 and General Manager,  
 The Toronto-Dominion Bank.

**This is our  
 lending policy . . .**

"The charge has been made that the small businessman has suffered more from the policy of monetary restriction than have the other segments of the business community . . . as far as (our) bank is concerned this is not true . . . our policy has been to take care of the legitimate credit needs of all of our customers . . . we made a survey of our loan accounts under and over \$100,000 as at June 30, 1957 and June 30, 1956 . . . in this period the number of our loans under \$100,000 showed a greater increase than the number in excess of this amount and in total there was no significant change in the pattern."

*Excerpt from the 1957 Annual Meeting address of  
 Mr. A. T. LAMBERT, Vice-President and General Manager*

In the recent period of strong credit demand, the consideration and understanding shown by The Toronto-Dominion Bank to customers old and new has resulted in a strengthening of the loyalty of our present customers and is attracting many new ones to us. We invite you to see the manager of the nearest Toronto-Dominion Bank. He will be pleased to discuss your business problems with you.

**1st Jefferson Cub Pack News**  
 The would-be cowboys who belong to the 1st Jefferson Cub Pack had "the thrill that comes once in a lifetime" at their meeting last week when Mr. Stan Williams, a "genuine" North American Indian, visited the pack, on the invitation of Baloo E. Ensor.

Akela Mary Enspr had explained the week previously who and what their visitor was to be and consequently there was a group of awestricken, large-eyed boy cubs on hand when the visitor arrived. But by the time the thrill packed evening was over Stan was just "one of the pack" and he has a standing invitation to return as soon as possible. During the meeting Stan Williams imparted many camping tips to the cubs, outlining the equipment needed for hiking. He showed the boys how to light an Indian fire and how smoke signals are made. One important tip given was to carry matches in a water-tight bottle or container. And Stan described how an ordinary bottle could be converted into a canteen with the use of glue and string.

Referring to his experiences as a guide for hunting parties, Stan Williams showed the boys the various tracking signs employed. He also said that the recent catastrophe which overcame a group of campers, in which two youngsters lost their lives, might well have been averted if they had all stayed together and lit just one fire. Advising the 1st Jefferson Cubs to always follow this rule when hiking, he then illustrated compass-reading and how the compass points could be determined, without a compass, by using the sun's rays and a broken branch or a pile of stones.

At the conclusion of the evening the cubs gave their inspiring guest the cub cheer, by way of an enthusiastic "thank you".

*Back To School*

On Thursday evening of last week Jefferson Public School held its annual Parents' Night in conjunction with Education Week. Jefferson School holds two such nights during the year, one in March and another in October. Each time, more and more parents show their interest by going "back to school," to see the youngster's work and to talk things over with the various teachers. The attendance at last week's open house reached the high of 70%.

All members of the school board were there. Chairman H. Betts, new trustee, Carson Whalen and Mr. Stan Leno, who is serving his second term (4th year) on the board. Mingling with the visiting parents, board members and teachers alike gave each parent their complete attention, only too pleased to discuss problems which needed straightening out, as well as passing along encouraging reports regarding Jefferson pupils.

The colorful and imaginative projects displayed by the pupils, as well as the neat and orderly work-books and penmanship specimens merit "congratulations."

**Primary Room**  
 The Primary room, taught by Miss I. Dennis, had two feature projects, the main one being a good display of "Safety on the Highway," and was set out by the small grades one and two pupils in their sandbox. Incidentally, this theme was carried out throughout the school. The other project for the beginners was a miniature post office; the result of their recent memorable visit to the post office at Richmond Hill.

**Jr. Room**  
 In the Junior Room, grades 2 and 3, taught by Mrs. Hopkins, there were some most original and ornamental "bird-feeding" stations in the east windows, with cedar-branches in which nested Canadian birds also bringing the breath of spring into the bright and cheerful classroom. Here, too, colorful vegetables "paraded" on posters referring to the health rules. An amazing sideline by this class was the Cork Zoo, Intermediate.

In grades 4 and 5, under the able teaching of Mrs. Burns, the tendency toward self-expression in paint was most apparent. There might possibly be a future engi-

neer in aeronautics in this class, and a painting of the Aurora Borealis behind a mountain, a great artist of the future maybe.

Principal Miss A. Leary's classroom, grades 6 to 8, had projects both varied and interesting. The pupils of grades 7 and 8 had apparently spent a great deal of time and effort on their European projects, smartly bound and cleverly designed "books" disclosing stories in words and pictures. The results were wonderful to see and it was well worth stopping to study each one. Grade 6 had succeeded too in their major effort along the same line with the various Canadian provinces and industries. Both pupils and teachers are to be congratulated.

An innovation for Parents' Night this year was the introduction of Public Health Nurse Miss Robbins, who enjoyed meeting with the parents and talking over the health problems of their children.

After the guests had visited the various rooms, tea was served to them in the teacher's room by Mrs. Stan Leno, Mrs. Carson Whalen and Mrs. H. Betts, the school trustees' wives.
