7th Girl Guide Company
Reported by Guide Elizabeth Burgess

An enrolment and badge ceremony featured the meeting of the 7th Richmond Hill Guide Company on Thursday evening, November 21, at Crosby Heights Public School. Mothers of the girls being enrolled and of those receiving badges were welcomed to the meeting by the 7th's lieutenant, Mrs. J. Inglis. Mrs. Mumie assisted Mrs. Inglis in the ceremony.

The following girls were officially enrolled in the "World-

wide Sisterhood of Guides": Brenda Crocker, Freda Sale and Jan Van de Water. During the course of the proceedings, the following badges were presented: Life and Religious Emblem to Sylvia Inglis; Hostess and Laundress to Beth Lamb.

Elizabeth Burgess received her Home-maker, Cook and Child Nurse and Gloria Smart received her Home-maker, Cook, Needlewoman, Laundress, and Little House. The meeting closed with Campfire and Taps.

13th Brownie Pack

The "regular" Tuesday meeting of the 13th Richmond Hill Brownie Pack in St. Matthew's United Church became one of its most important meetings. With 100% attendance of the Brownies, the meeting opened under the leadership of Brown Owl Mrs. Josie Fleming, Tawny Owl Mrs. Vera Smart and Packie Charleen Rayson.

Four "Twines" were welcomed and enrolled: Dale Taggart, Kathleen Anderson, Jennifer Morton and Rhonda Dunbar.

With the Brownies forming the "Open Circle", District Guide Commissioner for Richmond Hill East, Mrs. L. G. Snook was welcomed by the Pack singing "The Brownies of the 13th Richmond Hill Welcome Song" which was specially composed for this occasion as a surprise.

Golden Bars were presented by Madam Commissioner to Linda Robbins, Elaine Blanchard and Gay Gooch. Judy Davies was presented with her House Orderly Badge and her 2nd year Service Star; Lynda Nardini received her Brownie Wings. Diane Mowat was presented with her Golden Hand, the highest award in Brownie land. The Brownies' "Farewell Song" was sung for the three girls leaving the Pack — Lynda Nardini, Gay Gooch and Elaine Blanchard.

"The Little Blue Lake in Switzerland", a legendary story read by Madam Commissioner, was enjoyed by the group, also of assistance to the Brownies in their studies and tests.

The fact that every mother of a Brownie receiving her award was present at the meeting, was greatly appreciated by the leaders. "Taps" concluded this memorable meeting of the 13th Brownie Pack.

8th Brownie Pack

"A Nature Walk" featured the regular Monday meeting of the 8th Brownie Pack, who met in Our Lady of Fatima School. Under the guidance of Mrs. F. Iversal the girls explored, and discovered a variety of minerals and other objects which will help them in studies to secure their "Golden Bars".

10th Brownie Pack

"Work" — and plenty of it — kept all members of the 10th Brownie Pack of Richmond Hill East busy, when they met on Wednesday at St. Matthew's United Church under the leadership of Brown Owl Mrs. B. Knight and Tawny Owl Mrs. J. Holtby. Included in the subjects engaged in were knitting and darning, which help the Brownies considerably in their efforts towards securing their "Golden Hand" awards.

1st Brownie Pack

The regular Wednesday meeting of the 1st Brownie Pack proved to be a farewell meeting to the premises in which the Pack has held so many happy meetings. The Pack's leader, Brown Owl Mrs. L. Todd advises that the 1st's future meetings will be held at 4.15 p.m. Wednesdays in the Wrixon Hall, St. Mary's Anglican Church.

TOWN OF RICHMOND HILL BY - LAW NO. 928

A BY-LAW PROVIDING FOR THE CONTROL OF AIR POLLUTION IN THE TOWN OF RICHMOND HILL

WHEREAS a Municipality is empowered under Section 3 of the Air Pollution Control Act S.O. 1958, Chapter 2, to pass by-laws for prohibiting and regulating the emission from any source of air, contaminants or any type or cause thereof.

AND WHEREAS it is deemed advisable to pass such a by-law.

BE IT THEREFORE ENACTED by the Council of the Town of Richmond Hill.

