W. Sutherland '59 Pres. County Soil & Crop Ass'n.

Over 350 farmers turned out for the annual meeting of the York County Soil and Crop Improvement Association at Newmarket last Wednesday, including a number from adjoining counties to again tax the capacity of the town hall. In spite of zero weather, the hall was nearly full at 10:30 a.m. when President R. James Darlington of Maple called the meeting to order. Tim Wilson of King won the \$5.00 bill for the early bird draw, open to the 85 who were there fifteen minutes ahead of time.

Following the business items and discussion of projects carried on by the Association Vice-President W. A. Sutherland of Milliken was called on to chair a quiz panel and introduce his panel members — George Farris of Cookstown, farming 200 acres with a 100 acre pasture farm as well, and featuring a large dairy herd and 8,000 laying flock of hens; Raymond Glass of Queensville represented the smaller land holder, having 50 acres and keeping about 25 beef cattle and turning off 180 home farrowed hogs, the latter being fed on pre-mixed purchased feed delivered in bulk; As the theme of the discussion was "Time is Money", the defence for bulk handling of feeds and fertilizers was handled by H. G. MacLeod, Production Manager of U.C.O.; and finally, Frank Barnes of the Farm Economics Branch, Ontario Department of Agriculture, Toronto, who had actual figures of reduced costs from time saving chore plans studied on D.H.I.A. farms. It was not long till the audience joined in the discussion.

The two afternoon speakers from the Ontario Agricultural College gave several practical suggestions and answered several questions from the members. Dr. W. E. Tossell of the Field Husbandry Department spoke on the new developments in hay and pasture management, holding out the advantage of using named varieties of grasses and legumes. Using both late and early varieties spreads out both hay and pasture season. Dr. B. C. Matthews of the Soils Department, used an interesting chart to show the point of diminishing returns when heavier amounts of fertilizer are applied than recommended by the soil tests. The objective should be increased net return, rather than increased yield.

The newly elected officers and directors are: President, W. A. Sutherland, Milliken; Vice President, C. W. Winger, Gormley; Sec.-Treas., W. M. Cockburn, Newmarket; and Directors: Carl Boynton, Nobleton; Frank Marritt, Keswick; Archie Cameron, Woodbridge; Oliver Bales, Sharon; Kenneth Deacon, Unionville; Stuart Watson, Markham; Alex Davidson, Agincourt; Russell Little, Agincourt; Ernest Crossland, Newmarket; Thos. Clark, Stouffville; Donald Brodie, Gormley; James Mortson, Queensville.
