committee for disposal.

Basketball Finals

At their meeting on February 28th, Mr. Boyce's report indicated that after a close examination of the two lowest tenders' subcontractors, both tenders remained almost identical. However on approaching Toronto Plumbing and Heating who had submitted the lowest plumbing tender of \$147,619.00, he found that this firm was unable to secure a bond. It was accordingly necessary to accept the next lowest tender that of George Kelson of Thornand the contract for the addition was therefore awarded to Graham and Sibbet for a total of \$747,281. with plumbing by George Kelson and electrical work by Hart Electric.

The board expressed satisfaction that the plumbing would be done by a local firm employing men from the Richmond Hill and Thornhill area. It was also noted that Mr. Kelson had done the original Thornhill High School plumbing, as well as several other contracts for the board and his work had at all times been satisfactory. Hart Electric are presently doing the Thornhill addition and have given the board every cooperation.

The board was also gratified to find the total cost was under the \$870,000.00 approved by the government for this addition. It is expected that work will start in a week or so.

Teachers Trustee Redelmeier reported were not yet completed.
