### CUB and SCOUT NEWS

**"C" Cub Pack 1st Richmond Hill**  
A hike through the Halton County Forest on February 4th was enjoyed by the "C" Cub Pack of the 1st Richmond Hill Scout Troop. This hike was organized by the Toronto Hiking and Conservation Club, led by Bob Kerston who has a wonderful knowledge of wildlife and the nature of trees. Some points of interest were how the beaver works and how he destroys some of the trees.

Over the Beaver Dam and down the 16 Mile Creek, many pictures were taken at this beautiful waterfall half covered with snowy ice. There were 48 persons in the Hiking Club and one spotted dog. As this club goes hiking every two weeks -- an invitation is extended "to come on out -- get acquainted -- and enjoy some real good fun and exercise," just call TU. 4-7436.

Many thanks from the Pack to Messrs. Leno Tonnello and Doxey, who provided transportation.

**4th Richmond Hill Cub Pack**  
This Pack enjoyed an excellent meeting on Wednesday, January 31st, all playing well together, competing in a message shouting competition and a relay race with pies balanced on their heads, the training period was a busy one, with all members of the Pack working hard towards their Stars.

Richard Lynn passed the test for his 2nd Star while Billy Rumble passed his shoe cleaning test and two others, hopping and time telling. The Duty Six this week were Tawny, and they did a good job -- unlike the White Six the previous week -- who left one Cub to do all the work. The meeting was closed with a rousing "Grand Howl" taken by Nichol Brooke and led by the Alpha.

**5th Richmond Hill Scout Troop**  
"Going Up" marked the meeting of the 5th Richmond Hill Scout Troop when a number of Cubs from "A" and "B" Pack went up into Scouts, the ceremonies being conducted by the leaders, Scoutmaster Drummond Fraser, Akela ("A") Alf. Clarke, Akela ("B") Ken. Dawe. The new Scouts were: Senior Sixer James Fraser, Sixers David Duffy, Michael Weeks, Ian Adamson, Alastair Gorman, David Armstrong and Paul O'Brien, all Two-Star Cubs, the highest in Cubbing.

