Entertaining for Miss Jean Taylor prior to her marriage to Mr. Frank Buddin in Richmond Hill Presbyterian Church on August 19th, was her future sister-in-law, Miss Janet Buddin of Laskey, who held a miscellaneous shower. The Curtain Club Theatre, which it is hoped will very soon become a well-known and popular attraction in Richmond Hill, is rapidly taking shape under the enthusiastic hands of its members. During the past few weeks they have spent most of their spare time renovating and remodelling the one-time garage premises of the Canadian Tire Corporation into an attractive and much needed home for the Curtain Club. Work is sufficiently advanced for the artistic directors of the Club to begin work on the interior decoration of the theatre. Ruth Rabinowitch and Ann Featherstonhaugh, whose attractive sets have added much to the Curtain Club productions, are devising imaginative colour schemes and the use of unusual materials to achieve an effect of gaiety and originality in keeping with the spirit of the Club.

Mary Monks, a member of the Curtain Club, is back in the Hill after two energetic and enjoyable weeks at the Red Barn Theatre, Jackson's Point. Her first week was spent in rehearsal, but there was always time to spare for swimming and various social activities with members of the Red Barn company. Last week she appeared in the Barn's production of Blithe Spirit, starring Maud Whitmore as Madame Arcati.

On Wednesday night there was a large contingent of Curtain Club members in the audience, and after the performance they had coffee with members of the east. The party from the Hill included, Rosalind and John Anderson, Ruth and Joe Rabinowitch, Anita and Dennis Stainer, Dorothea Painter, Wanda and Frank Trot, Margot and Gerry Crack, Joy and Ernest Madden, with their son Jack and Harold Monks. Visiting the Barn on Friday evening were two more members of the Club, Esther and John Postlethwaite.

Always interested in power boating and motor boat racing, Mr. and Mrs. Al Cooper and their adult son Ronald, of Lucas Street, were at Picton to witness the victory of Canada's "Miss Supertest III," queen of the waterways. On the picturesque Bay of Quinte, the Canadian craft, designed by Jim Thompson of London, Ontario, and piloted by Bob Hayward, Miss Supertest III captured the Harmsworth Trophy for the third year in succession, at a speed of 96.102 miles per hour. "Good sport!" — commented Al Cooper who witnessed the smile, handshake and congratulations to Bob Hayward by the loser, Chuck Thompson of United States. Both father Al Cooper and son Ronald have experimented and built boats — of which we hope to hear more of in the near future.

At the Grand National Trophy car races at Mosport Park on Saturday, 224 cars battled through ten heats. Local area winners in the Formula Jr. class were; Walt MacKay, Richmond Hill first in Lotus 18; Bill McDonald of King City was second in his Cooper DKW.

Terry Dean of Ashlar Road enjoyed a weeks vacation at boys Camp Ahshunyoong including all the facilities of swimming, boating and fishing that the Camp offers. An unscheduled feature was a terrific downpour of rain, which soaked through and under the tent in which some of the boys were sleeping. Other boys, who had decided on a 'sleep-out' by the camp fire were soaked, and when they rushed into the tent, to quote Terry, "Everybody was all wet."

Entering the United States at Buffalo, the party drove down through New York state and Pennsylvania to Myrtle Beach, which is situated on the Atlantic coast. During the week's stay at this spot, the temperature soared to one hundred degrees, from which, ocean and pool swimming provided a welcome relief.

On the way home, the party had some fun fishing at Sage's Head in North Carolina, which was ended by a cloudburst with torrential rains. Shenandoah Valley and the Gettysburg Battlefields in Pennsylvania were also visited on the return trip.

"Dear Mr. Editor"

QUESTIONS LACK OF CO-ORDINATION IN TOWN AFFAIRS

Dear Mr. Editor:

Your recent editorial on the lack of co-operation between council and other bodies is borne out by the ABC Bowling situation. Perhaps answers to these questions by council would reveal how inane this sort of thing is.

1. Did not council receive a notice of the adjustment committee hearing on the ABC application? Why did not council inform the committee of the impending road?
2. Did not planning board likewise receive a notice of the adjustment hearing and why did not the board either attend or notify the committee of such plans?
3. Did not the planning board know the proposed large scale program for this area BEFORE Mr. Price appeared before them with his application to expand?
4. Is it not true that a builder has grandiose plans for this area? Why was not the committee of adjustment and Mr. Price informed BEFORE THE HEARING?
5. Does council not regard the committee of adjustment important enough to acknowledge their existence at least to the point of paying attention to notices of hearing and either having an official or officials attend so the committee will know what's going on?
6. Is council going to reimburse Mr. Price for the costs of his application to the adjustment body which he might have avoided if he had been told of plans affecting HIS property . . . on which he depends for his livelihood.
7. Is not Mr. Sanderson in error in saying the council reversed the committee of adjustment's decision? Council can only appeal to the Municipal Board. Maybe the OMB will figure the council was asleep at the switch in not paying attention to the notice of hearing and decide the council's appeal is no good. That's what should happen.
8. What does Mr. Price do now? He needs the extra alleys for September 1 to meet commitments. Now, thanks to council, he appears to be blocked. Is that fair to Mr. Price? Or doesn't council care?

Come on, council, let's hear your story. And let's have you pay some attention — or more attention, to those civic-minded people who serve on your appointed bodies. If you're going to disregard them, why appoint them?

Puzzled Citizen

NEWMARKET: Davis Drive is rapidly becoming congested, it is claimed. Some 7,500 cars per day use the mile-and-a-quarter stretch between Main Street and No. 11 highway. A new shopping plaza, a possible new high school and a completion of a subdivision are likely to strangle traffic even more. York County Engineer Jack Rennie said that the Toronto and York Roads Commission was aware that something had to be done, but money was the problem.

A car driven by Michael West, 23, of Tell Street, Scarborough, went into a ditch while south-bound on Don Mills Road one mile north of Buttonville, hitting a culvert and tree. West was admitted to Scarborough hospital in serious condition with internal and head injuries. His passengers, Anthony Greenhall and his wife Carol of 481 Timothy Street, Newmarket, were also admitted to hospital.
