

**May Re-Open Case**

**Perjury Case Succeeds  
Woman Gets Six Months**

Mrs. Violet Heather of Toronto was sentenced to six months for perjury at Toronto Court last Friday. This was a sequel to patient persistence on the part of Richmond Hill Police.

On March 29th, 1959, at about 5.30 p.m. Tony's Esso Service Station at Yonge Street and Industrial Road was broken into and a large quantity of automobile accessories stolen. A police cruiser acting on a report telephoned to the police station regarding two men with a car acting suspiciously around the garage as two men were about to leave. Closing the garage door and jumping into the car, a red and white Chevrolet, the two men attempted to escape.

**Police Forced Into Ditch**

The cruiser which was occupied by Constables Coldron and Deyman chased the thieves up Yonge Street North and onto the Elgin Mills Sideroad driving west. Two attempts were made to stop the Chevrolet. On the second attempt the police cruiser and not the thieves' car was forced off the road.

**Head Through Windshield**

Constable Coldron who had his head thrown through the windshield suffered severe lacerations to his upper face and was taken to Toronto General Hospital, accompanied by Constable Deyman for treatment.

**Stolen Goods Recovered**

Meanwhile a radio warning was broadcast giving details of the fleeing car and its occupants and one hour later the car was located on Dufferin Street near the Langstaff sideroad. All the stolen merchandise was still inside the car so the service station suffered no loss, but the two men had escaped.

**Man Arrested**

It was found that the car was registered to a Teta Franklin of 130 Bartlett Avenue, Toronto. On April 1st, George Franklin, aged 44, of the same address was arrested by Constable Deyman after being identified as the man driving the car at the time the garage was broken into. Charges

of Break-Enter and Theft together with Criminal Negligence were laid against the man and he was lodged in Richmond Hill Police Station cells. The second man has to this day escaped arrest.

**High Court Trial**  
Brought to court April 2nd, Franklin was remanded to April 21st and later to May 5th. On that date he pleaded not guilty and elected to be tried by judge and jury. This meant a trial in the High Court.

**Grand Jury Indictment**  
A Grand Jury hearing on September 14th returned a true bill and on November 2nd his case came before a judge who remanded it to November 3rd and then the 4th when the hearing finally commenced and continued for two days.

**Alibi Witnesses**

On November 6th, George Franklin was found not guilty and released on the evidence given by two alibi witnesses who appeared on George Franklin's behalf, Mrs. Violet Heather and Mr. Lawrence Thewlis.

**Perjury Arrest and Conviction**

Investigation revealed that Mrs. Heather had perjured herself in her testimony on behalf of Franklin and on Friday, November 6th (the same day) a warrant was taken out for her arrest on a charge of perjury. She was arrested November 20th and remanded to November 27th. Various other remands followed until finally she was tried on February 2nd this year. A verdict of guilty with intent was brought in against her and she was remanded for sentence. The sentence was passed last week as stated.

**Plan To Re-open Original Case**

Richmond Hill police are now investigating the possibilities of re-opening the case against George Franklin as a result of Mrs. Heather's conviction. This was one of the interesting cases quoted by the Chief Constable in his annual report to demonstrate how intricate a police case can sometimes be and how many journeys and a great deal of investigation may have to go into a single case.

**Monthly Board Meeting**

**Committee Appointments  
T.S. Area No. 1 Markham**

The Board of School Area One of Markham Township at their meeting on Thursday evening in Henderson Ave. Public School revealed the Vaughan Township School Area board had been asked to let the board know by March first whether or not the Vaughan board will be able to accommodate the 125 Markham children now attending schools on the Vaughan side of Yonge Street.

In the terms of the dissolution settlement the children were allowed to remain in their present schools at least until the end of June, 1960.

At this session the chairmen of the various committees for the coming year were announced by Board Chairman Alan Parker. They are Education Committee, Mr. John Honsberger, chairman; Finance Committee, Mr. John McKay, chairman; Property Committee, Mr. Leslie Clark, chairman; and Health, Recreation, Safety, and Public Relations committee, Mr. Lionel Frost. Trustee Frost will be in charge of the arrangements for the official opening of the Clark-Elgin Public School, the date of which has not yet been set. However, the children, teachers, and staff

took possession of their new school on Monday.

In a letter to the board, Public School Inspector Mr. Maynard Hallman reported on changes in his inspectorate boundaries but Mr. Hallman will retain his post as inspector of T.S.A. No. 1, Markham.

Mr. Hallman announced he is planning his usual budget night dinner for the trustees in his inspectorate. This will be held sometime before March 21st.

Mr. James Timmins has been appointed solicitor for the board.

**Principals Attend**  
Principal Kinsinger of Thornlea Public School, Principal Learn, of Clark-Elgin school and Principal Martindale of Henderson Ave. School were present. The principal of German Mills School was absent. It was decided that the latter school would be officially known by its popular title "German Mills Public School."  
Supervising Principal E. J. Sand reported on a number of items relating to the smooth running of the schools. The school population now numbers 834 pupils and had an attendance of 93.85% in January.

**L. Wilcox Ratepayers' Invitation  
To Their Council Not Taken Up**

Forty ratepayers turned out to the ratepayers' monthly meeting held in the Lake Wilcox School on Monday night — and were disappointed to learn that not one member of Whitechurch Council, or the assessor, had accepted their invitation to attend and say something about township plans and assessment procedures for 1960. The invitation was extended

because the ratepayers felt they would like a closer tie with their representatives on Council.

In a letter of regret at being unable to attend, Assessor Kennedy stated he would be available for consultation pertaining to the assessment of the township at any time during office hours, should any of the ratepayers care to call at the township offices. Council also sent a letter stating it would be happy to see a delegation with a problem, after official notice of the same, at any of its council meetings.

A member of the association then moved that a member of the Municipal Board be invited to attend one of its meetings later in the year, to explain assessment procedure.

Following the showing of a film provided by the Bell Telephone Company, entitled, "A Nation In Touch", which explained the use of TV, telephone and teletype across Canada, the members enjoyed a social hour.

Plans for the future include a Clean-up campaign which will start March 15 and continue until June 15 in the Lake Wilcox area (for which many cash prizes will be made to those showing the most improvement to their homes); a social night with cards and conversation for the March meeting; and a program to raise the lake level at the western end of the lake. Whitechurch Council has already been approached regarding a control dam to the west of the lake but has stated, "Most property in that area is privately owned and the township could not do anything about the situation." They suggested it is up to owners of private lake frontage to form a group and make a request to the township, formally.

**Can You  
Count On  
Safe Stops?**

Good brakes are a "must" for safe stops. Have the peace of mind of being 100% brake-wise. Come in for a brake check. If needed we'll relime and adjust them.
