Explaining the reason for the meeting, held in Pleasantville School, Chairman L. Clement said that it was not good for the board to be isolated. He felt that home and school made a good place to start the discussion of mutual problems and to promote good relations between school board, teachers and parents.

School buildings, said the board's chairman, were looked on by the board as providing an opportunity for community betterment. He detailed the use to which they were put in extracurricular activities.

Many Problems Discussed  
Many subjects were covered in the open discussions following the chairman's presentation
