FACT FOR THE WEEK:  
The seven symptoms that  
may indicate cancer are:

1. Unusual bleeding or discharge.
  2. A lump or thickening of the breast or elsewhere.
  3. A sore that does not heal.
  4. Persistent changes in bowel or bladder habits.
  5. Persistent hoarseness or cough.
  6. Persistent indigestion or difficulty in swallowing.
  7. Change in a wart or mole.
- It is wise to see your doctor when you suspect the presence of cancer.

## W.I. Celebrates 25th Anniversary By Bus Trip to Niagara

On Thursday, May 14, 33 ladies boarded a chartered bus to enjoy a trip to Niagara Falls. Even though the day was a bit chilly, the atmosphere in the bus was full of warmth and cheerfulness for all were prepared to enjoy this outing. Spring beauty was everywhere. Travelling most comfortably in this big bus driven by John Langdon, we reached the new 150' high bridge at Burlington and the toll gates. Passing through these was a "first experience" for a number of the passengers. From there on the beauty of fruit trees in bloom was most impressive. Fields of grapevines were being worked both by horse (an unusual sight these days) and by tractor. At Stoney Creek there were a number of nurseries and in Oakville much market gardening. Magnolia trees are not common here but many of these in full bloom were unsurpassed in beauty on the whole trip.

At Jordan we stopped to go through the historical museum of the Twenties. The intricate work on the 1806 wedding gown, of a linen suit, nightgowns and night caps and pantaloons, the fine quilting and other handicrafts, needlepoint, coverlets woven on a jacquard loom, beaded pin cushions, a dower chest filled with linens and many other handmade articles were admired. Old beds, chests, chairs, telephone used up until 1900, old pipe organs, one dated 1792, old parlor stove, all well preserved were also on display. Beautiful dishes, some dating back to 1785 and other antiques including a wicker stroller and a pram for the baby as well as clothing of yester year were there in all their glory.

Continuing the trip we saw the "Old Fry House" which had undergone so many difficulties in moving this winter, also the old stone school house with the large bell on top.

After dinner we saw Old Fort George with its look-outs and large guns. At Queen's Heights Park we stopped to see a magnificent view as we did at Niagara Falls. The floral clock was beautiful with its red, yellow and white tulips. The Kiserka cherry blossoms (Japanese) were a picture we'll never forget.

After spending some time at the falls which everyone found so fascinating, we started on the return trip. Having had dinner at "The Beacon" a lovely spot overlooking the lake, we decided to call at the Prudhommes' Recreational Centre for coffee.

The rest of our journey home seemed to pass quickly and we arrived safely at Temperanceville about 7 p.m. It was indeed a very pleasant way to celebrate a 25th anniversary. It is hoped that any of our ladies who were unable to go on the trip will attend the anniversary to be held on June 10 at the church for the W.I. members.

## W.I. Meeting

On Wednesday evening, May 13, the W.I. meeting had the great pleasure of having as guest speaker, Mr. David Graham, whom Mrs. Thomassen introduced as the older of her kid brothers, born in India. Here he received much of his education, but later graduated from McMaster University, Hamilton. He has been in liaison between the Canadian government and the Indian government and came to speak to us of his experiences as the first Canadian to be sent to work through the Colombo plan on the dam project in Pakistan.

Mr. Graham had the hiring of the tribal workers on this project. They were good workers, but came to the job armed with rifle, gun belt and knife. These had to be checked at the tent door before beginning the day's work.

Mr. Graham feels the Colombo plan should definitely be continued to help further the understanding of other countries, their needs and difficulties.

The economic status of India is terrible. If desired a girl can be purchased by men for \$60.00. She can refuse to be bought by the purchaser, but on the whole appreciates a home as they usually come from large families in need of better circumstances.

Although things have greatly improved the last 20 years, it is the ambition of the people to have our standard of living within the next 60 years. This will be very difficult to attain, and perhaps cause bloodshed among their peoples, in the realization of this objective, but they feel it will be worth the hardships.

Mrs. Charles Henshaw thanked Mr. Graham for this most enlightening, educational and in many spots, humorous address.

The meeting was held May 13 at the home of Mrs. Nelson Thompson. Facts about a prominent woman were given in answer to roll call. We were favored by two piano selections by Billy Thompson.

A letter from a member of our sister W.I. in Scotland thanked the members for their Christmas gift of apples.

