are, automobile and casualty insurance companies

ALL CANADA INSURANCE FEDERATION - on behalf of over 200 competing -

In his care without insurance protection?

ALL CANADA INSURANCE FEDERATION

Far fetched? Not really. Without the protection of insurance, today's

Highways without traffic

crowded highways would be virtually empty - if, indeed, they had been built in the first place. Without automobile insurance, for instance, how many of today's

6,000,000 Canadian drivers would risk the liability claims which a single accident might bring? Without other types of insurance, who would dare gamble many millions of dollars to build cars in the first place? If the cars were built, how many dealers could dare risk having possibly hundreds of thousands of dollars worth of vehicles

Last year, automobile insurance companies in Canada paid out more than a half million dollars a day in claims - \$190,000,000 in the year. Without insurance, the motoring public would be faced with the impossible financial risk of out-of-pocket payments of this mammoth accident bill. In many ways, insurance makes our present way of life possible.
