Large Increase In The Unemployment Figures

The Newmarket branch of the Unemployment Insurance Commission, in figures released this week, said that while there is a big increase in the number of unemployed registered over the same August 27 period last year, the situation looks somewhat worse than it is.

As of this week there were 661 male and 409 females registered for work. In the same period last year there were 430 males and 262 females. The Newmarket office serves the northern part of the county.

Officials point out that a percentage of the 478 unemployable increase have work but are registered for the purpose of getting

other types of employment. They also say there is a certain amount of farm work available but that few can qualify as expert mechanics and cattlemen.

It is also explained that many registered unemployed persons come from the new subdivisions in Aurora and East Gwillimbury Heights on the border of Newmarket. Normally, they would register elsewhere. The Newmarket branch of the U.I.C. serves the Townships of Whitchurch, King, East, West and North Gwillimbury and Uxbridge, but excluding the Towns of Uxbridge and Stouffville.

Department Of Highways O.K.'s \$91,200 Rd. Costs

Markham Township Council deferred making a decision regarding the issuing of a licence for Go-Karting in the township for two weeks, when council met last Monday evening in its regular weekly session.

It was a short agenda but most interesting in one respect - the Department had earlier notified the clerk by letter that the Township supplementary road by-law had met with almost 100 per cent approval. The application presented by the Township had been in the amount of \$99,020, the Department approved \$91,200. This supplementary is to cover road construction other than regular work, and includes an application for Thornhill paving

in the amount of \$64,930. The Department also recommended surface treating only for all roads other than John Street which is to have asphalt, this would reduce the road budget \$55,400. Reason given for the reduction is that roads other than John have not been adequately ditched, etc.

New Appointee
Council appointed Mr. E. J. Peters, a Unionville resident and member of the Skating Club, to succeed the late Bruce Wilkes (former representative on Crosby Memorial Community Centre Board). Mr. Peters was appointed to serve until the end of the year, representatives are appointed annually.

Broken School Windows Costly For Taxpayers

Drastic action may be necessary to stop the breakage of windows at the Beverley Acres Public School, Richmond Hill Public School Board points out that much of the glass used in the building is expensive tinted glass which makes the use of additional drapes unnecessary. Replacing this glass is more costly.

The board has covered with wire mesh most of the glass which would be in line with stray baseballs. The windows broken are done so with rocks or slings.

The board has authorized a fifty dollar reward to anyone reporting damage to the school property which leads to the conviction of the guilty person or persons. If you see anyone damaging school property, do not hesitate to phone the police, or the office of the superintendent.

The board likes to make the playgrounds available to the children during the summer months but feels the taxpayer must also be protected. If the school grounds are going to be kept open, when school is out, a concerted effort on the part of parents, children, and the general public must be made to see that the school property is not abused.

parable to the modern schools. High Schools

The total enrollment for the four High Schools in the York Central High School District was 1,700 last term. It is expected that this year's enrollment will total about 2,100.

Last year the Richmond Hill High School closed the season with 710 students and 33 teachers. One extra part time teacher has been taken on for the 1960-61 term. Principal is Mr. Wright Morrow.

Thornhill High School, under Principal A. S. Elson, will have about 50 more than the 710 students last term, or about 760. There will be 34 teachers.

The new Bayview High School under Mr. Howard E. Eubank, with 15 teachers, will have 300 students.

Woodbridge
Woodbridge High School shows an 80-student increase this year, up to 360 from 280 last term. Three teachers have been added to the 14-member staff. The present 17-member staff includes Principal Lloyd Morrison.

Mr. Morrison said that the playground and parking facilities have been greatly improved. He said: "We're very pleased that during the summer the board had the play area cleared, levelled, graded and seeded. This will stimulate and facilitate field sports. And, during the summer, the parking area has been increased to the point we now can park double the number of cars." A new, circular driveway has been added.

This year 100 Thornhill students are being transferred to Richmond Hill High School, which in turn will release an equal number to Bayview High School. At Bayview, between 130-140 of the students will be Grade 9 pupils, the first to complete a full five years at the new school. Guidance services here as at the other schools will attempt to assess abilities and interests of students.

Separate Schools
The Richmond Hill Separate School situation has remained fairly stable. Our Lady Help of Christians school, under Sister Deborah, will have 496 students, 50 more than last year, and 12 teachers. Our Lady of Fatima, with Mother St. Dominic in charge, and a staff of seven will, like last year tutor 253 students.

We who make whisky say:

DRINKING AND DRIVING DO NOT MIX

Fine whisky is a luxury and should be treated as such. And, knowing when to say "no" plays a great part in the art of sensible living.

Neither whisky nor any other alcoholic beverage has any place at the wheel of an automobile. Drinking and driving do not mix.

This conviction must be shared by every thinking person who drives a car, particularly this Labour Day week-end when many holidaying families will be travelling on Ontario highways.

If you expect to be at the wheel of a car this week-end, we say to you: Think before you drink. Don't drink before you drive.
