### TOWNSHIP OF VAUGHAN

## Junior Office Assistant

Applications will be received until March 11th, 1957, by the Council of the Township of Vaughan from applicants for the position of Junior Office Assistant. Duties will include clerical assistance and bookkeeping of Municipal records for the Township of Vaughan.

Applications should be submitted on forms obtained from the Municipal Offices in Maple and returned to the undersigned on or before March 11th, 1957.

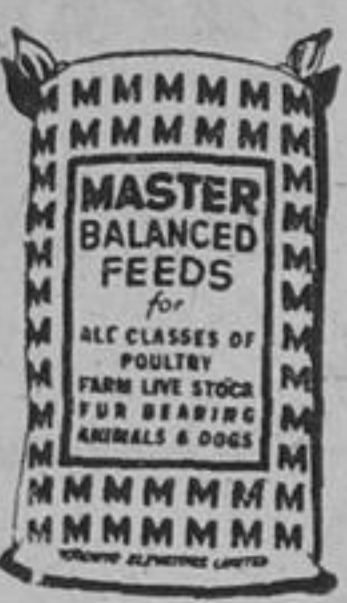

J. M. McDONALD,  
Vaughan Township Clerk,  
Maple P.O., Ontario

## THE RIGHT START For Poultry Profits

Healthier, faster growing, faster feathering chicks mean greater profits later in the laying pen.

That's why thousands of successful poultrymen are feeding Master Chick Starter Krums. They know that Master Chick Starter Krums produce faster growth, increased vigor, high livability.

Master Chick Starter Krums are farm-proven — actual tests show more gain per pound of feed.

## HIGHLAND PARK NEWS

CORRESPONDENT: MRS. A. A. SMITH  
22 Highland Park Blvd., phone Avenue 5-2784

### Home & School

The regular meeting of the Henderson Avenue Home and School Association took place on Wednesday evening, February 20, in the auditorium of Henderson Avenue School. The president, Mr. J. B. McRae, announced that the executive had voted a donation of \$20 to the Ontario Federation of Home and School Associations in honour of Founder's Day; this action of the executive was approved by unanimous vote of the general membership.

Mr. Allan Martindale, principal of Henderson Avenue School, spoke of the Safety Poster Contest which is now being held. Seventy two colorful posters were on display in the auditorium, divided into three classifications according to school grade. There were nine entries from each of the area schools; and final judging, by members of the Thornhill Daub and Sketch Club, will take place shortly.

The Association's annual election is in the offing; and the president, Mr. McRae, announced that nomination forms would shortly be mailed to all members.

The guest speaker of the evening was Mr. Robert Ferguson, of the Canadian Broadcasting Corporation. Mr. Ferguson described the school broadcasts which the CBC presents—not, he emphasized, as a substitute for the teacher, but as a supplement to the regular course of studies. There are, he said, two kinds of school broadcast: National Broadcasts, which are designed for school children in all ten provinces; and the separate Provincial Broadcasts, which are tailored more specifically to the requirements of the separate regions. Mr. Ferguson said that he was often asked how the CBC could put on national broadcasts in this field, when education was an area reserved by law for the provinces. The answer to this, he said, lay in the fact that all national broadcasts must first receive the prior approval of an Advisory Committee, which includes representatives of all ten provincial departments of education. Provincial rights were thus maintained.

Each province, said Mr. Ferguson, had its own program, for the most part planned and paid for by the province concerned, and closely linked in content to the provincial curriculum.

Ordinary radio is still the main medium for the school broadcasts. School television broadcasts are in an experimental stage. The CBC is not willing at the moment to make any public statement on the future of school TV, nor have the provinces taken any clear stand. One of the more doubtful points at present is the cost factor of TV programs, and the appropriate division of costs between the CBC and the provincial departments of education.

At the conclusion of Mr. Ferguson's talk, the meeting saw two short films illustrating the type of school television broadcast which was now being produced.

### United Church W.A.

As part of the recent re-organization of the Thornhill United Church Women's Auxiliary, two regional groups have been formed in the Highland Park district. One, under the leadership of Mrs. T. Barrow of Meadowview Avenue, will meet in the evening of the second Tuesday of each month the second, under Mrs. E. N. Meuser, will gather on the third Tuesday each month.

