Darlene Burrows celebrated her 4th birthday, May 3.

Mrs. J. M. Barbour, entered hospital for minor surgery May 1 and came home Saturday.

The only high score yet turned up in the Doncaster Community Ladies Club euchre marathon is an 83 by Mrs. Lalla Johnson.

Misses Rose and Alma Jueneau, aunts of E. Fox visited him and his family from April 27 to May 2. The visitors are from Victoria Harbour.

Thornhill and District Hockey Leagues are holding a father and son party at which the awards for the past season will be made.

This is May 10, at St. Luke School auditorium. The fee is \$1.00 per family.

**School News**  
Teachers Miss Joy Gales and Alan Longfield, of the Woodland teaching staff will be married at the end of the term.

Miss Gales teaches grade 5 and Alan teaches grades 6 and 7. Both are Toronto residents.

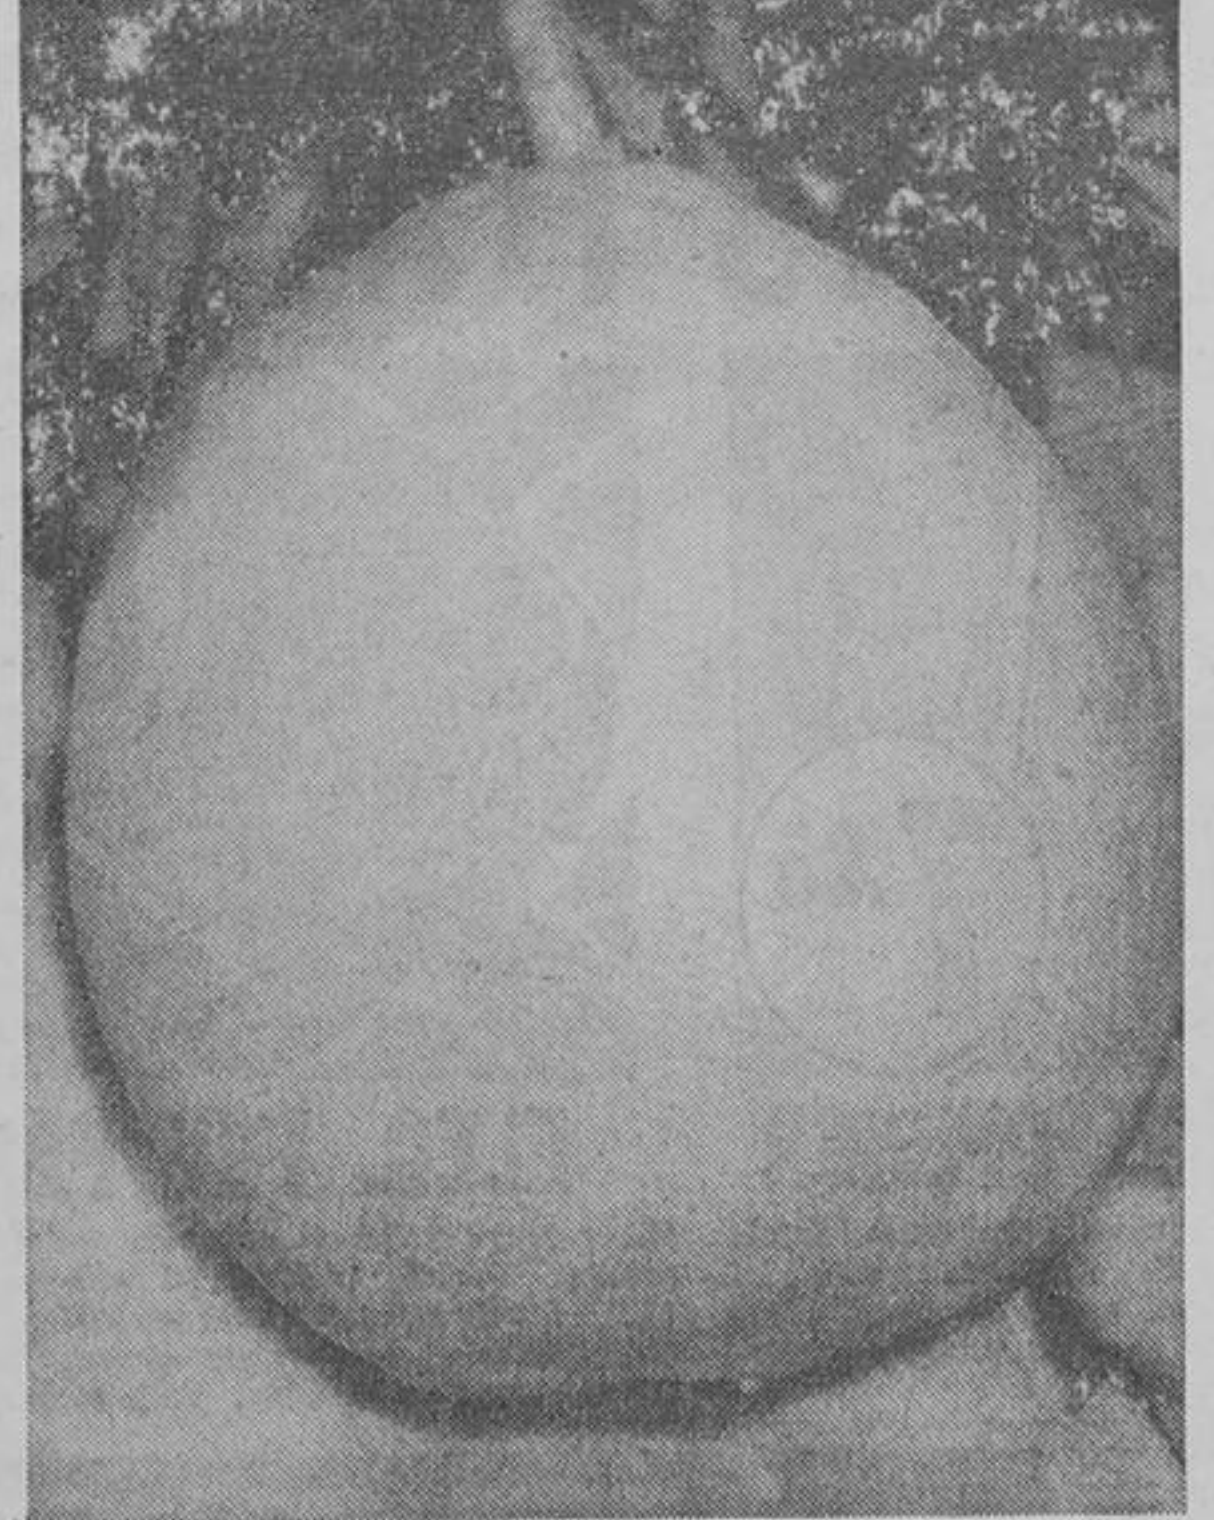

The baseball season opened last Monday at Woodland School for both boys' and girls' teams.

The addition to the school is nearing completion. The addition consists of four classrooms, a playroom auditorium and a staff room.

In a simple ceremony, April 21, Miss Doris Bonnici of Morgan Ave. was married to Wayne Genge of Toronto in Willowdale.

**A Lemon? — It Can't Be**

That's right, it is a lemon, although at six inches in diameter it's probably one of the larger of the species ever seen by the residents of Richmond Hill. However this is nothing out of the ordinary at Bedford Park florists where the fruit was grown - there are seven trees full of lemons this size there.

The fruit isn't actually oversized as it is a different type of lemon from the familiar commercial one. Manager Paul Angle reports that the seven trees at Bedford Park are maintained by the employees there as a hobby. Thought to be about 32 years old, the trees were originally house plants. As well as being very large there is another peculiarity about the lemon plants. They are ever-producing, that is there is fruit on the branches all year round and blooms appear at the same time the fruit is ripening.

