- Clean dirty stove pipes and see they are not too close to ceiling.

NEW COMFORT, QUIETNESS AND QUALITY
Doors that open wider—easier to get in and out. Family-size interior. Seats that are higher, more deeply cushioned, and repositioned to provide more room for feet and legs. Perhaps the quietest running car in Canada due to Buick's torque-tube drive and its high use of insulation. Buick's new quality control program comes to a peak in the Turbine Drive Buick '60.

NEW INTERIOR DECOR AND CONVENIENCE
An entirely new "Mirromagic" instrument panel. It lets the driver see speed, gas gauge, and other necessary readings at a glance in a mirror he tilts to suit his own eye level. And a new exclusive safety feature—the Twilight Sentinel!—that turns headlights on and off automatically as light conditions require. All-new colors and fabrics. Richer appointments. (Optional at extra cost.)

OUTSTANDING PERFORMANCE WITH ECONOMY
1. Buick's Exclusive Turbine Drive Transmission* is jet-smooth, responds faster, more economically than ever. No gears ever shift while the car is in motion.
2. Buick's Exclusive Air-Flo Aluminum Drum Brakes—found on no other Canadian car. Fin-cooled drums front and rear for faster cooling. Fast cooling means safer stopping, longer brake life. Slotted wheels pass a current of air from under the car constantly over the brakes for added cooling efficiency. (Wheels are 15" size which gives you up to 1/4 more tire life).
3. Buick's exclusive Wildcat Engines give high efficiency with high economy. (A standard new LeSabre Engine is designed to give Buick performance on regular grade fuel).
*Optional at extra cost on LeSabre. Standard on Invicta and Electra.
