**Coun. Ralph Urges Vaughan Foster Industrial Growth**

(by Paul Delmer)  
Vaughan Council meeting followed Planning Board Monday night. Planning Board continued until almost 9.30 p.m., which made it a late start for council. Some members of the public who attended at 8 p.m. to listen in to Council, gave up and went home.

Some of them commented that Council should do something about this clashing of Board and Council meetings stating that it was unfair on both the public and the press members who have to cover these meetings. It does not happen with other councils, they say. Richmond Hill was mentioned as starting every Monday evening promptly at 7.30 p.m. without fail week in and week out.

This late start and the wet weather seemed to spoil the evening since there followed only a short meeting with nothing of real interest to report. So perhaps it was as well that the public on this occasion did not wait. Reeve John Perry remarking the unusualness of all empty seats in the public gallery said, "It takes the rain to keep the folk at home."

**No Decision on Race Tracks**  
Everybody was expecting a decision as indicated at last week's meeting on the proposed "Go Kart" track but this has been deferred to a later date. It would seem that Council want to take more time to study this question. Likewise the proposal for a motor bike track is also still pending.

ing. There is likely to be some interesting debate when these questions come up again before Council, perhaps next week.

**Offers Land For School**  
Mr. Lou Fruitman who plans to build a sub-division in the township was asked if he would make land available to the School Board for erection of a school without profit. The question was put by Reeve John Perry. Mr. Fruitman replied that he was willing to make land available without consideration of profit at a fair price taking into account services supplied.

**Comments on Weather**  
Council members agreed to meet with Mr. Fruitman yesterday, to sign the sub-division agreement. Councillor J. Bryson referring to the rain and floods in his home area, said, "I'll attend if I can get here." Responded Councillor William Anstey, "Want to hire a boat Jesse?" (laughter).

The rain drew comments all evening as when Mr. Grant for the Normaple Sub-Division said "We are arranging for proper dust control." Quipped Deputy Reeve Vic Ryder, "Did you order this rain?"

**School Board Budget**  
Council approved the School Board Budget at \$494,854, with \$27,000 Capital Lot Fee Contribution towards the costs of schools to cope with increasing demands.

Clerk Jim McDonald advised Council that 133 persons in the township received \$2,770.01 in relief, which was a little up on last April's figure.

**Will Patch Roads**  
Deputy Reeve Vic Ryder placed further details of the road patching equipment he wanted the Township to purchase.

He said it meant employment of two additional men and would cost the township \$1500. Part of the equipment is a 2 1/2 ton 1953 used International truck at \$700 from Kerr Equipment.

Asked the Reeve, "Does it have tires on at that price?" (laughter) Council approved the purchases. It now only remains for the residents on the scores of roads requiring patching to queue up with their demands.

**Wants Backing For Industry**  
The Council meeting was wound up with a stirring address by Councillor Bruce Ralph back from building a property in Nova Scotia or other foreign parts. Councillor Ralph wants Council to take a firm attitude towards the development of the proposed Industrial Sub-Division on No. 7 Highway at 400.

**Comparison with Richmond Hill.**  
Mr. Ralph told Council he had enquired of Richmond Hill what promotion of industry in Richmond Hill was costing the town in salaries and had been advised that it was in the region of \$12000. He added, "Here is an adjoining town spending annually twelve thousand in salaries to promote industry. Here in Vaughan Township we have a subdivider doing it for us for free." He went on to produce a map of the proposed sub-division showing its exact location and distances from distribution centres and other information.

"Twelve thousand of these have been printed and given out by the sub-divider" said Mr. Ralph. **Seeks Council Encouragement**  
This sort of promotion costs money and it is beneficial to the township. He went on to suggest to Council that the sub-divider should be placed in a position that he would know just where he stood. He alleged that this is not the case and he felt strongly he said that Council should direct serious consideration to the industrial sub-division and co-operate with the sub-divider.

He suggested the township through council should encourage the sub-divider.

Reeve Perry replied, "We are faced with the attitude of the Municipal Board in regard to local improvement."  
Councillor Anstey, in obvious sympathy with the remarks of Councillor Ralph, said, "What they have done for others, they can do for us." (He was referring to the Municipal Board.)  
Concluding, Councillor Ralph said, "If we don't speculate, we will never get anything." (Chorus of "Hear, Hear.")

On this note the Council meeting ended, having begun at 9.30 p.m. and closed at 10.30 p.m.

**How True - But True**  
UXBRIDGE - "First it was snow, now mud, and soon it will be dust." Reeve Earl Dowsell stated and remarked roads are bad everywhere.
