### "Dollars and Sense"

How can YOU benefit from having a Current Account? You'll find it much easier to keep an accurate record of your current expenses when you have a Current Account. When you pay all bills by cheque on your Current Account, you receive back, at the end of each month, all your cancelled cheques as well as a bank statement showing every withdrawal and every deposit you have made. Furthermore, they are much easier to file away than receipts and take less room to store. With them and your bank statements, you'll find it far easier to get an exact picture of how you spend your money. So it's a good move to use a Current Account for paying all current bills—and keep your Savings Account for actual savings.
