

HAVE YOU HEARD THIS ONE?

Employer: "That's fine, Miss Jones. What other qualifications have you?"
 Young Secretary: "Well sir, I need the job very badly and I'm willing to struggle, if given the opportunity."
 The best qualification a secretary can have according to my business acquaintances is trust and reliability. And those same qualifications go for dry cleaning establishments, too. We like to think we measure up. And I know you'll agree when you 'trust' your garments to us that you can 'rely' on us for both these important qualities.

Expect 3 Mill Increase

Finance Head Sanderson Suggests Town School Bd. Drop Contingency Fund

Finance Chairman Trustee Harold Sanderson of the Richmond Hill Public School Board at Thursday evening's bi-monthly meeting recommended the deletion of the contingency fund from this year's already approved budget.

This followed a telephoned request from Town Councillor Robert Ross to Trustee Sanderson asking that consideration be given to decreasing the budget estimate of public school requirements where possible to bring down an anticipated higher mill rate.

Trustee Sanderson based his recommendation on the proviso the board's planning committee (Chairman L. D. Clement and Trustee J. Rabinowitch) finds two new portables included in overall budget estimates will not be needed this year.

The finance chairman argued the supplementary assessment which is expected to be around \$12,000.00 based on new homes expected to be occupied this year, could be used in case a contingency arises. (In making up the budget it was decided to use the anticipated supplementary assessment for the purchase of two portables).

If the contingency fund was deleted the public school budget could be reduced by \$10,967.45 (2 per cent of the school budget), about 1/2 mill. Indications at present are the public school levy will run three mills over last year's 17 mills to 20.21 mills.

Chairman L. Clement said the planning committee would be meeting to estimate the classroom requirements, based on pre-school and new housing figures, for an addition to McConeghy School and a new school in Pleasantville. Such a meeting would try to ascertain whether portables would be necessary this fall. However, Chairman Clement intimated the committee may not have the work done by May 1st, the last date for reducing this year's budget and submitting it to council.

So far the pre-school survey recently undertaken by public school officials appears to be running lower than anticipated, at less than 300 children. The final count has not been tabulated, however.

Crosby School Debenture Short
 Earlier in the meeting Trustee Sanderson pointed out — "why the board put in a contingency fund," when it was revealed the Crosby School debenture account was short \$2,400, due to the Ontario Municipal Board's approved debenture sale netting less than

the requested amount from the school board after it was sold to council earlier this year.

"It might be a good idea to include in a debenture request that we need the entire amount," said Trustee Sanderson.

"We could ask for more to be sure we got the required amount," pointed out Trustee Mrs. Margaret Southwell.

"We don't know when we ask how the market will be and so how can we know the extra amount to ask for," commented Trustee Sanderson.

Trustee Sanderson recommended that the council be informed the Crosby Heights debenture was short \$2,400 for the project and that the board would like to be advised whether or not the council intends to forward the balance due. He also asked that the council inform the board what the net proceeds from the sale of debentures for the additions to Beverley Acres School and Walter Scott School are.

At present there is \$2,500 left in the original Beverley Acres School debenture account. After settling an outstanding account for some shelving in the school, the remainder will be transferred to the debenture account of the Beverley Acres addition debenture account.

Send Minutes To Council
 Following a request from council, the board on motion of Trustee Southwell agreed to send approved minutes of regular meetings to the council, except personnel matters.

An in-service training course for kindergarten and primary teachers in this district is being held in Richmond Hill. There are 12 weekly two-hour sessions which culminate in a 1/2 credit for the teacher taking the course. It costs \$15.00 per teacher. The local board recognizes the course as a salary schedule category credit.

In a policy move the board decided to ask any group using free space in the public schools for their meetings whose attendance falls below 12 members for two consecutive meetings to meet elsewhere. On motion of Trustee Mrs. Southwell, seconded by Trustee Sanderson, caretakers will be asked to inform the secretary of those present at outside organization meetings and if attendance is less than twelve for two successive meetings, they must meet elsewhere. The board agreed unanimously.

There was considerable discussion on the schedule of rates for use of the public school premises by outside organizations, including religious groups and the regulations regarding the "free list." This latter includes such non-profit organizations as scouts, guides, cubs, ratepayers' organizations, etc. Use of the schools on Friday evening will be discouraged if possible to permit the caretaking staff to do their cleaning. A revised list will be resubmitted at a later board session for final approval by building committee members, Trustee Sanderson and Trustee C. Williams.

