High School Library Club To Hold "Films Of Note" Nights Dec. 9 & 10

The Library Club of Richmond Hill High School has arranged a theatre night for "Films Of Note" to be held in Richmond Theatre, December 9 and 10, starting at 7 p.m. The public is cordially invited to participate by purchasing tickets and attending.

Supervisors of the Library Club (Senior students) have the opportunity of going once or twice a year to showings of the Toronto Film Society. Those who have gone have found the films shown there, made in a variety of countries by directors of originality, more interesting than the films usually shown in commercial theatres. Several have this year bought their own memberships in the Society, so as to be able to see all the programmes.

The largest producers of films in the world are India and Japan, and yet few of their films are available here. Many films winning international prizes are from studios other than American and English, and these are seen only now and then in short Toronto runs.

These students believe therefore that it is desirable that films such as these should be introduced, and some older films of distinction revised so as to make available to other students and filmgoers in Richmond Hill, the stimulating type of programme that is normally not available except to members of Film Societies.

The High School Library Club is fortunate that the manager of the Richmond Theatre, Mr. Ned Hill, would like to play such programmes at his theatre, provided that he can be assured of an audience for them. The one way to assure Mr. Hill that people will come to see the films which the Library Club has suggested to him, is for the Club to sell tickets in advance of the showing, for the regular price of admission, (65 cents).

NOTE: Each person buying a ticket is entitled to a copy of the Programme Notes for the performance. On both nights there will be a double feature and the films to be shown are "The Cranes Are Flying" U. S. S. R., 1957. (This film won the Grand Prize at Cannes in 1958), and "Private's Progress," England 1952.

Report By Assessment Commissioner Johnston

The following is the report of Assessment Commissioner R. W. Johnston, submitted to Richmond Hill Town Council this week, showing a substantial increase in residential, commercial and industrial assessment and a population increase over last year of 740.

His Worship Mayor K. W. Tomlin, November 20, 1959, and Members of Town Council

I have the pleasure to present, for your information, this report on assessment for the period of January 1st, 1959, to September 30th, 1959.

The total taxable assessment as of September 30th, is \$25,636,902.00 an increase of \$1,475,425.00.

The breakdown of the assessment is as follows:

	1958	1959	Increase
Residential	\$20,479,725.00	\$21,230,000.00	\$750,275.00
Commercial	2,838,722.00	3,369,302.00	530,580.00
Industrial	843,030.00	1,037,600.00	194,570.00
Total	\$24,161,477.00	\$25,636,902.00	\$1,475,425.00

The following is the percentage breakdown of the total assessment, showing the comparative figures for 1958 and 1959.

	1958	1959	Increase
Professional and Commercial	\$2,838,722.00	\$3,369,302.00	13.14%
Manufacturing and Industrial	\$843,030.00	1,037,600.00	4.04%
Residential and Vacant Land	20,479,725.00	21,230,000.00	82.82%

The overall percentage of Commercial and Industrial to Residential assessment has improved somewhat from 1958, with an increase of 1.94% and with the large number of buildings under construction and nearing the completion stage, this condition should improve.

The population figure for the year at this time stands at 14,950, an increase of 740 over 1958, a figure much below the expected estimate of approximately 15,500-16,000 people.

This has been a rather brief, but I hope an informative report on the position of assessment and population in Richmond Hill up to September 30th, 1959. A more detailed report will be submitted early in January, when the final figures of assessment on which 1960 taxes are to be based will be completed.

There has been an additional assessment totalling \$276,255.00 added to the roll at the end of October, of which \$107,995.00 was Commercial, bringing the overall increase of assessment to \$1,741,680 for 1959.

R. W. JOHNSTON, Assessment Commissioner.

Democracy Should Begin In Home Says Speaker

Mrs. France L. Johnston, M.A., Institute of Child Study, University of Toronto, was guest speaker on Thursday night at the Walter Scott School when she addressed the Home and School Association. The members were put to work on the problem of "Discipline for a Democratic Society" when Mrs. Johnston divided the audience into buzz-session groups to discuss different phases of the questions "How can we prepare children for living in a rapidly changing world?" and "The Advantages of Democracy."

Each group gave a brief report on its opinions of the question at hand and Mrs. Johnston discussed these in her address. Following are some of the highlights of the discussion.

The rapidity of change brought about by research and invention brings the people of the world today closer together through advances in communications and transportation, as well as in the business and entertainment field and it is more and more necessary for people to live together harmoniously.

Every family has its own social system whether it be that of dictatorship - where one individual makes the decisions; anarchy-

a state of confusion, without rules, or democracy - where the majority rules. The HOME is the seed-bed of democracy. Habits formed in the home are carried over into the outside world. Parents have the most important influence on the child since they are with him through the full course of development, whereas a teacher has the child for only a very short period.

Well-defined rules that are within the child's capacity are essential and then parents must be firm and consistent in carrying out these rules even though the child may be rebellious. In family discussions tell him your ideas but these are your ideas and not necessarily his - let him think for himself. "Our most important job as parents," said Mrs. Johnston, "is to make ourselves unnecessary."

