Maybe a loose shingle started it. Or worn-out weather stripping. Or a gnawing band of termites. Whatever it was, plugging a leak properly can be expensive-and, of course, the longer it's left, the more costly a repair becomes. This goes for peeling paint, crumbling concrete, and missing mortar too.

Yes, keeping a house in shape sometimes costs a lot of money, and occasionally it may cost more than you have on hand. What then? The answer may be a Scotiabank Home Improvement Loan... money you can borrow at low interest for repairs . . . or for extra bedrooms, a garage, a carport, modern heating, new and up-to-date plumbing-things that maintain or improve your home as an investment. Just call at your nearest branch of The Bank of Nova Scotia. See the manager. He will welcome the opportunity to discuss how a Scotiabank Home Improvement Loan can help you.
