CARS ARE MY LINE

By Bud Lauria

Of all the fears that beset the car driver, I think the worst is the fear of turning over.

The fear of the blowout, which used to be a terrible anxiety, has largely been removed for those drivers wise enough to buy the several kinds of safety tires.

But turning over (the possibility that the roof will cave in or that you'll be flung out through the door) is a fear that is hard to dissipate.

The automobile companies, which are constantly conducting safety research, found an answer recently to the door flying open problem.

So, although I don't agree exactly that people should "drive scared," it appears like a good idea to keep your car doors locked from the inside at all times.

Speaking of doors, they're a point you should give particular attention to when looking over a used car. See if the door hangs straight and whether, when the window is open slightly, it closes firmly. A twisted body can be doctored up pretty easily with paint, but it's hard to fool those doors.

The salesmen thought I was eccentric the other day—I ran around our used car lot opening and closing doors. I just wanted to make sure.

Mrs. Deverell and Mrs. Acreman joined several ladies from Victoria Square around a quilt last recently. After lunch a short session further at the quilt pressed the regular W.M.S. meeting, which was in charge of Mrs. Joyce. Devotions consisted of prayers by the leader, questions asked, and answered by selections from Ephesians read by Mrs. Stanley Boynton, and a brief talk by the Temperance convener. Lunch followed, with ice cream donated by Mrs. Perkins. Cards for those absent through sickness were signed by all present.

For one of its projects last year, the C.G.I.T. and Explorers of Victoria Square, donated a sum of money to Headford Sunday School for the purpose of purchasing Bibles to be used in the Sunday School. The Bibles have been purchased, and on Sunday will be presented by Susan Terry, representing C.G.I.T. and Sharon Rumble, president of the Explorers, to Mr. Freeman Barker, Superintendent of the Sunday School, who will accept them on behalf of the Sunday School. Then they will be dedicated by Mr. Huston.

We were thrilled in Sunday School to hear that one of our girls, Sharon Rumble, had been the successful winner of the Dr. Wilson Cup, at the Temperance Rally held in Newmarket recently. This cup, awarded annually was won last year by the president of the Explorers, and the feat has been repeated. Sharon Rumble is president this year; and she delighted us by giving her speech in Sunday School.

Birthday greetings to Mrs. Stewart Rumble for next Wednesday, March 27.

Everyone missed the Brodie family from church and Sunday School on Sunday, and we hope all of them are completely recovered by now.

Mr. and Mrs. John Ireland and family were guests recently of Lorraine and Murray Acreman.

It is getting to be time when the annual Oratorical is held in the School. This has always been sponsored by the Home and School Association, but owing to seeming lack of interest, this organization has gone out of existence, temporarily, it is most sincerely hoped. However, a few of the former members are desirous of keeping this competition going; and finding themselves a little short of funds, have hit upon the idea of a travelling

Sluggish engine got you "hopping"?

HERE'S HOW you can regain lost power... set free 5 to 10 horsepower trapped in your engine!

Ordinary motor oils must be warmed up to flow freely. Until they do, your engine wastes power just pushing the oil around.

Shell X-100 Motor Oil Premium flows freely—even when cold... gives you 5 to 10 bonus horsepower!

And you get another big advantage. X-100 prevents acid action—major cause of engine wear.

For more power... more engine life... insist on Shell X-100 Motor Oil Premium.

MOST PRECIOUS METAL

STEEL is the foundation of the material well-being of every nation. Without steel there could not have been much progress. For steel is in almost everything. There is steel in the modern church, school, hospital, and college, and in the making and preparing of all building materials. There is steel, too, in the weapons of defence, without which the peoples who desire to maintain peace soon would lose their freedom.

Stelco as the largest Canadian steel-maker is proud of the part its products have played in the development of Canada.