**Hope New Sabin Oral Vaccine Will Banish Forever The Scourge Of Polio**

York County residents will start receiving the newly-developed Sabin oral polio vaccine within the next few days, reports Dr. Robert King, M.O.H. for York County.

This vaccine has been re-leased to the Ontario Health Department by the federal government on the understanding that it would be used by health officials in a mass immunization programme only. As a result, health departments in Metro Toronto and York County are working together under the joint chairmanship of Dr. A. J. Boyd, M.O.H. for Toronto, and Dr. Wm. Mosley, M.O.H. for East York-Leaside, to begin a mass immunization program in the early part of May.

It is expected that everyone in the county will be receiving a dose of the vaccine except infants under three months old. Under three months of age it is thought that the vaccine would not likely be effective anyway. Because the vaccine will strengthen the protection received from Salk vaccine, even those who received Salk "shots" are being urged to take the Sabin vaccine.

The clinics for administering the vaccine will be set up mainly in elementary schools so that it will be convenient for every individual to attend in his own neighbourhood. It is planned that school children will receive the vaccine during school hours but signed permission of the parent is necessary for its administration.

The pleasant tasting syrup-like vaccine is not recommended for those who are acutely ill, for those who are taking anti-leukaemic drugs, those with neurological illnesses, those who have had a tonsillectomy or dental extractions within the two weeks prior to the vaccination or who plan to have these in the two weeks following the vaccination or for those who have been vaccinated for small-pox in the past three weeks or who plan to be vaccinated in the following three weeks.

Operation Sabin is up to you. You can have freedom from the fear of poliomyelitis by spending just a few minutes of your time - your only payment for this vaccine. The county health unit through a series of advertisements in the county weeklies are publicizing when and where this vaccine will be available in your area.

**BRADFORD:** Town council recently passed a by-law to prohibit the discharge of firearms within the town. Other clauses in the same by-law prohibit the sale of firecrackers or fireworks to children under 10 years of age, prohibit the sale of fireworks within seven days of Victoria Day, and prohibit the setting off of major fireworks displays without first obtaining a permit from the police chief. The setting off of fireworks in public places is also banned. The by-law provides for a fine of up to \$300 for a breach of the by-law.

**Annual Meeting**  
"What are we doing here in this area for education?" - were the opening words of the address of Mr. Robert Templeton, guest speaker at the annual meeting of the Henderson Avenue Home and School Association, held in the school auditorium, April 30th - this query later being answered in detail by the speaker.

This meeting - the last of the season - provided very interesting and informative, though the attendance was disappointing, only 34 members present, due to which the new executive committee could not be sworn in. Following the reading of the minutes, the annual treasurer's report was presented, with a forward balance of \$1,796.21, which when all expenses were paid, left a balance of \$241.91.

**Grade Mothers**  
"They have all done an excellent job - helping out in so many ways" said Mrs. Kennedy, thanking the 31 grade mothers of the year for their efforts. In her report, Mrs. Kennedy also extended thanks to everyone for their help with the "Saturday Movies", as in all, there were 36 helpers, with particular thanks to publicity agent Elizabeth Jennings, Mr. Waterfield and Mrs. Briggs in charge of the camera equipment, also to Mr. Westlake and the principal "for being on the job". The total amount received was \$911.66, showing a net profit of \$400.00. These film shows were all enjoyed by all who attended, and the money was put to good use in purchasing many needed useful items for the school.

**Fun Fare**  
Mr. R. Briggs reported on the "Fun Fare" in place of his wife, who was unable to be present. This report stated that the Fun Fare was held on October 14, 1961, with 40 convenors and helpers. Mr. Briggs thanked them all for their great help in putting this project over the top the net profit amounting to \$418.35. Cups and saucers were presented to the teachers of Henderson School by Mrs. Fraser.

