Welding Night Classes At Richmond Hill High

An evening farm arc welding school for adults will begin on Thursday, February 11, 1960, at Richmond Hill High School. The school will be conducted one night a week for five consecutive weeks each Thursday until March 10, 1960. It is for farmers and farm implement dealers only. Mr. Tony Centa, Richmond Hill High School Industrial Arts Teacher, will instruct. The course will cover welding in various positions on different kinds of metals, welding cast iron, hardsurfacing and soldering, cutting and brazing with an arc welder. Everyone who attends all five sessions will receive a certified diploma. A nominal fee of \$5.00 will be charged for the fifteen hour course.

The course is based on instructions developed by the Lincoln Electric Company who make arc welding welding schools since 1917. The Industrial Welding Supply Limited will sponsor and supervise the course.

Advance registration should be made at the office of Richmond Hill High School, 51 Wright St., Richmond Hill, Ontario, Thursday, February 4, and Tuesday, February 9, from 7.30 to 8 p.m. The first class will commence on Thursday, February 11, at 7.30 p.m. Enrolment will be limited to 20 students.

May Revise Plans

Pleasantville Tenders Higher Than Expected

Tenders for the proposed Pleasantville Public School turned out to be higher than anticipated by Richmond Hill Public School Board. The 18 bids ranged from a low of \$238,250.00 to a high of \$289,775.00 for an eight room classroom plus kindergarten school.

The architects Allward and Gouinlock were authorized to try and reduce some of the specifications before a final decision by the board is made. The board chose the local tender of I. D. Ramer and Son to supply fuel oil at 14.10c per gallon. H. Jones Building Supplies Ltd., also of Richmond Hill was selected on their lowest tender of \$16.35 per ton for Eureka coal and \$15.40 per ton for Southern Colonel coal.

Members of the Recreation Committee were present for a brief discussion to ask for more space available in the schools for recreational activities. Chairman L. D. Clement suggested the committee on its next presentation have the approval of council to spend a certain amount of money to include in the plans for new schools for recreational use.

Due to a probable cost of approximately \$2,000.00 for rent and moving, the board decided not to rent two portables from Markham Township School Area No. 1 board from January 31 through June 30.

Kindergartens at MacKillop Public School and Walter Scott Public School will continue on a one-in-three-days attendance basis for this school year.

Question is: how much will we keep? Systematic saving at the B of M helps you keep more of what you make. Just one of those 100,000 dollars will open a savings account for you. Keep it strictly for saving, and there's one thing you can say for the money you put into that account... you have really got it made.
