guided operations for the first wireless message sent and received in Canada.

Born in York County, Dr. Chant graduated in 1890 from University College and joined its staff the next year. He received his M.A. degree in 1900 and his Ph. D. at Harvard in 1901.

One of Dr. Chant's outstanding achievements was his part in the founding of the David Dunlap Observatory at Richmond Hill. One of his greatest plans was the formation of an observatory which became a reality through the generosity of Mrs. Jessie Donald Dunlap, who offered to donate the funds to build an observatory for the University of Toronto as a memorial to her late husband, David Dunlap, who just before his death had taken a keen interest in astronomy through his association with Dr. Chant and interest in Dr. Chant's projects.

He guided every phase in building the observatory and founded the astrophysics department after approval by the senate in 1905.

He joined several astronomical expeditions and organized one to observe an eclipse at Australia in 1922. Photographs confirmed Einstein's theory that light rays bend passing the sun.

Dr. Chant was editor of the Royal Astronomical Society of Canada's journal since its inception in 1907; president of the Royal Astronomical Society from 1904 to 1907; vice-president of the American Astronomical Society, and a fellow of the Royal Astronomical Society, Royal Society of Canada and American Physical Society.

Dr. Chant, author of many articles in scientific periodicals, wrote the Ontario High School Physics Text and Mechanics for the Upper School, with Dr. F. W. Merchant.
