FEEDING YOUR GRAIN? THEN . . . GET THE MOST OUT OF IT!

----- THE MOST GAIN!
----- THE MOST PRODUCTION!

Grains supply ENERGY. The major part of any livestock or poultry feed, apart from roughage for cattle, is made up of grains. You know all that!

But grains LACK SUFFICIENT — PROTEINS! MINERALS! VITAMINS! needed to produce fast, economical gains that you must have in your business. And you know all that!

To bridge the gap, to balance the grains you produced this past summer, to ensure fast gains or increased production, at minimum cost to you, you need only balance your grains with concentrates.

SHUR-GAIN CONCENTRATES

We have a SHUR-GAIN CONCENTRATE and a proven SHUR-GAIN FORMULA to suit every need you have for feed. Drop into the mill and see. We'd be pleased to plan with you, your entire winter feeding program using your own grains.
