NOW IS THE TIME TO KILL CRAB GRASS WITH GREENFIELD

Each crab grass plant spreads up to 25,000 seeds into your lawn.

Crab grass is an annual -- comes up each season from seeds that have been dropped in previous years, or are blown in from nearby property. The seed is tough, hardy -- often lies dormant for several years. Your lawn may be literally packed with crab grass seeds right now -- waiting to sprout -- for each plant can spread up to 25,000 seeds!

New scientific discovery, TREFLAN™, kills weed grass seeds as they sprout.

Greenfield Research Laboratories has developed a new ingredient -- Treflan™ -- specifically to prevent the sprouting of such weed grasses as crab grass, goosegrass, barnyard grass, and foxtail. Exclusive in Greenfield Double Action Crab Grass Killer, it has been proved 95-100% effective in many tests. It goes to work the very day you apply it -- kills crab grass and other weed seeds as they germinate -- right up to the 2-leaf stage -- full season control. Yet it is safe -- can't harm established turf when applied as directed.

When you spread Greenfield Double Action Crab Grass Killer -- with no extra effort or cost -- you will also be feeding your lawn!

This new product is a complete lawn food, 100! It contains nitrogen, phosphorus and potash in 10-5-5 ratio -- the right proportion that lawn experts agree is needed for that important early feeding. This long-lasting, non-burning, complete lawn food goes to work immediately, keeps on fertilizing for weeks.

Greenfield products -- available at all authorized Greenfield nurseries and hardware stores.

Miss Helen Smith, Thornhill, Is Runner-up In Posture Contest

Miss Helen Smith, Thornhill Secondary School is seen here receiving her trophy from Mr. Bob Pulford and Mr. Bill Harris, star centres of the Toronto Maple Leaf Hockey team, as runner-up in the Posture Queen Contest sponsored annually by the Ontario Division of the Canadian Chiropractic Association. The winner was Miss Caroline Hartley, Nelson High School, Burlington, Ontario.

The purpose of awarding trophies to Posture Queens, selected from entrants representing a substantial number of the province's high schools, is to stimulate interest in proper posture so essential to our younger generation for future health and well-being. Being conducted at the end of the observance of National Correct Posture Week, it is felt that the significance of good posture will be emphasized and its importance impressed upon the public in general, and students in particular.

Carnival Worker Hurt

Investigating a rumour that a man had been killed at the Richmond Hill Fair, Police Chief Robbins investigated and found that a carnival worker had been crushed and injured while unloading equipment, but that the injuries were not fatal. The accident occurred Friday when midway equipment was being unloaded.

Committee Of Adjustment Notice Of Hearing

Notice is hereby given of a hearing to be held by the Township of Markham Committee of Adjustment, at the Municipal Offices, Buttonville, R. R. No. 2 Gormley, Ontario, on the sixth day of June, 1962, at 7:30 p.m.

Notice Of Application

The application to be heard has been submitted by Charles Wortman the proposed purchaser of Lot 15, Registered Plan M-862. Mr. Wortman requests release from the provisions of By-law 1767 as amended by By-law 1797 Section 16 (i) (c) to enable a portion of the front wall of the dwelling to be built seven (7) feet closer to the front lot line than the by-law permits, and also requests release from Section 16 (i) (d) so that the south-west corner of a garage may be erected two (2) feet closer to the side lot line and that the minimum side yard requirements be reduced to twelve per cent (12%) rather than the required twenty per cent (20%).

Signed written submissions on this application will be received by me at this office prior to the hearing.

M. A. N. Shenfield, Chairman, Township of Markham, Committee of Adjustment.

Ghost town or just asleep?

On the surface, a ghost town and a sleeping community look much alike. But there's a tremendous difference beneath the surface... a paused but healthy economy... a population asleep but ready for the next day.

Another invisible factor, just below the surface, is insurance. Insurance in its many forms protects the community when it is awake or asleep -- against the risk of loss from fire, accident, theft, liability, storm and the multitude of other hazards we all face from day to day.

Without the protection which insurance provides, most thriving Canadian municipalities might well be ghost towns. Without that protection -- which comes only when the catastrophic losses of the few can be spread among the many -- most of the enterprises which make our Canadian centres prosperous today could not have been undertaken. The tremendous individual risks of sudden disaster would have made such enterprises too one-sided a gamble with fate.