Refreshments were provided and served by the mothers of Grade II students. Small buzz-session groups continued as parents discussed methods and degrees of discipline during coffee time.

Mrs. Donnelly's class won the Parent Attendance Cup for the second time.

SPECTACULAR PURCHASE

All this - FOR ONLY

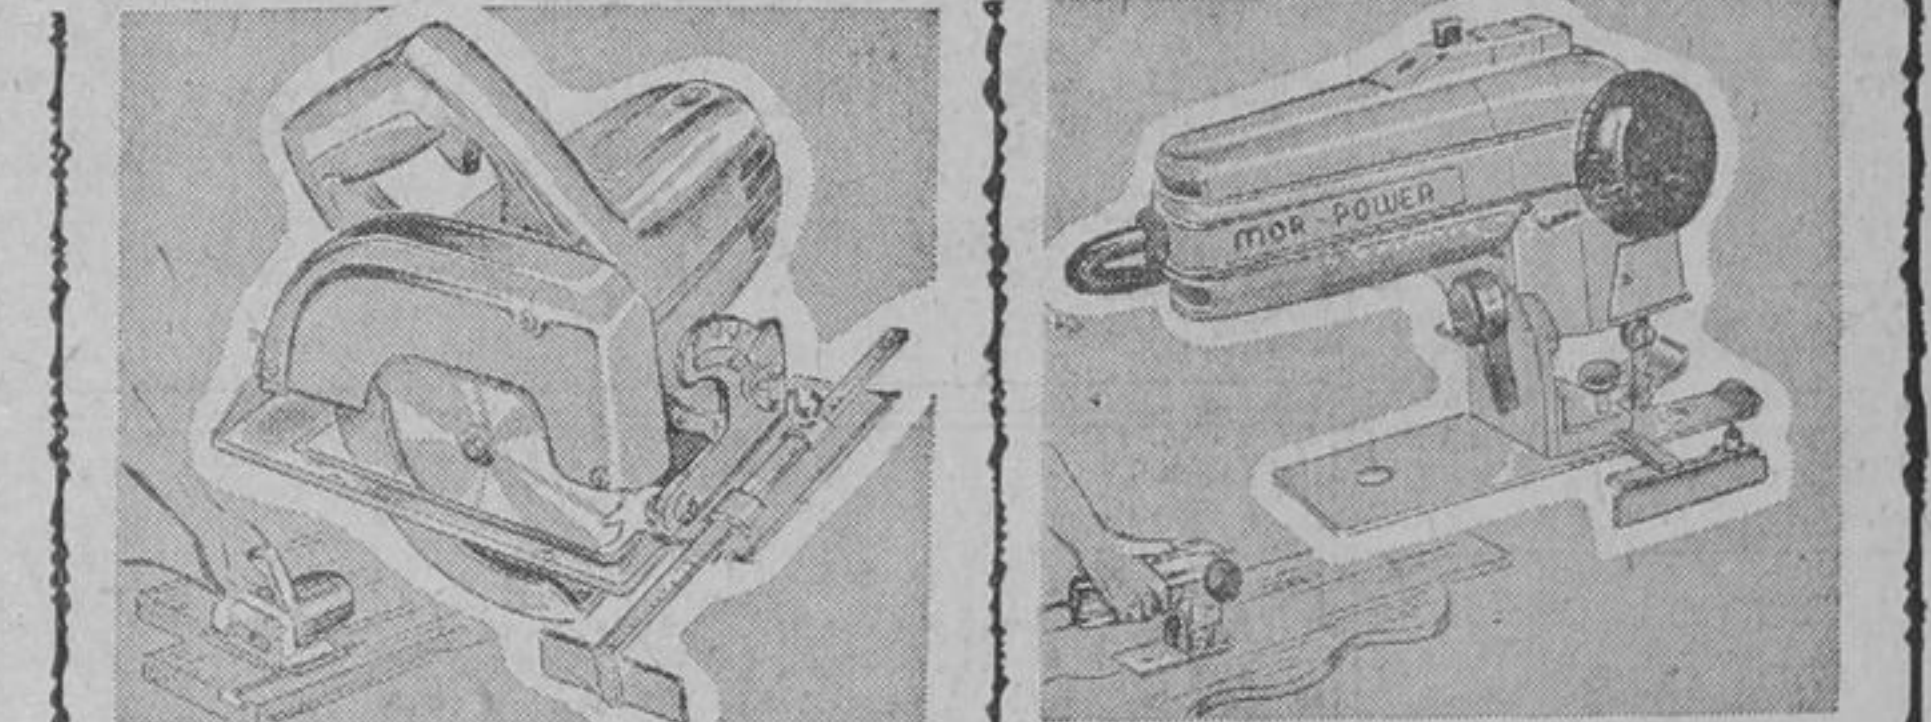

SAVE \$20.00

59.95

- HEAVY DUTY 1/2 h.p. ELEC. MOTOR -
