Village Trustees Ease Water Restrictions

Water restrictions were eased by King City Village Trustees, meeting August 24 in the Fire Hall, when they decided to permit lawn watering between 7 p.m. and 8 a.m.

For summer, trustees had placed a daytime restriction forbidding lawn-watering between 8 a.m. and 8 p.m.

Urging an extra hour be allowed householders, Water Commissioner Ronald Bolton commented, "People were good enough to co-operate in saving water and now it's getting darker earlier, 'We'll soon be over the hump.' He reported heavy rains had helped ease water consumption.

Mr. Bolton read a letter from Dr. A. E. Berry, Ontario Water Resources Commission General Manager, indicating water from both wells was "very hard," there were no adverse constituents and no recommendations.

The O.W.R.C. engineer, Charles Kretsch, had prepared the report after his July 13 inspection of King City's Waterworks, making note of the proposed installation of telemetering controls.

Mr. Kretsch found "average daily consumption 170,000 gallons per day" with "some difficulty encountered in meeting the high demand in summer months."

He noted, "The bacteriological quality of the water from both wells is satisfactory. Chemical analysis indicates it is quite hard, but otherwise satisfactory."

Secretary-Manager G. Thompson reported preparing an official list of house numbers for the village, since newer sections were awaiting numbers.

Mr. Herbert Ross of King City Lions' Club is to be supplied with the list so that householders wishing to purchase numbers from the Lions may obtain them from Mr. Ross.

Over 500 structures Mr. Thompson announced slightly over 500 occupied and unoccupied buildings were now listed in the village. Householders may also verify their correct house numbers from water bills or by contacting Secretary Thompson at the Fire Hall.

Trustees Donald Findlay and Bolton spoke strongly in favor of carrying out the decimal numbering system started about six years ago, when Mr. Bruce Hall, Chairman of Heritage Park Ratepayers' Association, inquired about the system's merits.

His subdivision is considered a special case, where, of the four original streets, Hamby Ave. remains unchanged and Humber Crescent unites north, west, and south sections.

Mr. Thompson was asked to survey Heritage Park to see what ditching work is required.

Mr. Hall turned over a \$300.00 cheque, subscribed by Heritage Park residents, toward the purchase of four street lights. He and Trustees agreed the subdivision would pay a maximum of \$300.00 and would receive a refund if half the total cost was a lesser amount. Balance of cost of lights comes from village funds.

It was noted that \$400.00 a year was being allowed for fire-watching telephone service, each of the four brigade officers on 'phone duty to receive \$100.00 a year. For the balance of the year the amount is to be \$50.00 each.

Chairman Findlay questioned if early water-drilling sights should be looked into. Mr. Bolton asked where Mr. Findlay replied, "The spot suggested by Ontario Water Resources Commission, east of Dufferin St."

Mr. Bolton pointed out there was no money for test drilling and he didn't think there was any rush to obtain rights. He considered a subdivider outside King City needing water should contact township first, then, if necessary, see village trustees.

Winter Roads
With a humid temperature of "90 degrees in the shade," trustees tackled providing "winter road maintenance." Roads Commissioner Mrs. Scott said, "We can try township again, if they agree to give good service."

TO WISH IS TO HAVE WITH A WELL STOCKED FREEZER
The Wright family have an open air appetite, but eat well with the aid of their freezer

ROSS WRIGHT IS EMPLOYED ON THE DON HEAD FARMS, Richmond Hill. Ross's grandparents emigrated to Canada from England just about 100 years ago. His parents were born at Lindsay, Ontario, where the family had settled. Ross still owns a 100-acre farm in the town. It is maintained by a nephew. Ross met his wife Irene in Lindsay and they have been happily married for 18 years.

They celebrate their 18th anniversary this month. They have three children, Gail, 14 and a student at Richmond Hill High School; Sharon 13 and Gordon 10, both students at Patterson School. The family moved to Richmond Hill three years ago and Ross has worked on the 1,000 acres of the Don Head Farms. Besides the family of five Mrs. Wright feeds three of the other farm hands daily. With eight to feed three times daily, Irene says she would find life really difficult without her freezer which carries food stocks for six weeks at a time. They bought the freezer 13 months ago on recommendation of friends and they are more than happy with it.

They buy food on the Town & Country Food Plan and of this Ross said, "they supply food cheaper because of the mass buying they can do, and in all the months we have never been dissatisfied. Everything supplied is good. Irene spends approximately \$65 a month on the food plan and that includes all meats, butter, soap, etc. The freezer cuts out all waste so that as has happened this month, the "overs" from previous stocks have been such that every now and then there comes round a month when no food has to be bought and the money is free for something else which is needed. This is a real boon explained Ross. From the price list supplied each month Irene is able to take her time and make her selections, then Town & Country bring the order to the house and pack it in the freezer for her. "Such a marvellous service," she said and "saves such a lot, not only in dollars but in time too". Ross was careful to explain that they did "a lot of thinking" before they bought the freezer because "it looked like a lot of money" but he went on to say that they are more than glad they have it and that it has already paid for itself in the many savings. And come fall, added Irene, "we shall be killing the chickens and packing them away together with a few turkeys, for Christmas festivities".

You can obtain your home freezer today by telephoning Town & Country Markets, 210 Markham Road, Richmond Hill AV. 5-5402 and AV. 5-5403. Come and see our wide display. Open daily until 10 p.m.
