Bus Loss \$700.00 First Month

VOLUME LXXX, NUMBER 7

Richmond Hill's local bus line is enjoying considerable patronage but returns to date are far from meeting operating costs. The service is on a six month trial basis with the town guaranteeing losses up to \$2,000 for half year. Operating loss on the first month of operation was \$700.

Mayor and members of council were not too disheartened by the report given at Monday night's council meeting by Town Treasurer Russell Lynett. The members feel that with the end of the holiday season patronage will increase and are sti'l hopeful that the operation will come close to meeting expenses.

Hillsview Drive Cost \$50,000 For A Water System

Consulting Engineer E. Jorgensen informed Markham Township Council Monday that it would cost an estimated \$50,000.00 to construct a municipal water system on Hillsview Drive located just south of Richmond Hill. Due to a water shortage on the street a majority of the ratepayers had recently presented a petition to council for the installation of a water system. The residents are presently served by private wells. Mr. Jorgensen stated the most economical way to serve the area would be to hook into the Richmond Hill Municipal Water System. Richmond Hill will have no water available until 1959.

Sell Vaughan Water ham would in turn have to agree | already received draft approval by its area located south of Save Trees

He was arrested in Richmond Hill on May 24th at 1.35 a.m. by PC's D. Young and R. Newton. He had been weaving from shoulder to shoulder while west bound on Centre Street.

Begin Discussions North Yonge Bus Line

Reeve W. L. Clarl: suggested at Monday's session of Markham Township Council that the three municipalities (Richmond Hill and the Townships of Markham and Vaughan) owning the North Yonge Bus Line begin preliminary discussions regarding renewal of the T.T.C.

agreement covering the operation of the line. The present T.T.C. agreement which has been the subject of a good deal of contraversy in the past is due to expire on December 31, 1959. Richmond Hill is the major shareholder in the line.

Recve Clark felt it was none too soon to start thinking of the future operation of the line. He reported he had it on good authority that one or possibly two privately owned bus lines are willing to consider the proposal if the T.T.C. doesn't wish to continue.

Mr. Clark's suggestions followed receipt of a cheque for \$3,184.08 from the T.T.C. covering Markham's share of the profits for the quarter ending June 30th

THE LIBERAL OFFICE

RICHMOND HILL

Mayor Ken. W. Tomlin at the regular meeting of Richmond Hill Town Council Monday night expressed considerable concern at the long delay in obtaining approval for the Beverley Acres box drain project. The Mayor said he was pleased that council this year had been able to get action on the Harding and Elmwood sewers, the water treatment plant and other needed undertakings, but confessed frustration at the long delay with the box drain planned to eliminate drainage problems in Beverley Acres. "Frankly, I'm fed up with the long delay," said the Mayor, who intimiated that if he didn't receive a favorable reply within a few days from the Ontario Water Resources Commission he plans to go to the Minister of Health to demand action.
