Many New Teachers

Indicative of the changes caused by growing population and consequent increased demand for teaching staff, was the fact that out of Richmond Hill's Public School cadre of slightly over one hundred teachers 41 had not been in the town two years ago. Supervising Principal Gordon McIntyre told school trustees at their recent meeting. He did not anticipate that changes in the future would be quite so pronounced, he said.

Public Meeting on Sewers

A very important meeting was held on Thursday evening of last week at Henderson Ave. School when Markham Township Council were the guests of the Highland Park Association and the homeowners of the Highland Park Subdivision. Well over two hundred people attending a very lively but extremely orderly gathering. Chairman of the committee was Deputy-reeve Lawson Mumberson. He introduced the panel which consisted of Reeve Dean and councillors S. Watson, C. Hooper, A. Sumner, Assessment Commissioner R. Thomson, Engineer Mr. B. Davis and the township Clerk H. Crisp.

The Highland Park Association had previously sent to council a total of sixteen questions with regards to cost and construction of sewers, both sanitary and storm, also curbs, roads, and installations. Following are the questions and answers in the order given.

1. Question—In what month in 1961 can we expect work to commence on the sewers?
Answer—In about eight weeks after the go-ahead is given by the ratepayers.

2. Question—When will they be completed and in operation?
Answer—Tenders will be called and let within four or five months work will be completed.

3. Question—What can be connected to A—sanitary sewer? B—storm sewer?
Answer—A—all plumbing fixtures laundry tubs etc. B—weeping tile down pipes and sump pump.

4. Question—Will it be mandatory to connect?
Answer—Yes, within one or two years.

5. Question—Will it be mandatory to connect to storm sewers?
Answer—Yes.

6. Question—What happens to the roads and ditches if only sanitary sewers are requested?
Answer—They will be put back as near as possible to their previous condition.

7. Question—What happens if both sanitary and storm sewers are requested?
Answer—Council agreed roads will be paved to a width of 22 ft. to be paid for from a general revenue levied throughout the township rather than by Highland Park alone, this in consideration for the reduced maintenance costs once work is completed.

8. Question—How soon after the sewers are laid will the roads be done?
Answer—One winter and spring must elapse for settling purposes.

9. Question—Will the estimate presented last June still apply?
Answer—This estimate was incomplete and was for a twenty year repayment, costs otherwise are comparative.

10. Question—Explain "sewer area levy".
Answer—Pipe will run along all streets but corner lots pay on frontage only and oversize pipe necessary for lower corner of subdivision also all maintenance costs divided equally among all homeowners.

11. Question—Will lot fees previously collected cover cost of trunk sewer?
Answer—What has so far been collected will pay for stage 1, of trunk sewer, and when all collected will pay for the whole of sewer area 1 which is from Steeles Ave. on the south to John St. on the north. Bayview on the east to Yonge St. on the west.

12. Question—Will Metro charge us for using their sanitary sewers?
Answer—Yes. An estimated \$15.00 per year based on all gallonage to be metered at the Bayview connection to Metro's sewer.

12. B—Question—What about storm sewer costs?
Answer—No charge.

13. Question—What is the estimated cost for paved roads, curbs, and sidewalks per 50 ft. lot?
Answer—Roads approximately \$306.00 per 50 ft. lot, sidewalks definitely in most cases a luxury at \$2.50 per foot, road allowance owned by township is 66 ft. roads at present are about 18 ft. wide.

14. Question—What affect will sewers etc, if installed have on the assessment value of the property?
Answer—Sanitary sewers none. But storm sewers will probably in two or three years mean an increase in land value of about \$2.00 per ft. but only if sale value of property increases. (It seemed to me at this point many present would have desired a written guarantee covering this statement.)

15. Question—Will an increase in the market value of said property cause an increase in assessments?
Answer—Yes.

16. Question—What about Steeles Ave?
Answer—There is at present some indication that Metro may take over Steeles Ave. but when is another question. It will eventually become a four-lane highway with 50 feet of paved surface. A storm sewer must be installed by Markham. No sidewalk will be permitted.

A question and answer period followed the distribution of leaflets which with the revised estimates which amount to \$99.10 per year for 30 years based on a 50 foot lot and a \$2,500 assessment. Cash costs run approximately \$880.00 plus cost of connection and annual charge by Metro of a possible \$15.00.

A questionnaire will be sent to all ratepayers to be filled in and returned within ten days to council. From these returns it will be determined if all or part of these services are desired by the majority thus it will go to the Municipal Board and tenders will be called as if the lowest or accepted tender is proportionately higher than the estimate given us we will have the opportunity to reject it. Also the results of the questionnaire will be made public before any steps are taken.

The executive of the Highland Park Association plan another meeting very shortly. The president Mr. Briggs thanked the committee for coming and answering so ably and the meeting was adjourned.

2nd Thornhill Cub and Scout Mother's Auxiliary

A meeting was held at the home of Mrs. B. Condon on February 28th. I am sorry to report not too many of the mothers were in attendance. It was announced that in future five points will be credited to the boys when their mother attends a meeting. It is hoped this will encourage better attendance. Parents night was discussed, this is slated for March 29th. Please mark the date now.

Neighbourhood Notes

Bill Harris and Barry Barnett were two very lucky lads who attended the N.H.L. game at Maple Leaf Gardens last Saturday night to see the Leafs beat the Blackhawks. Barry never took his eyes off that Leaf goalie I am told. Billy was thrilled to see his idol (Bill Harris) score a goal.

Sorry to hear Muriel Weaving was confined to her home with a cold for a few days last week.

The snowstorm which struck with such a vengeance caught most of us napping, winter it seems is not over yet, so don't put away the snowshoes. It was certainly wonderful to see so many old friends and neighbours at the meeting — shades of ten years ago when the Association had its beginning.

So kind readers remember Confucius said: "The man who removes a mountain begins by carrying away small stones."

Sympathy Community

The whole neighbourhood was deeply shocked to hear this week of the sudden passing of one of our senior citizens, Mr. E. Hampson of 16 Woodward Ave. Apparently earlier he was shovelling snow to the dismay of his neighbours and had gone to keep an appointment for his driver's test. He was pronounced dead on arrival at the North Western Hospital presumably of a coronary attack. Mrs. Dickinson accompanied the officer who delivered the news to Mrs. Hampson and stayed until the arrival of Mrs. Hampson's daughter Louise Romans. The sympathy of this whole area is extended to the family. Mr. Hampson will be greatly missed, he was a favourite friend of so many.
