HIGHLAND PARK NEWS
CORRESPONDENT: MRS. A. A. SMITH
22 Highland Park Blvd., phone AVenue 5-2795

Monday, October 27 was Father's Night for the Powell Road Home and School Association, and Mr. A. Miller, the vice-president, chaired the meeting. "The Sound of our Times" was the topic of the evening, as Mr. John E. Millyard, of the Bell Telephone Company, gave a demonstration talk outlining the discoveries of telephone scientists in their research into sound, and explaining how their findings have helped improve telephone service.

The members were shown a model of the first telephone, and were told briefly how the movement of a little diaphragm converted sound into electricity, which was then passed along a wire and turned back into sound again at the receiving end. Mr. Millyard played a recording of the world's first "long" distance telephone call, made over a distance of 6 miles from Brantford to Paris in the year 1876. He followed this with another historic recording — the first trans-continental telephone message, made from New York to San Francisco in 1915, and recorded at the San Francisco end.

Mr. Millyard then went on to a demonstration of stereophonic sound. He stated that telephone engineers had been working on this as early as 1918, and that given the first public demonstration in 1934. Using a stereo tape recorder, he demonstrated the sound of a ping-pong game, a passing jet plane, and a train going through a station.

Mr. Millyard then spoke of the importance of overtones or harmonics in enabling us to tell one sound from another, and demonstrated how three very distinctive sounds of the same pitch — a factory whistle, a soprano, and a piano — became very hard to tell apart when the overtones are removed by electric filters.

Speaking of how the electric signals into which a telephone changes sound were carried from place to place, Mr. Millyard said that many developments had taken place since the first message passed along a bare copper wire strung on poles and trees. He showed a section from the modern telephone cable, which may contain hundreds of insulated wires; and spoke of the modern micro-wave network which spans the continent, and enables television programs to be carried thousands of miles. In a television network, said Mr. Millyard, the picture goes by the micro-wave link

through the air, while the sound is carried on the normal land lines. That way, if one link was interrupted, the other usually remained in operation, and the viewer could be informed of the trouble. Mr. Millyard also mentioned that the micro-wave link could carry several thousand separate telephone conversations at the same time, without interference. Mr. Millyard also mentioned briefly the newest transmission system, the tropospheric scatter link, which enables micro-wave signals to travel several hundred miles, instead of the usual line-of-sight distance of a little over 30 miles.

This new system enabled telephone communication to be maintained with remote points like the mines in Labrador and northern Quebec.

Citizenship Award
At the recent Powell Road Graduates' Banquet, held at St. Patrick's Anglican Church, Miss Frances Carver was presented with the citizenship award by Mr. S. Griffiths.

Mothers' Auxiliary News
The local Guide and Brownie Mothers met at the home of Mrs. Jean Peters on Wednesday evening, October 22. It was decided not to hold any special money raising projects this year, but to give the first public demonstration in 1958. Using a stereo tape recorder, he demonstrated the sound of a ping-pong game, a passing jet plane, and a train going through a station.

Mr. Millyard then spoke of the importance of overtones or harmonics in enabling us to tell one sound from another, and demonstrated how three very distinctive sounds of the same pitch — a factory whistle, a soprano, and a piano — became very hard to tell apart when the overtones are removed by electric filters.

Temperanceville Socials

Layman's Sunday
Layman's Sunday was held at Temperanceville United Church on October 19, with Mr. Percy Bennett, president of the association as guest speaker. It was a thrilling experience and a challenge to hear Mr. Bennett speak. His message on "Stewardship" was one of inspiration to all laymen.

Personal
Congratulations to Miss Patsy Macklin and Hank Vanderpost who as a team won the Ontario 4-H Judging competition in dairy cattle at Guelph recently. Out of 55 teams, these two young people stood tenth — a very successful effort, indeed.

Mr. and Mrs. Joseph Levison and family had Thanksgiving dinner as guests of Mr. and Mrs. Milton Wells.

