The Bank Of Montreal Scholarships Program

The Bank of Montreal today inaugurates a seven-year scholarship program to provide university training in arts and science for outstanding Canadian high-school graduates in all ten provinces, according to an announcement at the weekend by G. Arnold Hart, B. of M. president.

First project to be announced by any Canadian organization for the observance of Canada's Centennial in 1967, the plan provides for 50 top high-school graduates to enter university on B of M scholarships next autumn. The program will culminate in 1967, Canada's centennial year and 150th anniversary of the establishment of the bank, Mr. Hart said, with the conferring of centennial awards on the top scientist and the top humanist.

To be known as "Bank of Montreal Canada Centennial Scholarships," the plan calls for 124 awards in all over the next seven years, ranging from \$750 to \$5,000.

Highly Competitive
 The project is a highly competitive one, and all awards will be made entirely on merit, as determined by selection committees consisting of faculty members of universities from coast to coast. The bank will take no part whatever in the decisions.

The plan, which provides increasing benefits to a reducing number of participants, offers the most promising students a series of scholarships and fellowships in the pure sciences and in the humanities or the social sciences. Professional courses such as law, medicine and engineering are not included.

Scholarship students who are successful in meeting the requisite standards in the second, third and fourth university years will receive awards of \$1,500 per annum, while those accepted for graduate study in 1964, 1965 and 1966 will receive awards of \$3,000 per annum for study anywhere in Canada or abroad.

Then in 1967, Canada's centennial year, when the competition is open to all who have participated in the plan at any stage, the two final B of M Canada centennial awards will be made - one in arts and one in science. These two awards will be in the amount of \$5,000 each, to be used for further study anywhere in the world.

To each of two final winners, if they have participated throughout the plan, the bank will have provided a total of \$19,250 at the end of the bank-sponsored study, 13 Ontario Awards.

The allocation of scholarships by provinces was worked out as far as possible on the basis of population, with a minimum of two for each province. For Ontario students passing grade XIII exams with secondary school graduation diplomas this June, there are 13 B of M scholarships of \$750 each. As in other provinces, these awards will be divided more or less equally between arts and science students.

So far as is known, the scholarship plan is the first educational scheme of its kind in the world. It will take the most successful students from high-school graduation to university graduation and on to postgraduate study toward their doctoral degree.

In developing the plan, Mr. Hart said that the bank hoped it would help to produce scholars who will bring "a contribution of outstanding value to the nation through scientific research and pursuits in the public service of Canada, thus providing a tangible and worthwhile observance of the

UXBRIDGE - All future welfare relief payments in the township will be by voucher, not by cheque. Reeve Downwell said he still feels government regulations on relief requirements sets too high a standard, "people in the municipality who are not earning \$180 a month are still required to pay a portion of relief costs for the unemployed."

Neighbourhood Notes
 Farmers in the neighbourhood are shaking their heads. Last week there was some land work done, but this week-end rains have brought that to a halt, and it is unlikely that any more seeding can be done in this area until well after the middle of the month.

The mumps have taken their toll since Easter time. Wesley Fierheller and David Turner have both been confined with them.

If your Cancer Society canvasser hasn't called, be patient. You won't be forgotten.

Don and Evelyn McQuay have sold their home in Markham and are house hunting in this area. Last week Evelyn was helping to take care of her new nephew at the Prentice home.

High school students are getting into high gear for the final exams, and those further advanced are past the ordeal. Nancy Brown and Beverley Burr are home from Ryerson, and looking forward to an interesting summer - Beverley will be employed at Victoria Hospital, London, as a food supervisor. Harvey Brown is home from O.A.C. and Bob Miller completed his final year in Civil Engineering at U. of T. and he and Mary Lou are planning to move to Guelph where Bob has taken employment. George Putnam will graduate this year.

Mr. and Mrs. A. W. Miller entertained at a family shower for their niece, Judy Waterson, and her fiancé Douglas Towers, who will be married in Central United Church, Unionville, on May 21. On Saturday of last week, Mrs. Miller poured tea when the groom's mother entertained for Judy at her Lawrence Park home.

The Brown's Corners United Church congregation was pleased to welcome a new assistant for Dr. Binnington last Sunday. Mr. Garry McEachern has just completed his second year at Emmanuel College and shows great promise.

 Interesting reports were heard at the April meeting of Buttonville W.I. when Mrs. John Wilkins was returned as president of the organization for a second year when the group met at the assembly room at Leitchcroft recently, with Mrs. Milton Sherman and Mrs. E. Walton convening.

During the year 1959-60 the group catered for six dinners, two weddings, two luncheons, a garden party and a social evening when members' families were entertained. There were also two euche party series held in the autumn and winter months under W.I. sponsorship, and the ladies quilted four quilts and took first prize at Markham Fair in the W. I. displays.

During business conducted by the president it was agreed to accept an invitation from Wexford W.I. to furnish program for their June 1st meeting, and Mrs. Charles Hooper, Mrs. A. Brown and Miss E. French were named as co-convenors.