On June 9, at 8.15 Temperanceville W.I. is invited to the home of Miss Burrows on the 6th concession of King. A report on the York Pioneer and Historical Society gave progress of work on the log house and the work planned on the Dean House. It was decided to order 50 spoons souvenirs of Queen Elizabeth's visit to Canada to be sold in our district. \$20 was voted toward the furnishing of the staff room in the Temperanceville schoolhouse. Our W.I. will have an exhibit of a floral display at Aurora Horse Show. We will continue our membership in the Canadian Association for Consumers. District annual delegates are Mrs. Nelson Thompson, Mrs. D. Chalk, Mrs. F. Hare and Mrs. W. Jennings.

## School News

Recently at the Temperanceville school house there was a scene of happy little faces when Mrs. Blackburn and grades 1, 2 and 3 entertained the pre-school youngsters and their mothers. The children were delighted as they listened to, or took part in, the nursery rhyme plays and in the square dancing. Chocolate milk, sandwiches and cookies were enjoyed by the children while the mothers chatted over their cup of tea.

Mrs. Howard Clark has returned home after her period of illness in Newmarket Hospital. Friends are looking forward to seeing her out again.

After enjoying the winter months visiting with their daughter in Vancouver and a visit to the Bahamas, Dr. and Mrs. S. G. Chalk returned home Sunday, May 17.

Many thanks to Mrs. D. Chalk for the lovely spring flowers placed at the church altar these past two Sundays.

We are sorry to hear of Mr. Floyd Wilson's accident at work this week end. Mr. Wilson fell from the top of a large tire, on which he was standing to reach something at work, and fractured his elbow. From work he was taken to hospital with this painful injury.

Audrey Herrema entertained her friends at a scavenger hunt Friday evening.

**PICKERING:** Dagmar recluse, Nicholas Stevenson, was found dead in his small one-room shack on Friday night. Two nearby residents, Harold Walker and Chas. Dixon entered his home through a window when they discovered the door locked from the inside. He had been dead for almost one week.

