King City Notes

Youthful M.C.

Have trouble conducting a meeting? Take heart. As president of the church group for six, seven, eight and nine-year-olds, David guided by the agenda prepared by the regular leader Mrs. Vic Doner.

Mothers attended, as well as 15 children and three leaders from Laskay United Church, to hear the special speaker, Mrs. W. Turner, of Gormley, who is secretary of Mission Bands for York Presbyterial.

Mrs. Gormley had the full attention of the youngsters as she told the story of the painter of a stained glass window who had left all the faces of figures white, he had a dream, so the story went, in which he was told to paint the faces different colors to represent all the people in the world.

where the income dollar goes

In supplying hundreds of different oil products to Canadian consumers from coast to coast, Imperial last year took in a large number of dollars. What happened to a typical dollar?

Well, nearly 56 cents went to buy raw materials—notably crude oil—and for freight, a big item in a big country.

More than 26 cents went for operating and administrative costs, including wages and salaries, and for depreciation. Ten cents of each dollar went to various governments in taxes (this does not include the provincial gasoline tax.)

Half of what was left—or about 4 cents—was put back into the company's operations. The other half was divided among Imperial's 44,000 shareholders, whose investment makes possible the company's existence.

IMPERIAL OIL LIMITED
