

Maple, Concord & Edgeley Districts

The Liberal is always willing to publish interesting items regarding people and events contributed by its readers in Maple, Concord & Edgeley districts. Our representative in Maple is Mrs. R. Thompson, Maple 126J; in Concord, Mrs. Ruth Keffer, AV. 5-2375; and in Edgeley, Mrs. James Ash, AV.5-4002.

York County Hospital News

by Caroline Edwards
In the year 1854, Florence Nightingale organized a hospital unit at Scutari which served to treat the injured from the battlefields of the Crimean War. Courage, and her tender devotion to the sick and injured won for her immortality. National Hospital Day in the month of May is in honour of the memory of the "Lady of the Lamp" as she came to be known. In the century since her pioneering effort, nursing has continued to develop into one of the most esteemed professions for young women. The profession of the registered nurse is one of great scope. There have been few periods in the history of Canada when the need for nurses has been more acute than it is today. Nor has there ever been a time when the nursing profession has offered to young women wider and more varied fields of opportunity. Nursing service permeates every phase of our national life since promotion of health and prevention of disease are as truly the responsibility of the nurse today

as is the care of those who are ill. The Ontario Hospital Association brochure dealing with hospital careers lists some of the opportunities for the registered nurse, supervisor, instructor, and director of nursing. Private nursing affords a great opportunity for satisfaction in direct service to others. Opportunities in the field of public health are increasing rapidly, and public health nurses are busy in schools, industrial plants, community health centres, homes and medical offices. Schools of nursing offer good posts to those interested in teaching. Nursing is an excellent preparation for marriage and a home-making career.

Opportunities for leadership are awaiting any graduate nurse who has the ambition to prepare herself adequately through post-graduate study, or a basic degree course at the university. The sounder the preparation, the greater is the opportunity for an effective and rewarding career.

The "Hospital Careers" pamphlet also draws attention to the fact that some nurses are open to young men as well as young women. There are some special places in hospitals where male nurses are particularly suitable, such as male wards, in the operating room, in psychiatric hospitals, as supervisors of orderlies and other positions of responsibility. The armed forces, first-aid service in industry, and private nursing of special cases offer further opportunities for men.

The educational requirements for entrance to an approved school of nursing are the same as for young women. Not all schools accept men, but there are a number across Canada that do.

The minimum requirement for entrance to an approved school of nursing in Ontario is the Secondary School Graduation Diploma with science (physics and chemistry, or agriculture) or an equivalent certificate as determined by the Department of Education. Some schools require Grade XIII if possible.

There will be an information booth where more detailed information regarding Hospital Careers, bursaries, etc., will be available at York County Hospital on their National Hospital Day, May 21st, 2:30 to 4:00 p.m., 1958. All high school students and young people interested in hospital careers are invited to attend.

Maple Notes

Maple Women's Institute
The May meeting of the Maple Women's Institute took place at the home of Mrs. M. Palmer on Wednesday night, May 12, with 23 persons, including five visitors present. In the first of a series of studies of Canadian provinces, Mrs. D. Jarrett read a paper on Newfoundland and Mrs. J. Leece that province. The roll call was an exchange of plants and bulbs and during the program Evelyn Palmer rendered a piano solo and Clarence Palmer played on his accordion. Mrs. M. Palmer then conducted an enjoyable concert. The business part of a meeting consisted mainly of a discussion regarding the forthcoming district annual to be held in Maple on Thursday, May 22. While refreshments were served, pieces of the 60th birthday cake, which was made by Mrs. V. Orr, were passed around.

Scouts
The First Maple Scout Auxiliary, Scout Committee and Scouters and Leaders enjoyed a pot luck supper at the Lions Room of the Community Centre on Thursday night, May 15, on the

occasion of the first anniversary of the Auxiliary's formation. Bill Johnson cut the birthday cake. Mrs. W. Davis thanked the Scout Committee and scouters for the work done with the boys, and Dr. C. Reeds gave the reply. School registration for children attaining the age of six years of age on or before December 31st, 1958 will take place at the George Bailey School, on Tuesday, May 27th, from 1:30 to 3:30 p.m. Parents are asked to bring along their child's proof of birth and immunization record for the school nurse who will be in attendance.

COMMUNITY AUCTION SALE OF HOUSEHOLD FURNITURE
Electric Refrigerators, Walnut Furniture, Dressing Table, Electric Washing Machine, Chesterfield Suites, Antique Articles, Dishes, Glassware
SATURDAY, MAY 31

Concord Socials

Baseball
On Tuesday, May 13, Concord was host to Vellore, and was defeated by them 8-0. Vellore stands undefeated as of now, but Concord hopes to be able to do something about that before too long. Concord played at Pine Grove on Thursday, May 15. The score was 11-1 for Pine Grove. On Thursday, May 22, Hope plays Concord at Concord. We hope to see better results from now on.

Socials
The little bright lights seen on Garden Avenue, last Monday night weren't fireflies, they were of course, sparklers, one of our favourite kinds of firecrackers. About a dozen two and three year-olds could be seen waving them vigorously around while some parents took charge of the noiser varieties. The children (and parent) behaved very well, and no first aid was required. As we watched we couldn't help but wonder who was getting the biggest thrill, the "big kids" or the little ones.

Mr. and Mrs. Ken Poole, and Mr. and Mrs. H. McLean and Stephen visited Mr. and Mrs. Oman Bowes, Garden Avenue, on Monday evening. Mrs. Alf Bagg and Mrs. James Hallowell visited Mrs. D. Keffer, on Friday afternoon, May 16. Mr. and Mrs. J. Keffer, Carol and Ron, and Mr. and Mrs. D. Keffer, Heather & Patricia spent the holiday week-end at Cedar Harbour, Lake Simcoe. Mr. and Mrs. Watts Hinchley spent the week-end at their cottage at Pefferlaw. Mr. and Mrs. F. R. Barrett, Beeton, visited Mr. and Mrs. Bev. Barrett and family, Vaughan Blvd., on the week-end. Mr. and Mrs. Harold Cross and their family went to their cottage at Sauble Beach for the holiday.

GRASS IS GOOD

BUT

Grass alone and even grass with a little grain will not keep a high producing herd, producing high throughout the summer months.

Experiment and experience have shown that the barn fed herd, on good roughage, properly supplemented with a good dairy ration, is better fed than the herd on pasture — even the very best of pasture.

Pasture is the best source of roughage protein — BUT cows just do not have the capacity to sustain high milk production and body condition on grass alone.

But there is a way — a specially designed feed to maintain milk flow of the herd on pasture — it's

Shur-Gain 14% Pasture Dairy Ration

We've all the details of this new feed, one that will fit well into your dairy feeding program, at the mill. Come on in — Let's talk it over.