On Friday, October 31, Halloween, the new Temperanceville school will be having a Halloween party. The party for the junior grades will be held from 7 to 9 p.m. with costume judging at 7:30. This is to be held in the old school. The senior grades party is from 8 to 11 p.m. with judging of costumes at 8:30 p.m. There will be prizes for costumes and games. It will be a delightful evening of fun for the youngsters.

SUCCESS IS NATURAL AT David McLean Ltd.

Goblins and ghosts and Zorro and tramps, and other characters without definite identities, converged on the Sunday School room at Headford last Friday evening for a Halloween frolic. Church service at Headford being withdrawn on behalf of anniversary services at Victoria Square, Sunday School met at 10 o'clock last Sunday. Next week will be Missionary Sunday. There will be pictures on the life of David Livingstone, with a special offering for missions. It is hoped the money from the 25c investments will be turned in next Sunday, when pupils will tell how they invested their quarter.

Glad to know Mrs. Terry is almost fully recovered from her indisposition, but sorry to report Mrs. Cummer Lee under the weather with throat trouble.

Those Headford folk who remember the family of Henry Ford, who quite a while ago spent a season in our midst and faithfully attended our church, will be interested to hear that he spent one day last week visiting the Brodie family. Mr. Ford is now Rev. Henry Ford of the Baptist ministry and was attending a conference in Toronto last week and took time to revisit a few folk in the neighborhood. He has a two point charge in the north near Fort William.

The community was shocked and saddened to hear news of the death of Mrs. Wm. Leuschner on Sunday. Mrs. Leuschner, oldest resident of our neighborhood, was very much revered here. Funeral was on Wednesday from Wright and Taylor's.

LAFF OF THE WEEK

"I've just realized that I can no longer live on what I'm worth!"

FACTS and FAITH

(Continued from page 2)

worship as well as private, not merely to swell attendance at services of worship, but because of its deep understanding of the nature of God and man.

Worship is important because the recognition of God as Creator and Redeemer is inescapable. What does it mean to say, "I believe in God"? Belief in God is not some passive, impersonal kind of faith which has no bearing upon life. God is not some far-off distant deity, or an indefinable "It". God is personal, and has revealed Himself in His Word as our Creator and Redeemer. Because of this we owe to Him the worship and adoration of our hearts as well as the commitment of our lives to His service.

The word "worship" means to bow, to prostrate oneself, to serve. Worship then, is an act in which we gratefully acknowledge ourselves to be completely dependent upon God. Worship involves the recognition that God made us, and that without Him we are nothing. Every breath we breathe, every ounce of energy we possess for our work, every thought we think is possible because God makes it possible for us to live. Our very life is dependent upon God.

We all recognize that a child is obligated to honour and respect his parents. When we come to the Bible we discover that God is not only our sovereign Creator, but also a Loving Father, who has made it possible for us to live in fellowship with Him through faith in His Son. What would we think of a person who on no occasion ever paid tribute to the memory of his mother and father? What do we think of a child who takes for granted the protection and provision of his parents? The answer is obvious. What then, are we to think of the person who in spite of all his good qualities, willfully neglects to worship God for His great goodness? Isn't such person puffed up with pride and self sufficiency?

The case for worship as a means of recognizing God as supreme in life is well taken, you say, but you still haven't shown why it is necessary to worship in church. Why can't our acts of worship be done at home within the quiet and peace of our own bedroom? Why go to church to do something you can do equally well at home?

There is no doubt that private

GORMLEY NEWS
CORRESPONDENT: MRS. CHAS. MILSTED
Telephone Gormley 5201

Over one hundred and twenty-five neighbours and friends gathered on Friday evening at the home of Mr. and Mrs. R. C. Baycroft for a miscellaneous shower for their daughter, Dorothy, and Mr. Ross Smith. The young couple were presented with many beautiful gifts. Mrs. Jack Gamble was chair-lady. Mrs. R. Elias and Mrs. Wm. Ash were hostesses. The community extends its best wishes to the young couple.

