"But I can't spend my telephone money!"

This is a true story.

One of our telephone people recently passed a neighbourhood lunch counter where some children were about to order a second round of milk shakes and soft drinks. One little boy, called Jimmy, found he only had one dime left. He announced firmly:

"I can't spend my telephone money!"

Obviously, Jimmy's parents had convinced him that he'd never have to worry-nor would they-about being late or getting lost if he always kept a dime for a phone call: there's always a telephone nearby!

So Jimmy's telephone dime buys his mother peace of mind ... it seems like such a good idea that children know how to reach home by phone.
