FACT FOR THE WEEK
"Being so immersed in our work does not prevent us from holding in the back of our minds the fact that there are people standing behind us - to help; the people of Ontario, and the hundreds of Cancer Society volunteers. What would we do without them?"
Dr. A. A. Axelrad
Cancer Research Scientist

your home & school association

Crosby Heights Home & School Association
A spelling bee held in Crosby Heights Auditorium November 23 was a big success with 14 Grade VII pupils competing against 14 parents. The pupils proved there is not too much TV and that they can spell as the final outcome was in their favour.
Principal E. Gooding, had an interesting tape recording made of various readers and singers which were of interest to the many parents that attended. An educational film, titled "The Geographical Regions of Canada" shown to the home and school association proved very interesting. This film will be an aid to pupils studying geography in Grade VII.
The evening came to a close with parents and pupils enjoying refreshments.
Many parents of Crosby Heights pupils are showing decided interest in Crosby Heights Home and School Association which is appreciated by the executive.
A Christmas Family Night has been planned for December 14, which should also prove to be a success.
MacKillop Home & School Association
On November 23, the meeting of the MacKillop Home and School Association was treated to a sparkling presentation of an address entitled "The Implications of the Level System," by guest speaker Gordon S. MacIntyre, B.A., B. Paed., Superintendent of Richmond Hill Public Schools. The "level" or "unit" system, pioneered in Hamilton Schools, has been the subject of much debate, the source of great bewilderment, wonderment and conjecture since its inception in our public schools. Though it would be unrealistic to suggest that Mr. MacIntyre answered all questions in everyone's mind that evening, nevertheless he constructed a staunch foundation upon which his audience can add structural knowledge of this educational concept - and so deftly handled his subject that each layman could appreciate the immense simplicity of the system.
The level system is a way of solving the problem of the inequality of intelligence with which men are born. Fifty per

Political Apathy Seen - Vaughan's Vote Total In Past Discouraging

If, as some municipal election observers say, the greatly accelerated process generally, as made manifest in the past year when entrenched provincial governments were cast out of office, spills over into Vaughan Township, the public certainly will be in for some king-sized surprises on December 10. These observers also take the view that Reeve John Perry's announcement a week ago that he would not be in the running this year will have the effect of turning the contest for reeve into a real exciting horse race.
However, from the present point of view, if judgement is to be made on a basis of the past, as the wise quo group would say, a wide open election and a flood of ballots will take some doing. In the past few years, they say, public apathy towards township politics has been little short of appalling.
In 1957 only 27 per cent of the 9001 eligible voters bothered to cast ballots. That year, the two-year term for municipal office was endorsed 1512 to 802. In 1958, when the contest was for reeve only, 32 per cent trooped to the polls.

TENDERS
will be received by the undersigned until Friday, December 9, 1960, for the ploughing of snow at Richmond Hill, Bayview and Thornhill High Schools. Each school may be considered separately. Tenderers should submit the price per hour as well as information concerning type of equipment to be used, etc. Further information may be secured by calling the undersigned at AV. 5-4281. The lowest or any tender will not necessarily be accepted.