A request for use of the Crosby School auditorium by the local Guides for a cooking school demonstration was turned down. It was pointed out a musical evening by a school group is being held the following evening and a rehearsal will probably be held on the night requested.

The stuffed birds in glass cases in the upper hall at the McConeghy School will be moved downstairs for the younger pupils. The board agreed to Principal G. McDiarmid's request an aquarium be purchased and installed in the upper hall. This is especially for the older pupils.

Rotary Plans Radio Round-up
 At a recent meeting of the Richmond Hill Rotary Club, it was decided to sponsor a Rotary Radio Round-up on the night of Friday, May 1st from 6:30 p.m. to midnight over Station CJRH. The object of Rotary Radio Round-up is to provide Richmond Hill Rotary with funds for community projects.

Channel 6 CBLT Sunday 5:30 p.m.

This Sunday, April 19, at 5:30 p.m., on Channel 6, CBLT-TV, viewers will see the work being done at the Princess Margaret Hospital for the treatment and research of cancer.

Township School Area Bd. —

(Continued from Page 1)
 ro) went to Ottawa before the CNR announcement; Metro is interested in keeping the line within Metro Planning Board jurisdiction; the CNR must establish marshalling yards here; Metro and Mr. Gardiner are powerful; the CNR are said to be acquiring property fast and appear to mean business. He proposed his motion with a further clause, namely, that should the route be approved, the board would demand that schools nearby be relocated at the expense of the CNR and that access to all new schools meet with trustees' conditions. Trustee Parker said he entirely disapproved of this negative attitude, that much of it was based on hearsay, that there seemed to be a possibility of an alternative route. He wanted to go on record that the board would have nothing to do with considering the railway factor in school planning. Trustee Taylor agreed to amend his motion to exclude the conditional clause and, seconded by Trustee Parker, it passed unanimously.

Musical Concert
 Supervising Principal Eilert Sand reported to the board regarding the addition to Charles Howitt School, he said the matter had been submitted to the Ontario Municipal Board, and Markham Township expected to have papers relating to the new school south of Thornhill in OMB hands within the week. He asked and was granted \$100.00 to subsidize an area schools musical concert to be held May 22 at Thornhill High School Auditorium, to involve over 500 children and to include an art display of considerable magnitude. An admission charge would help defray expenses, possibly all, but money would be required meantime for rental and buses. During March attendance was 89.21 per cent because of a "plague of illness", and enrollment dropped by 11 to 2319. A six-weeks in-service training course in kindergarten-primary teaching began April 7, and a great many Awa teachers were attending a short evening course in guidance and testing being held at MacKillop School by a member of the Department of Education Special Services Branch staff. Mr. Sand noted that access to the new school needed to be checked, and Chairman Roy Biek asked the property committee to get in touch with the Markham Township Planning Board about roads and extensions of roads to the site. Mr. Sand said the principals had all been recently involved in interviewing

new teachers and should be commended for their co-operation.

Trustee Parker reported a complete replacement of the boiler at Henderson School. Temporary heat had been provided in each classroom for the four days the work was expected to have taken last week. Mr. Sand said there was insurance coverage and a report from the insurance company was expected. He felt the cause of the break-down was not low water because there was an automatic low-water cutout, but rather that the heating system had been working at full capacity over the years.

Trustee G. Skinner, for the education committee, reported request for leave of absence for one teacher to attend teachers' college, and resignations of seven others. Two teachers, Mrs. Birkson and Mr. Myers, were to return after leave of absence, and 12 additional teachers had been hired for next September. The trustees discussed the question of an age limit for new teachers. Supervising-Principal Sand explained that applications were sometimes received from teachers retired by other boards who wanted to go on teaching. The board passed a motion by Trustee George Chandler, to the effect that any teachers over superannuation age, applying for employment would be interviewed by the board and considered according to their individual merits.

Mr. Sand said he would like the board to replace the basement classroom at Richvale School with a portable. Trustee Parker noted ground space was small. The question was turned over to the property committee for solution. Mr. Sand asked permission, granted by the board, to go another way about getting right-of-way through private property to the Charles Howitt School. Vaughan Council had not reported as to its efforts in that respect.

"What about a motion now advising German Mills there is some doubt about accommodating their children next year?" Chairman Biek asked. The trustees agreed they would have to decide about the German Mills children, now attending Thornlea School before too long, but favored further discussion at a later meeting.

Many types of cancer can be cured by radiation or surgery, or a combination of both. Regular medical check-ups on persons over 40 years of age may reveal cancers in a curable stage.