**Room Count**  
The Room Count report revealed that Miss MacNeil's class was the highest. School principal Mr. Martindale, in thanking the association for their fine work for the school term, stated how grateful he was for the fine books presented to the library, amounting to \$150.00. The principal also appreciated the wonderful help of all those who came out to keep the ice rinks in good condition. A great response was received by association president Mr. Sloan following his request for volunteers to come out Saturday morning and help take the rinks down.

**Polio Oral Vaccine**  
An announcement was made by Mr. Martindale on behalf of the Public Health Nurse, that polio oral vaccine would be given to the school pupils, with consent from their parents, on May 26th, and would also be given to adults on the evening of May 25th from 6:00 p.m. to 8:30 and to pre-school children.

**Guest Speaker Templeton**  
Mr. Martindale introduced the speaker for the evening, Mr. Robert Templeton. Born in Northern Ireland, Mr. Templeton is the Technical Director of Thornhill Secondary School. He explained the contents of technical courses offered at Thornhill, telling of the types of students who are likely to succeed in these courses and of the avenues of further education or employment available, following graduation.

The speaker stated that technical education had been used as a dumping ground for pupils who did not bear the marks of success. There are 177 Vocational Schools being built, with an even percentage of boys and girls attending these schools. Even the handicapped are receiving technical education, with many graduations.

Technical education started in the 16th century, and from 1909 to the present day has rapidly progressed. Hamilton built its first technical school in 1913, and in 1933 there were 61 technical schools and now in 1962, there are 177 schools of this type.

"We talk about expansion and development of education ... what do we do about it ... what are we doing in this area" queried the speaker - and answered by - "We are doing a very important job toward technical education. In Thornhill school we have built on a shop wing to train boys in arts and mechanics ... a four year course to enable graduates to secure positions in the skilled field ... also a five year course that will lead them to university ... there is also a two year course for boys and girls who are experiencing difficulties ... it is our hope to develop in them skills of their own ability, things they like to do themselves".

The speaker then closed, stressing that all parents should endeavour to keep their children in school to further their education. Mr. Templeton received a great ovation and was thanked by Mr. Sloan, association president. Mr. Sloan mentioned that there would be one more executive meeting at the school and in adjourning the meeting, wished all members of the association "a very enjoyable summer - and am looking forward to seeing you all next September".

**Guides and Brownies**  
Miss Norma Davis leader of the 4th South Thornhill Guides and her guides went out to Camp Unlayl at Whity on Lake Ontario during the Easter holidays. The weather was perfect and the first night they didn't get to sleep till 2:30 in the morning they were so excited. One night they enjoyed a shore supper and passed tests on Scout pace and knots. Two very funny accidents happened while on this expedition, one night "Lefty" Trudel went over to shut a light off in the recreation room, and in doing so she went through the pane of glass in the storm door when attempting to push it open. The other little mishap was when the smallest guide in the camp Cynthia Chambers was sweeping, and broke a living room fixture with her broom.

**Scouts and Cubs**  
On Saturday May 12 the Cubs and Scouts of the Thornhill Area are organizing a little drive for funds. So dear Thornhill residents dig out all the old bottles you can find and on Saturday from 8:30 a.m. on the Cubs and Scouts will be there to relieve you of them. Those participating in this drive will be the 1st Thornhill Cubs and Scouts from Thornhill United, 2nd Thornhill Cubs and Scouts from Henderson Avenue School and the 5th Thornhill Cubs from St. Lukes School.

On May 10th the 1st Thornhill Cubs will be paying a return visit to the 2nd Thornhill. Two weeks ago 1st Thornhill were hosts to the 2nd in a pack competition night. They started off with a camp fire session, of songs, skits and what have you, and finally topped with the part the boys love the most "food".

The ladies of the auxiliary straightened out a shortage of winners here may we say again thanks to the ladies.

1st Thornhill Cubs will have their first hike on this coming Saturday when the Cubs assisted by the group committee will take off for the Toronto Scout Camp of the Crooked Creek.
