

Announces Opening To-Day

COL. F. J. PICKING

President of York Office Equipment who extends a cordial invitation to all people of the district to attend the opening of the new store at 16 Yonge St. North, Richmond Hill. Starting today, the opening celebration extends through Saturday and prizes to be given away free include a Smith-Corona portable typewriter. The firm carries a wide range of business machines and office equipment.

Crowds Throng Plaza Majorettes Fine Display

RICHMOND HILL COULD WITH JUSTICE FEEL PROUD OF ITS POLICE FORCE, one of the finest in the country, last weekend when the 'Majorettes' performed on Richmond Heights Plaza for the entertainment of the public by arrangement with the merchants on the Plaza.

The 'Majorettes' are a body of young girls who train hard under the supervision of the Richmond Hill police. In a very smart uniform they make an attractive picture, both individually and collectively. For one hour on Friday and for an hour and a half on Saturday they entertained the public with a smart display of formation marching and dancing, etc.

The girls give their time on a voluntary basis as do the police officers who train them. Police Constable Sider is in charge of the group which is a great credit to him personally and to the force of which he is a member.

Most of all, the girls themselves are to be congratulated upon the spirit of public interest which prompts them to train hard and work hard in this manner.

Girls Have Won Prizes

The police exist mainly to preserve law and order but there are obviously lots of other things they do very well indeed and one of their greatest achievements is that they have built up a team of girls known as the 'Majorettes' who have already in a very short time, won prizes for their excellence. Their presence on the plaza last week-end during the celebration on the plaza's first Anniversary added a welcome spice of interest and color.

The girls had been commissioned by the Richmond Heights Plaza to appear during the celebrations.

A Great Success

'The Liberal' is informed that the Anniversary was a great success and the merchants wish to thank the public for their generous turn-out and support. Many

wonderful and genuine bargains were on offer and a brisk trade resulted. People shopping in the Plaza for the first time discovered that they could find things they wanted and at a reasonable cost.

Many took advantage of the stores 'Layaway plans' and reserved articles for Christmas.

Many contests were also organized with worthwhile prizes and the results, winners and details appear in reports on other pages of this week's issue.

Planning Bigger, Better Things

The merchants met together last Tuesday to discuss plans for the next monthly event. It is planned that there will be a three day series of events once monthly. As time goes on these will get bigger and better with more and more being offered to the participating public.

Next week we may be able to announce some of the forthcoming events so watch the columns of 'The Liberal' carefully. If you missed all the fun last week, make a point of keeping the weekend free next time. The next dollar days are scheduled to take place from October 15th, to the 17th. There will be something for everybody on everyone of the three days.

Municipal Board

Approves Extension Bayview Water Main

The Ontario Municipal Board at a public hearing held Thursday last week at Buttonville approved the further extension of three sections of the 12-inch Bayview Avenue water main. It was approved from Steeles Avenue to John Street, from Green Lane to the railway tracks and north of No. 7 Highway to the Thornlea Public School. The work will cost \$84,100.00 and will be debentured over 20 years. This final approval means this important section of Water Area No. 1 will now extend up Bayview Avenue from Steeles Avenue to the railway tracks. In addition the board approved the construction of a main on Thornlea Road from Bayview Avenue to a point 583 feet east. This work will cost \$2,800.00.

The only objections to the work were filed by St. George Developments Ltd., owners of the Selkirk Subdivision, the eastern part of which faces on Bayview Ave. The Selkirk interests were represented by Solicitor B. Ralph of Thornhill. Solicitor J. D. Lucas represented Markham at the hearing.

Traces History

Reeve W. L. Clark traced the history of the development of the municipal water system for the area south of No. 7 Highway in the first concession back to April 1949. In that year North York Township and Markham signed an agreement in which North York agreed to supply the Highland Park Subdivision with municipal water. As North York's supply was limited it was unable to acquiesce to a request from Markham to make water available to Doncaster and Thornhill. In October 1954 council set up Water Area No. 1 which embraced the area lying between No. 7 Highway and Steeles Avenue and between Yonge Street and Bayview Avenue. A \$10,000 debenture issue was charged to the area to cover the cost of exploring for water. In November 1957 North York reversed its earlier decision and agreed to supply Doncaster with water. A municipal water system was installed in the area at a total cost of \$125,500.00. Frontal charges were assessed against the Doncaster properties while the balance of the total cost was charged against the area. At this same time the O.W.R.C. approved development of the township wells and the laying of trunk mains at a total cost of \$507,000.00. The \$139,958.00 internal system is being handled on a local improvement basis.

Reeve Clark said the water system has been extended by public demand. Local improvements were instituted by the township. Township Engineer E. Jorgensen stated the Green Lane extension will serve the Beamish Construction Co. and Shouldice Surgery, while the short extension north of No. 7 Highway will serve the Thornlea Public School.

In his presentation, Mr. Ralph said St. George Developments own 207 lots in the area. He questioned if a six inch main would be adequate to serve the area of the subdivision east of the railway tracks. Mr. Jorgensen replied that the pressure at the east end of Thornheights Drive checked out at 90 to 95 pounds pressure. Mr. Ralph based his main argument on the fact although his client is paying the area water charge the eastern portion of his subdivision will not be served by water. Both Reeve Clark and Councillor J. MacNeil, Chairman of the Water Committee stated the eventual extension of the water main up Bayview Avenue to meet the main on No. 7 Highway will depend on consumer demand and the availability of funds to cover the cost of financing.

Doesn't Guarantee Automatic Service

In listing the board's reasons for approving the application, Commissioner R. C. Rowland stated the establishment of a water

area doesn't guarantee automatic service. He suggested the subdivision may have been premature in registering his lots before services were available. In that way the land could still be assessed as agricultural. Mr. Rowland stated council has publicly stated it has only one set policy for the extension of water. There is no evidence council ever refused anyone any water where it could be sold economically. In conclusion Mr. Rowland stated the board has no power to force a municipality to extend its water system. He felt sure Markham would be glad to extend its facilities whenever conditions so warranted.

Opens Studio Richmond Hill

Mr. D'Alton McLaughlin of Toronto is opening a studio in Richmond Hill and will be available for instruction in piano and singing. For some years Mr. McLaughlin was on the faculty of the Conservatory of Music and is a member of the Board of Examiners. In the years following his graduation he played the Saint-Saens, Grieg, Mendelssohn and Moschelles Concertos with Orchestra and has given recitals in New York, Chicago, Los Angeles and San Diego as well as in his native Canada. For his work at Yorkminster he studied voice extensively and did post graduate work in singing with William Brady and Estelle Liebling in New York and Frederick Thomas in London. His post graduate work in piano was with Ernest Hutcheson in New York and Isador Phillip in Paris. His pupils have appeared in recital at the Conservatory at the Eaton Auditorium.
