CONCRETE WORK - DRAINS 126 Elmwood Ave., Richmond Hill TU. 4-2612

Q. How much is it worth to you to use 15 amp. fuses?

A. It could be worth the price of a new electric motor (from a refrigerator, sump pump, oil burner, furnace fan, shallow well pump, washing machine, etc.)

BECAUSE if any of these motors should accidentally seize while a 30 amp fuse is protecting the circuit the 30 amp fuse will not burn out. (The seized motor will not draw quite enough current to burn the 30 amp fuse or not burn it before the motor is damaged.)

It pays to use 15 amp fuses, especially where there are motors of 1/4 H.P. or less on the circuit.

AUTO INSURANCE

This may be your opportunity to join the millions who save with State Farm!

Now...you may save important money on the cost of your auto insurance. State Farm aims to insure only "Careful Drivers" who have fewer accidents, fewer claims, and of course, cost less to insure. State Farm passes these savings along to its policyholders. What's more, State Farm uses an economical "continuous" policy that cuts down on paper work and lowers your insurance costs.

But savings are just part of the story! State Farm offers a personalized claims service that's hard to equal. Nearly 8,000 State Farm agents and claims adjusters in the U.S. and Canada are always ready to give you help.

Call today for complete information about the many advantages offered by State Farm "Careful Driver" insurance.