- In this By-law, (a) "air contaminant" means any solid, liquid or gas or combination of any of them in the outdoor atmosphere that contributes to air pollution; (b) "air pollution" means the presence in the outdoor atmosphere of any air contaminant in quantities that may cause discomfort to or endanger the health or safety of persons or that may cause injury or damage to property or to plant or animal life; (c) "density" means the shade or opacity of an air contaminant at the point of emission to the outdoor atmosphere; (d) "dust separating equipment" means any device for separating solid material from the gaseous medium in which it is carried; (e) "fly ash" means solid particles consisting mainly of noncombustible material emitted to the atmosphere from any source or of the products of combustion from fuel-burning equipment and incinerators; (f) "heating equipment" means steam or hot water boilers used for heating, power generation or for process purposes; (g) "incinerator" means equipment used for the burning of combustible waste; (h) "internal combustion engine" means an engine in which the combustion of a liquid or gaseous fuel takes place within one or more cylinders; (i) "municipal officer" means officer who is appointed to administer and enforce this by-law; (j) "occupant" means the person in occupation or having the charge, management or control of any premises whether on his own account or as the agent of any person; (k) "owner" means the person for the time being receiving the rent of the land or premises in connection with which the word is used, whether on his own account or as agent or trustee of any other person or who would so receive the same if such land or premises were let;

- The density of an air contaminant that is approximately black shall be determined by means of a chart commonly known as the Ringelmann Chart, a Micro Ringelmann Chart, or by a comparable chart having black dots or lines on a white ground or by a glass comparator, so as to produce:
 - No. 1 density — approximately 20% black with approximately 80% of the ground white;
 - No. 2 density — approximately 40% black with approximately 60% of the ground white;
 - No. 3 density — approximately 60% black with approximately 40% of the ground white;
 - No. 4 density — approximately 80% black with approximately 20% of the ground white;
 - No. 5 density — Approximately 100% black.

- The density of an air contaminant which Section 2 does not apply shall be determined by its opacity, by means of visual inspection thereof and shall be related to the density of an air contaminant under Section 2 that has approximately the same degree of opacity.

EMISSION LIMITATIONS

- The emission of any air contaminant from any source that causes or may cause air pollution is prohibited.
- (1) The emission to the atmosphere of any air contaminant from any source having a density of No. 1 or less will be permitted. (2) The emission to the atmosphere of any air contaminant from any source having a density greater than No. 1, but not greater than No. 2 or such as may be dimly seen through at the point of emission, is permitted for a period or periods totalling not more than four (4) minutes in any one half-hour. (3) The emission to the atmosphere of any air contaminant, during the initial building of a new fire in heating equipment, having a density greater than No. 1, and not greater than No. 3 is permitted for a period or periods totalling not more than three (3) minutes in any one quarter-hour. (4) In the event of a major breakdown of equipment the emission to the atmosphere of any air contaminant beyond the limits as set forth in subsection (2) is permitted for such a period as may in the opinion of the municipal officer be required to repair the equipment. (5) The emission to the atmosphere of any air contaminant from an incinerator or any waste disposal unit, used for the disposal of scrap, rubbish, waste material, garbage, or any combination thereof, so as to cause air pollution is prohibited. (6) The burning of any fuel, refuse or garbage in equipment other than that specifically designed for it, is prohibited. (7) The disposal of any material by an open fire is prohibited, except with the permission and direction of a municipal officer. (8) The operation of an internal combustion engine in such a way as to cause air pollution is prohibited. (9) The storing, handling or transportation of any material, whether liquid, solid or gas or any combination thereof in such a way as to cause air pollution is prohibited.

COLLECTORS AND SMOKE INDICATORS

- Fuel-burning equipment in which solid fuel is or is intended to be burned in suspension shall be provided with dust separating equipment.
- Wherever the emission from any stack, chimney or flue, venting the products of combustion from solid or liquid fuel-burning equipment cannot be visually observed from the firing floor, the fuel-burning equipment shall be equipped with such type of smoke indicator and alarm as the municipal officer may require.

INFORMATION AND REGISTRATION

- Every owner and occupant of premises shall furnish such information by way of registration or otherwise as the municipal officer may require for the purposes of administering or enforcing this by-law with regard to any equipment, apparatus, device, mechanism or structure that is or is to be constructed or installed or that is to be reconstructed, altered or replaced the use of which contributes or may contribute to air pollution.

