Water Short King City Cause Of Restrictions

First word of King City's current shortage of water came at the July 13 Village Trustees' meeting when Water Commissioner Ronald Bolton said. "We've got to start restricting water," after he studied daily readings of the well's supply.

Trustees agreed to circulate notices asking residents on an honor system "not to water lawns in the daytime between 8 a.m. and 8 p.m.

We'll try this and if there still isn't enough water we'll have to extend restrictions," Mr. Bolton noted. He reported water level in the 50-foot well had been dropping steadily cy. ... at your fingertips

The fireman's hat is a symbol of protection. So is your fire insurance policy.

When fire strikes, alert firemen are soon on their way, accepting risks themselves to protect your life and property. And when fire strikes, fire insurance steps in to offset disastrous financial loss.

Every week, some 1,400 fires break out across Canada. Companies writing fire insurance pay out more than one hundred million dollars annually in claims. And yet virtually all the fires which take the lives of more than 500 Canadians each year are preventable.

Fire insurance safeguards your property. But only you can guarantee against loss of life.

Safety pays dividends...saves lives, helps to lower your insurance costs. Be Careful.

ALL CANADA INSURANCE FEDERATION

en behalf of more than 200 competing companies writing Fire, Automobile and Casualty Insurance.
