Still Time To Sign

Water Petition Chairman John Neufeld of the Maple Village Trustees reports favourable progress in the petition being circulated for the installation of a proposed municipal water system in the village. Some 175 ratepayers have already signed the petition. A mini-mum of 217 signatures is required before the trustees can through the township make application to the Municipal Board and the Ontario Water Resources Commission.

Any ratepayers who have-n't yet had an opportunity to sign are asked to get in touch with any member of the board, Chairman Neufeld or Trustees Andrew Snider or Jack Yorke. It will cost considerably more to install water at a later date. Anyone missing the original installation will have to pay \$200.00 plus the initial costs.

Mr. Neufeld has estimated a total of \$155,000.00 in debentures will be required to finance the project. It is hoped a start can be made by the end of October.

Public works completed by the trustees during the summer included the closing over of 1,000 feet of ditch on Keele Street lying between the Anglican Church and the Presbyterian Parsonage. New culverts and manholes were installed. The project was carried out in conjunction with the Toronto and York Roads Commission.