APPEAL BOARD

- (1) An Appeal Board is hereby established to hear and determine appeals from the orders of a municipal officer. (2) The Appeal Board shall be composed of five members, not more than two of whom shall be members of the municipal council. (3) The members of the Appeal Board shall be appointed annually by the council and shall hold office for the remainder of the calendar year and until their successors are appointed. (4) A majority of the members of the Appeal Board shall constitute a quorum. (5) The Appeal Board shall appoint one of its members as chairman at the first meeting of each year. (6) Every member of the Appeal Board shall be eligible for re-appointment. (7) Meetings of the Appeal Board shall be held when necessary at the request of the chairman or a municipal officer. (8) The Town clerk shall provide a meeting place and clerical assistance as required by the Appeal Board.

APPEALS

- (1) Any person who deems himself aggrieved by an order of the municipal officer may personally or by his agent give notice in writing to the municipal officer and to the chairman of the Appeal Board that he intends to appeal such order. (2) Notice of the appeal shall be given within two weeks after the order has been issued. (3) The chairman shall appoint a day, within two weeks after receipt of the notice, for the hearing of the appeal. (4) The chairman shall send a copy of the decision of the Appeal Board to the appellant and the municipal officer within five days after the making of the decision. (5) Where a person complains that it is not technically feasible to comply with an order of a municipal officer or with a decision of the Appeal Board within the time required by the order or decision, he may appeal to the Minister of Health, who may reject the appeal or extend the time for compliance with such order or decision. (6) Any person who deems himself aggrieved by a decision of the Appeal Board may appeal to a judge of the county court of the county of York within 30 days after the receipt of a copy of the decision by the owner or occupant of the premises with respect to which the decision is made and such appeal shall be a hearing de novo and the judge may allow or dismiss the appeal or vary the decision of the Appeal Board, and the decision of the judge is final and not subject to any further appeal.

EXEMPTIONS

- Heating equipment used or intended to be used for the heating of a one, two or three family dwelling or for the heating of less than 35,000 cubic feet of space in a commercial establishment is exempt from this by-law.

POWERS OF THE MUNICIPAL OFFICER

- (1) Every municipal officer appointed to administer and enforce this by-law (a) may enter in or upon any premises at any reasonable time and make such examinations, tests and inquiries as he may deem necessary or advisable for the purposes of this by-law; (b) may require such installations of or alterations in any equipment, apparatus, device, mechanism or structure or such changes in the manner of operating the same as may be necessary to prevent or lessen the emission of any air contaminant within such time as he may require; (c) may permit deviations from the requirements of this by-law.
- Every owner or occupant of premises, his employees and agents shall furnish all means in his or their power that may be required by the municipal officer in the administration and enforcement of this by-law.

EFFECTIVE DATE

- (1) This by-law applies to products of combustion ninety days after it or a synopsis of it has been published in a newspaper having general circulation within the Town of Richmond Hill. (2) This by-law applies to air contaminants other than the products of combustion one year after it or a synopsis of it has been published in a newspaper having general circulation within the Town of Richmond Hill.

PENALTIES

- (a) Every person who contravenes or fails to comply with any provision of this by-law or an order of a municipal officer is guilty of an offence and on summary conviction is liable, for a first offence, to a fine of not more than \$100.00 and for a second or subsequent offence, to a fine of not more than \$300.00. (b) Each day a person contravenes or fails to comply with any provision of this by-law or an order of a municipal officer constitutes a separate offence.

PASSED at the Town of Richmond Hill, this 26th day of September, 1960.

Temporary closing of the Sherwood sideroad, requested by the Canadian National Railways during the construction of an overpass on the marshalling yards access line, has been reported by Vaughan Township Council because of the objection of property owners on the road. There are around a dozen houses on the stretch in question.

Reeve F. R. Perkins, Works Committee chairman, reported to Richmond Hill Town Council that at a joint meeting with representatives of Markham Township and the Ontario Water Resources Commission there had been careful consideration of the township and proposed development of the number 5 well. The well, located by Richmond Hill several months ago, is a short distance outside town limits on land now owned by Markham Twp. The Reeve reported present plans are that the ownership of the well will be transferred to the Water Resources Commission, and development will be by the Commission with capital financing by Richmond Hill. For a term of five years Richmond Hill will agree to supply Markham with a minimum of 60,000 gallons treated water per day. It is proposed Richmond Hill establish a wholesale rate for the treated water. Capacity of the well is estimated at one million gallons per day.

Council gave approval in principle to the reported arrangements and the Works Committee will work out details of rate to be charged and maximum daily quantities. Water sold to Markham will provide a supply for a shopping centre just south of town and home owners in the area. Mayor Haggart warned that in selling water outside town limits development might be encouraged which would be detrimental to Richmond Hill taxpayers through increased school costs.