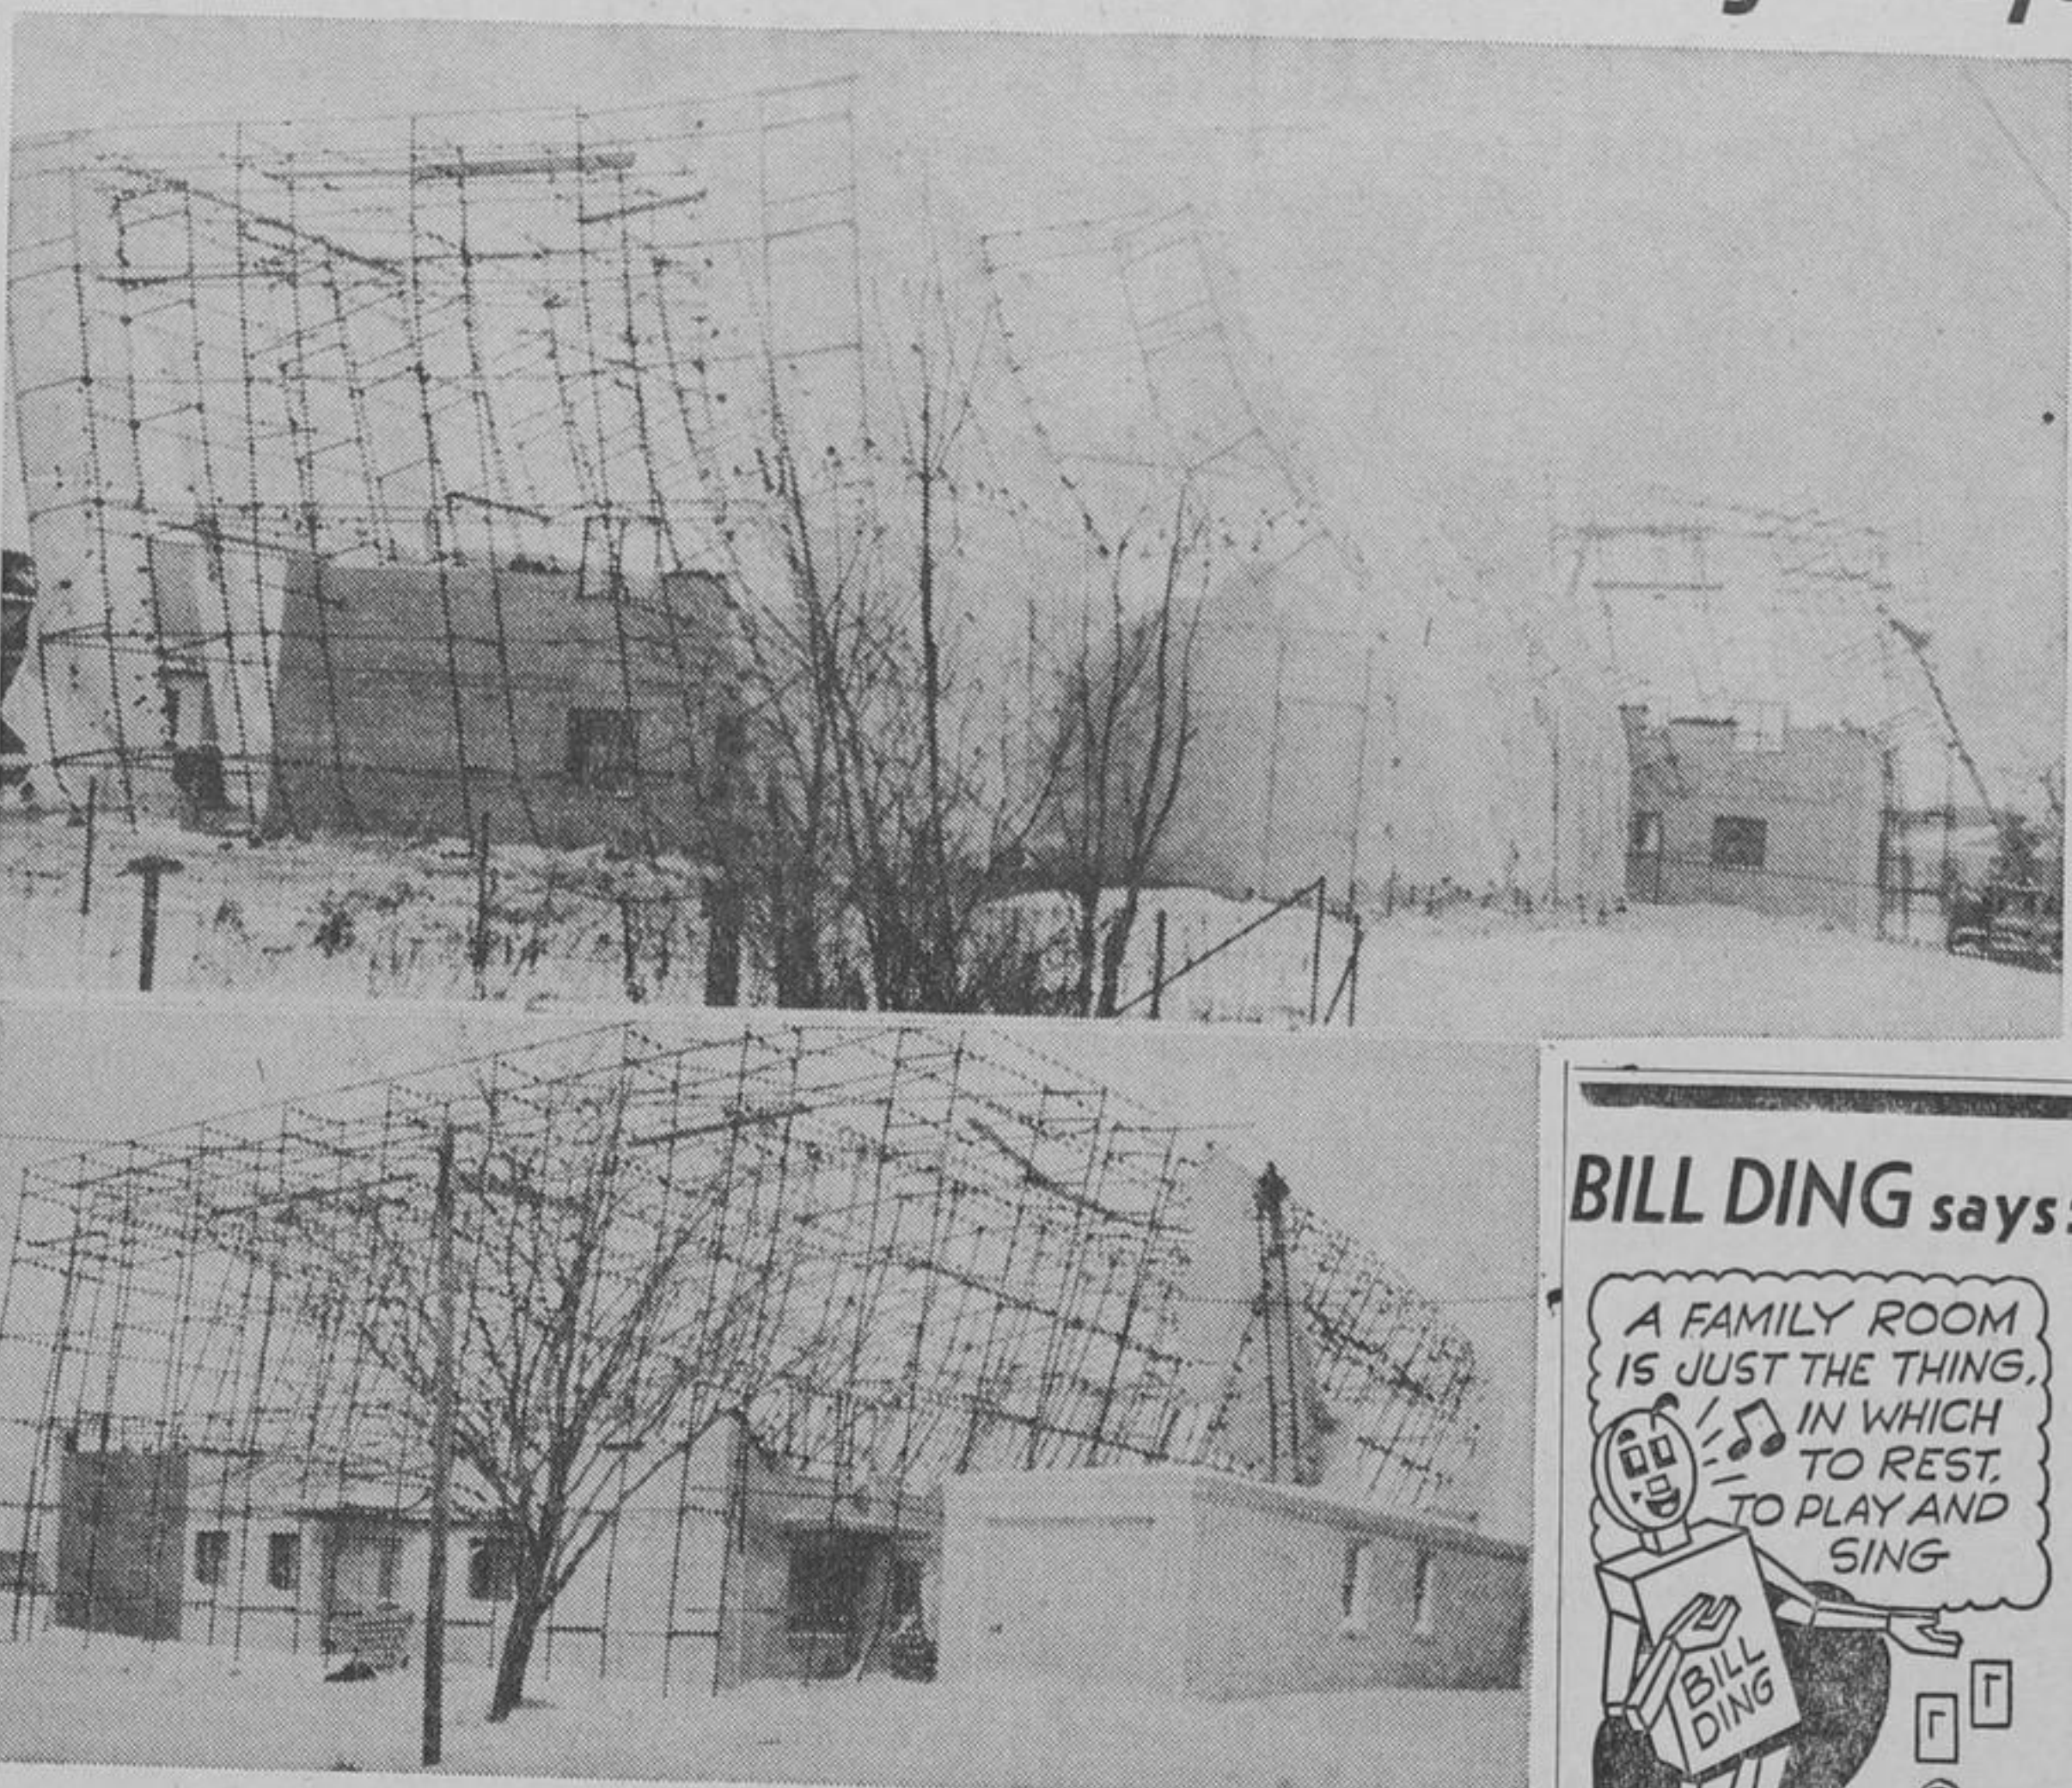

P. Miller was presented with his A-Cord and Camp Cook Badges were awarded to Robert Steele, Derry Kerslake and Peter Miller. Leaping Wolf Badges were presented to Roddy Loftus, Mike McMaster and Mike Hannah. Invested, after passing their Tenderfoot Test, were: Roddy Loftus, James Fraser, David Duffy, Michael Weeks, Ian Adamson, Alastair Gorman and David Armstrong.

**1st Beverley Acres Scout Troop**  
"Winter and Survival Tests" -- conducted by the 1st Beverley Acres Scout Troop during January 26th to 28th at Oxtail Scout Camp -- were voted a complete success by the troop and their leaders, Scoutmaster Norman Foster and Rover Skipper Graeme Gould.

In zero weather -- 35 scouts -- engaged in the prescribed survival practices, including snowshoeing and setting of snares on rabbit runs. Unexpected practice was given to the rescue and St. John Ambulance squads, due to a suspected fractured ankle sustained by the warden's son, who as a visitor was skiing. In addition to their regular practice and tests, the boys enjoyed tobogganing and skiing.

Four scouts -- Robin Derrick, Dennis Richards, Dave Mowatt and Nick Chapman earned their Camp Cook Badges -- also the high appreciation of all the campers, as these four cooked excellent meals for all the 37 pres-

## When Storm Meets Steel - Scaffolding Sways

Shown from two different angles is the steel scaffolding surrounding a new apartment building under construction at Elmwood and Bayview avenues, Richmond Hill, victim of a storm which worked up a six-mile-per-hour blow at the end of January. The top picture shows the polyethylene tarpaulins which were hung on the scaffolding to protect workers inside, but which during the storm acted as huge sails and helped the wind to bend the scaffolding. At the extreme right is seen one of the cranes brought in as an emergency measure to hold the scaffolding until it could be dismantled. In the lower picture, which also demonstrates the way in which the steel scaffolding was twisted, a Richmond Hill Hydro worker helps to remove tarpaulins.