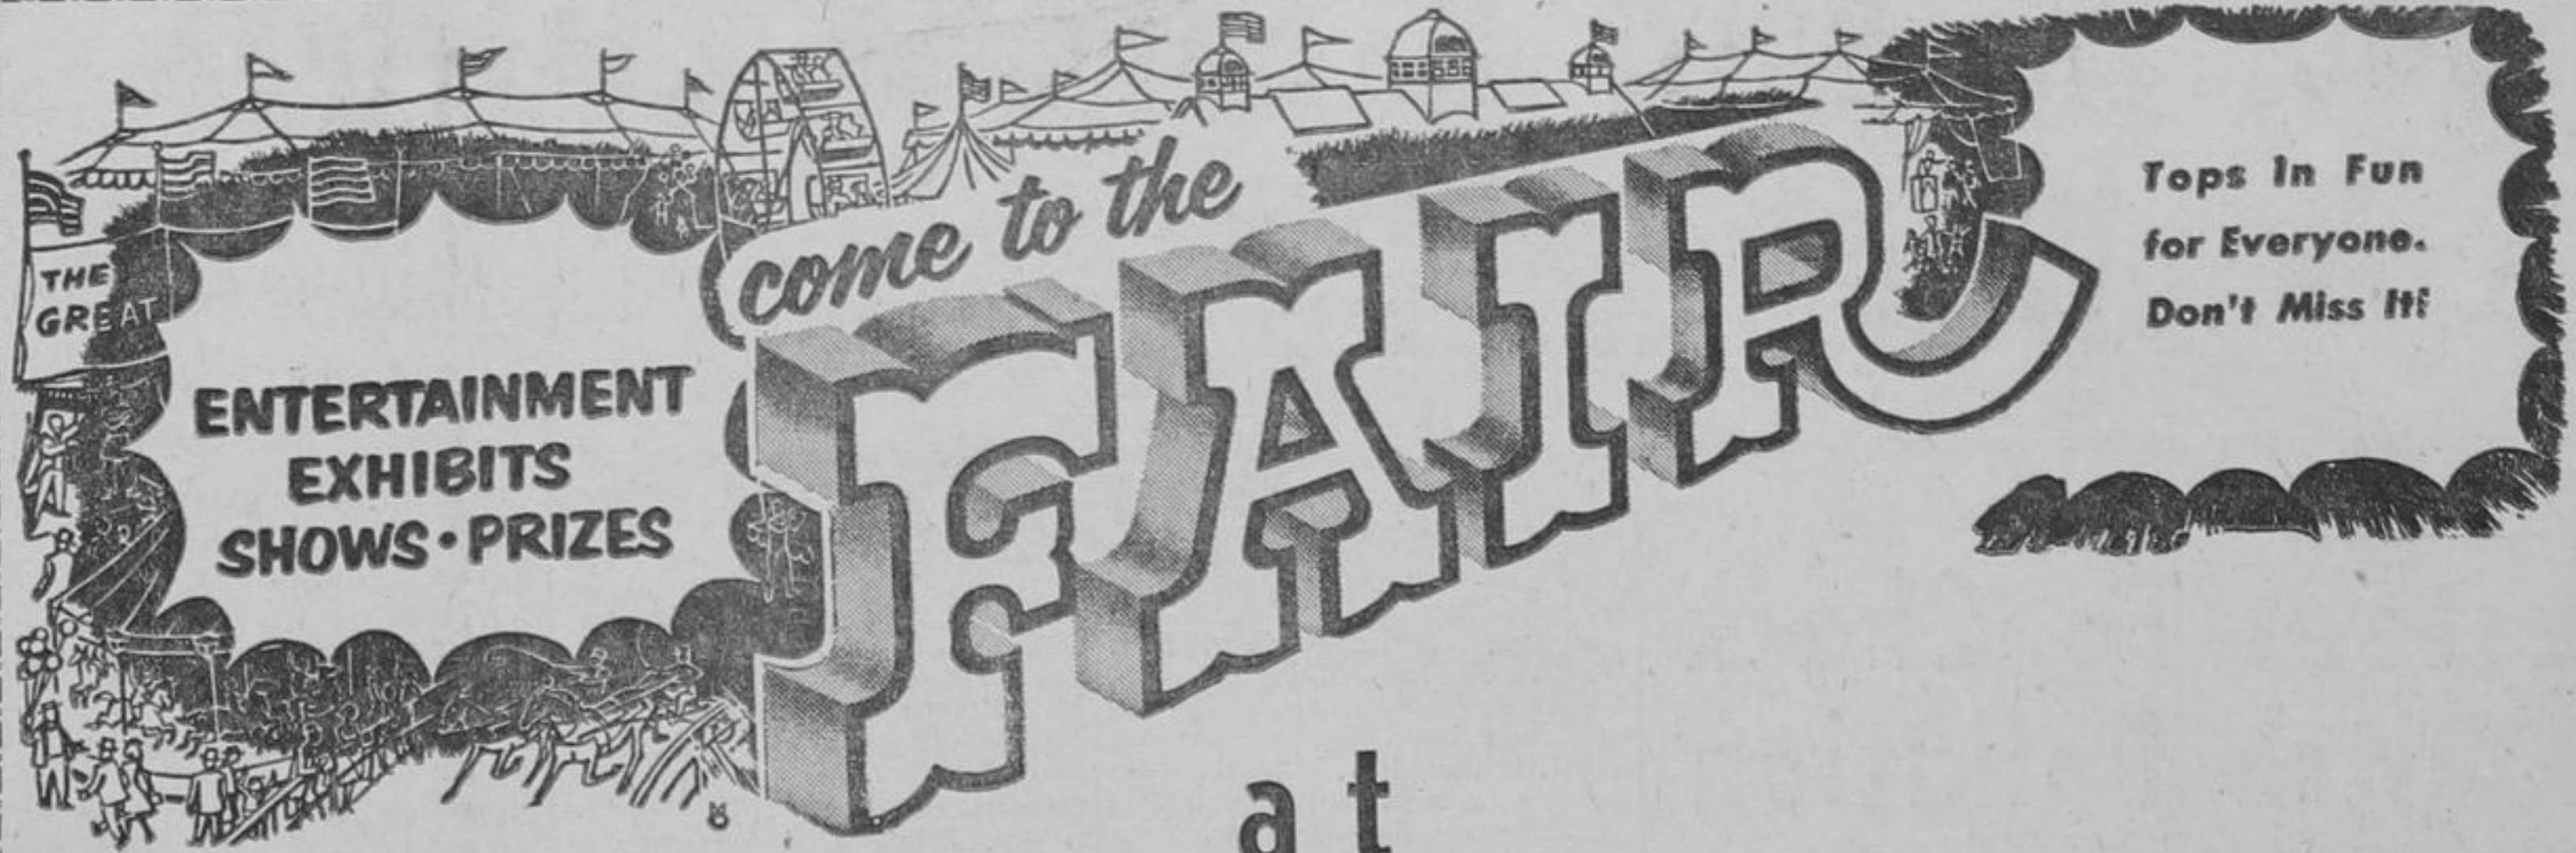

**STOUFFVILLE:** It is unlikely that Stouffville's C.N.R. station will ever be closed, according to Mr. John Abell, Harold Street, a former chief dispatcher with the C.P.R. and later with the C.N.R. He noted that in spite of a noticeable decline in passengers in recent years, a local depot is necessary to handle express deliveries. At the present time, a transport truck makes direct calls to the station from Toronto.

**WHITCHURCH:** Township Council keeps a close check on wrecking yards in the municipality before granting applications to operate.