### Church Parade

On Sunday afternoon, February 24, Trinity Anglican Church in Thornhill was the scene of the annual church parade of Girl Guides and Brownies from throughout the area. This year, each girl displayed a special badge on her uniform, in commemoration of the 100th anniversary of the birth of Lord Baden-Powell, who founded the Girl Guides in 1910 to give official recognition to the enthusiastic groups of girls who had been meeting throughout England ever since the formation of the Boy Scout movement by Baden-Powell in 1908. It was also the anniversary — though not the 100th — of the birth of Lady Baden-Powell, the first Chief Commissioner of Girl Guides.

The Guides are now busy making an inter-patrol Nature Book. The book will be divided into five sections. Each section will cover a different aspect of nature, and will be the work of a different group of Guides. When complete, the book will be judged by Mrs. Jean McMullen, and a prize will be awarded for the best section.

### Cub News

Promotions have been announced for 10 Cubs. From A Pack, Fred Gunn, David Kennedy, Jim Wren, Russell Jones and Gordon Thomson will move up to become Scouts and from B Pack, the same step has been announced for Kenny Baker, Keith Buckingham, Steve Dockman, Steve Gatehouse and Mike Lives.

"A" Pack leader Barry Baker is moving to Montreal in March; Lou Barton will take over the leadership of the pack.

## APPLICATIONS ACCEPTED for ADOPTION of CHILDREN 4-16 years old

There are many children from 4 to 16 years of age, who are ready to be adopted. Homes are needed for these children now. Because of their age, religion, racial origin or a physical handicap, homes are not easy to find. Security for these children will come from a permanent home. This program does not apply to infants, since the demand for them far exceeds the number of infants available for adoption.

If you are a married couple interested in applying for the adoption of an older or handicapped child, you should be under 45 years of age. You must be in good health and financially capable of caring for the child's future. Your personal character, homemaking ability and capacity to meet the needs of a child requiring special care are important factors in the placement of these children.

• Applications for adoption of the following children—and other older or handicapped children—should be directed to the Minister of Public Welfare, Parliament Buildings, Toronto, Ontario.

Typical of the children seeking permanent adoption homes:

- A pretty little blonde Protestant girl who is 4 years old. She needs a good home and patient, understanding parents . . . because she is a spastic and must wear a brace on one leg. Fortunately, her chances of someday walking without a brace are promising. But she has to attend a therapy class every week, so she must be in a home near a clinic. This little girl's greatest need now is for love and affection as part of a permanent family.
- Two good-looking brothers who are 8 and 9 years old. They are Roman Catholic, able to speak both English and French. Both boys have brown hair and eyes . . . with bright personalities to match their healthy physiques. They need a good, permanent home where they can be accepted together as part of the family.

Your Local Children's Aid Society devotes its time and energy to serving the interests of children and your community.

## JOHN DEERE CRAWLER WORK UNITS

### Do So Many Jobs So Well and at New Low Cost

CRAWLER WITH BACKHOE

CRAWLER WITH DOZER

CRAWLER WITH WINCH

ARE you using crawler tractors that are bigger than you need? Is excessive overhead holding down the bigger profits that could just as well be yours? Then it's high time you became acquainted with a modern, cost-reducing John Deere Crawler Tractor and equipment and make your own comparisons.

**The New JOHN DEERE Crawler-Loader for All Contracting Work**

No matter what make of tractor you are now using—or what tractor units you have operated in the past—we believe you will agree you never saw a tractor and equipment that will do so much work, pound for pound, dollar for dollar.

It costs you nothing to see and operate this new 30 h.p. John Deere Crawler-Loader that brings you

**TIME-SAVING DIRECTION REVERSE**

Lets you move forward or backward at same speed — no time wasted shifting transmission gears. Detail shows lever in neutral, dotted lines show reverse and forward travel positions.

**TIME-SAVING FOOT THROTTLE**

Increases engine speed and ground travel speed up to 25 per cent. Helpful when maneuvering in close quarters. Inexpensive. Easy to attach to tractor.

**TIME-SAVING 5-SPEED TRANSMISSION**

Provides an extra speed forward for increased versatility in many operations. On such work as finished grading and landscaping, the 5-speed transmission quickly repays its small extra cost.

## Sluggish engine got you "hopping"?

HERE'S HOW you can regain lost power . . . set free 5 to 10 horsepower trapped in your engine!

Ordinary motor oils must be warmed up to flow freely. Until they do, your engine wastes power just pushing the oil around.

Shell X-100 Motor Oil Premium flows freely—even when cold . . . gives you 5 to 10 bonus horsepower!

And you get another big advantage. X-100 prevents acid action—major cause of engine wear.

For more power . . . more engine life . . . insist on Shell X-100 Motor Oil Premium.