They were guests of honour at another miscellaneous shower on Saturday evening at Mr. and Mrs. George Hoshel's at Vandorf. The hostesses were Mrs. Hoshel and Mrs. Roy Morley.

Mrs. Clifford Eade entertained for Miss Dorothy Baycroft at her home in Aurora on October 1 at a miscellaneous shower.

The Bell Telephone Commercial Office entertained her on October 7.

Mrs. Victor Stover of Markham spent the week-end with Mr. and Mrs. Frank Harvey.

Miss Marilyn Harmon spent the week-end at Warton.

Mrs. Bruce and Genevieve spent the week-end at Owen Sound.

Mr. and Mrs. Homer Patterson of Osgoode, Ont., and Mr. and Mrs. A. E. Fader of Fort William visited the latter's brother and sister, Mr. W. H. Banford and Mrs. E. B. Read last week.

Master Dean Harvey is progressing nicely from his siege of pneumonia.

Miss Dorothy Baycroft spent a day in Toronto last week representing the Newmarket office of the Bell Telephone at an Employee Management meeting. Miss Baycroft stayed at the Park Plaza.

Mrs. Albert Miller of Queensville visited Mrs. Sproule on Sunday at the Gormley Rest Home. Mrs. Miller who is 94½ years old, was a high school chum of Mrs. Sproule when they both attended Newmarket High School.

Mr. and Mrs. Russell Heise visited Mr. and Mrs. John Hall at Hagersville recently and also called on Mr. and Mrs. Alex Douglas (Rhoda Cober) and family of Hamilton.

Miss Doris Milne of Toronto spent the week-end with Miss Dorothy Baycroft.

Mr. and Mrs. R. G. Britnell and Mrs. E. C. Wilford of Toronto visited the St. Lawrence Seaway, and also at Montreal and Ottawa for several days.

Mrs. R. Bovaird, Mrs. B. Boby, and Mr. and Mrs. L. Boynton and Patsy had dinner on Sunday with Mr. and Mrs. Russell Scott and family of Scarborough.

Baby Linda Evelyn Empringham, daughter of Mr. and Mrs. Harry Empringham, was one of the babies baptized at the christening service at St. Mary's Anglican Church, Richmond Hill, Rev. J. O'Neil conducted the service. The godmothers were Miss Eileen Goodison and Miss Evelyn Beatty — the godfather was Mr. James Empringham. The grandparents, Mr. and Mrs. R. G. Britnell entertained about forty friends and relatives at a luncheon at their home, following the christening service.

Mr. and Mrs. Clem Elias, Mr. and Mrs. Russ Elias, Mrs. L. Boynton, Mr. and Mrs. M. Ash, and Mr. and Mrs. J. Dennie attended a miscellaneous shower on Monday night at Belhaven ball for Miss Shirley Knappett and Mr. Jerry Verdoold.

NOTICE
To Property Owners
in the Township of Markham

In order to acquaint all Property Owners of Markham Township with regulations regarding fences on highways in the Municipality, By-law No. 1720 is published hereunder:

Township of Markham
By-Law Number 1720

A by-law to prohibit building or maintaining fences on highways and to require removal of them.

BE IT ENACTED BY THE COUNCIL OF THE CORPORATION OF THE TOWNSHIP OF MARKHAM:

1. The building or maintaining of fences on any highway in the Township of Markham is hereby prohibited.
2. Every fence which has been built or is maintained on a highway in the Township of Markham shall be removed by the person by whom the same was so built or is maintained.
3. Notwithstanding the provisions of R.S.O. 1950, Chapter 243, Sec. 486, the provisions of Paragraph 1 and 2 of this by-law shall apply to a worm fence.
4. Any person convicted of a breach of the provisions of this by-law shall forfeit and pay at the discretion of the convicting Magistrate a penalty not exceeding the sum of \$300.00 for each offence exclusive of costs.

PASSED at the Township of Markham this 6th day of October, 1958.
