Town Council Discuss -

(Continued from page 1) could be provided with winter work extending and improving the walk on the east side of the pond. Some dead trees might be felled and some filling carried out. Mr. Bradstock reported he plans to meet shortly with owners of Wood Lane property and hopes to get an agreement to accept the present shore line as property line. With some filling operations the land required for the improvement plan would then be much less than anticipated in the earlier estimate. He spoke optimistically and with enthusiasm of the prospects for improvement in this area.

Council approved an application for approval of a winter works program with an expenditure of about \$4,000, of which 75 per cent of labor costs would be paid by the federal government.

The high cost of land in Richmond Hill was emphasized by the recent decision of the Ontario Municipal Board awarding Mr. Hancher \$16,500, for five acres of land on Crosby Avenue, near the school, expropriated by the town for park purposes. With legal costs and valuator's fees, Councillor Bradstock said this would bring the cost of the land up to about \$17,000. "It's just swamp land," said Councillor Mrs. Margaret Southwell. "I told you the Municipal Board brings down stupid decisions," said Councillor Tom Broadhurst.

Mr. R. Simmons protested to council of an apparent contravention of the regulations in the construction of a building north of Yonge Street. A building said to be for a body shop is now under construction. Council members were of the opinion the regulations permitted such a building but Mr. Simmons' protest was referred to the Planning Board for a report. Mr. Simmons hinted it is his intention to secure legal advice on an interpretation of the regulations. In response to a complaint that the yard is littered with junk and car parts Reeve Haggart moved that the by-law enforcement officer investigate conditions.

Council agreed to offer land in former pedestrian right-of-way at Allencourt to adjoining owners at a price of \$25. per foot frontage, the price set by a valuator.

A by-law was given two readings to permit Shepard and Gill Lumber Co. to proceed with improvements of adjoining property recently acquired and to sanction its use commercially. The by-law required Municipal Board approval.

A letter from the John Howard Society of Ontario requested financial support from the municipality. The letter pointed out that the society's objectives and work in penal reform and education have shown measurable results in the treatment of offenders so they may return to the community a better prospect for satisfactory readjustment.

Deputy-reeve Stanley Tinker said he appreciated the work of the society but council has already turned down many such appeals and he thought no action should be taken. He said the society gets support from Metro United Appeal which gets many contributions from local citizens who work in Toronto.

Councillor J. W. Bradstock observed that this is a poor time of year to ask municipal council for a grant. Appeals should be timed to reach council before the budget is adopted.

Councillor Tom Broadhurst thought we spend a lot of money in apprehending criminals but all too little in an effort to prevent crime. He thought the work of the John Howard Society should be encouraged if even by a token donation. His motion for a donation of \$10, was seconded by Councillor Mrs. Margaret Southwell and carried.

Council agreed to let the Recreation Commission use space in the Town Hall for storing equipment. The request for such space came from Recreation Director Mrs. Jean Thomson who pointed out a storage place is needed so that equipment could be kept from one season to another and proper inventory maintained. She said the practice in the past was for interested citizens to store equipment in cellars and garages. The Recreation Director was commended by council for zeal in taking care of town property.

Local Scouts were granted permission to hold their Annual Apple Day on Saturday, October 22nd.

When the Public School Board planned construction of the addition to the MacKillop school town authorities suggested they include a storage room for use of the recreation commission, as school grounds are used for recreation activities. At the meeting this week they had a change of mind when told the cost would be \$2,722.70. "It's too expensive," said Reeve W. J. Haggart.

"I agree the price is too high," said Councillor Bradstock who said the space is only about 10 by 10 and council had in mind an expenditure of \$300 or \$400. He suggested a prefab building might be obtained.

Council approved an application to the Ontario Municipal Board for approval of debentures to the amount of \$150,000, for the school addition.

Reeve Haggart pointed out that when the new Municipal Council Chamber is ready it will be used as a civil court room and he suggested that "no smoking" signs be posted in Municipal Building corridors. Council agreed although it was suggested it might be more practical to install ash trays.

Deputy-reeve Tinker drew attention to the confusion in street name for the new street north from Richmond Street and west of Reaman. This short street was named Elm Court, but telephone listing and police map list it as Hyland Court. The Mayor said a correct street name-plate will be posted.

2 Crashes Making Left Hand Turns

On Wednesday afternoon of last week Margaret Patterson daughter of Mr. and Mrs. S. R. Patterson, Don Mills Rd. had a miraculous escape when the Volkswagen she was driving was struck as she made a left hand turn into her home driveway. A sand truck following immediately behind her in the northbound lane made allowance for her turn, but the car following the sand truck failed to see her signal and attempted to pass. The left hand side of the car Margaret drove was badly damaged, but she had thrown herself to the right side and was uninjured. There was no damage to the second car, driven by Mr. Robert Muirhead of R. R. 1, Stouffville.

On Thursday morning of last week a second accident occurred just north of the site of the Patterson accident, at the building site of B & M Motors.

A Volkswagen pick-up, driven by Michael Manocchio of Toronto, a construction worker at the B & M building, made a left hand turn from the northbound lane into the building driveway and was struck by a car driven by Steven Taylor of Wembley Drive. There was extensive damage done to both vehicles, and Mr. Manocchio was taken to hospital suffering from facial cuts and lacerations.

The Patterson accident was investigated by P. C. Donald Dukes, and Sgt. Bill Shearatt attended the second.

WILLOWDALE — Former Bathurst Heights Collegiate student Miss Hendricka Van Louw, who plans a teaching career, has been awarded the \$750 scholarship by the North York Home and School Council.
