## Area Men Help Prevent Return Of "Hazel"

# Conservation, Flood Control Work Steadily Gaining More Momentum

Richmond Hill's Mayor James Haggart will serve as 1962 vice-chairman of the important Flood Control and Water Conservation Advisory Board of the Metropolitan Toronto and Region Conservation Authority. Another York County man, Deputy Reeve R. G. Henderson of Woodbridge, is chairman. Both have taken a leading part in former activities of the Authority and were chosen at the annual meeting this month. J. W. Bradstock, former Deputy Reeve of Richmond Hill is also a member of the Authority.

Markham Township is represented on the Authority by C. Clifford and J. E. Harper, while Vaughan Township's representatives are Deputy Reeve Jesse Bryson and Francis M. Reddelmeier. Markham Village is represented by Joseph V. Fry, 1961 Warden of York County. The Conservation Authority encompasses the Etobicoke Creek, the Mimico Creek, and the New Toronto Creek watersheds; the Humber River watershed; the Don River watershed; the Rouge River, Duffin Creek, Highland Creek and Pelee Island Creek watersheds. Beside Metropolitan Toronto, 22 municipalities are joined in it. The watersheds contain approximately one thousand square miles, in which nearly one tenth of the population of Canada resides.

All Governments Share The federal government, under the Canada Water Conservation Assistance Act, takes care of 37 1/2 per cent of costs, with the provincial government looking after the same proportion. The remaining 25 per cent

is carried by Metro Toronto and the other municipalities in the conservation area. In the five years of its existence the Authority has expended over nine million dollars on conservation area land and development, flood control and water conservation, conservation services, historic sites, information and education and operation and maintenance. Seven and a half million dollars of it were spent on conservation area acquisition and development and flood control and water conservation.

The Flood Control and Water Conservation Advisory Board on which Mayor Haggart serves is associated with one of the most important aspects of the Authority's work. The ravages of Hurricane Hazel in 1954 were vividly remembered when the Authority was formed in 1957. That disaster left 81 dead, 1,000 families homeless, \$24 million damage.

In 1958 the Authority completed its plan of flood control and water conservation. It called for an expenditure of \$38 million plan.
