Langstaff - Bathurst High School

M.O.H. Recinds Septic Tank Approval

In a letter addressed to the York Central District High School Board, Dr. Robert King, York County Medical Officer of Health rescinded the verbal approval he had given the board for the septic tank installation at the new high school site in the Bathurst St.-Langstaff area.

"There is no possibility of sewers in Vaughan Township. The pupils are there and we have to educate them. There is nothing we can do but go ahead regardless," stated business administrator J. D. Ashworth, at the June 11 meeting of the board.

It was decided to ask Dr. King to meet with the property committee, inspect the site and offer them some alternative suggestion.

In the meantime, the board passed a resolution to go to the Department of Education with the figures on prospective enrollment in the area and ask for approval of an 800 student school on the Langstaff site.

The 800 pupil figure had been arrived at in a meeting of the principals and the superintendent and was based on the information contained in a sixteen-page report prepared by Mr. Ashworth. The school is to be essentially academic but with three commercial classrooms, a library, an art and a music room, two industrial arts shops, two home economics rooms, four labs and a gymnasium.

Trustee Robert Edean objected that the board would find itself as it had in the past with a school that would need enlarging within a few years. Mr. Ashworth stated, however, that the department would not give approval for a larger school at this time, but that the school should be designed with wide halls and a large boiler room so that it could be enlarged as required. He felt that if the board was to have the school ready by the fall of 1964 they must begin immediately to get

the required approval from the department. It is the initial approval which takes the time, he pointed out. Approval for future changes or increase in size could be obtained quickly.

Board Responsibility

Considerable discussion arose over the recommendation of the advisory-vocational committee that the shop director Mr. Templeton should be given authority to spend up to \$118,750 for shop equipment and supplies at Thornhill Secondary School. Trustee Lewis Clement felt strongly that the spending of such a sum of money was the board's responsibility.

It was explained that Mr. Templeton had drawn up lists of equipment and supplies needed and that these had been tendered for and the tenders were in the board office.

Trustee Clement suggested that tenders for all items over \$2,000 should be submitted to the board. Objecting that the board members had not seen the list of requirements, he then moved that the matter be tabled until there was sufficient material before the board and that a special meeting should be called to consider it.

This motion was lost however, and on a motion of Trustee John Honsberger, seconded by

president of Canada Packers' Credit Union, he is a member of the Canadian Institute of Public Affairs, Ontario Welfare Council and the African Students' Foundation.

Mr. and Mrs. Hall have an 18-month-old son. He says there are only two major issues — unemployment and establishment of a national health plan.

"We can give full employment and as far as a national health plan is concerned, just let me be elected," Mr. Hall says.

A newcomer to the political scene is Social Credit candidate J. (ALEX) FORD of Scarborough who nipped in under the wire to file his nomination.

Born in Kent County he attended St. Thomas Collegiate and London Teachers' College. He has been a teacher for eight years in a township school.

Mr. Ford is interested in the Boy Scout movement, and is sponsoring establishment of a Scout centre in Scarborough. He is the father of one son and a daughter.

He says that Social Credit, the free enterprise way of life, will strengthen every home in the nation. A cut in taxes is the same as a raise in pay, he claims.

The Sacred candidate advocates loans to municipalities at cost of administration through the Municipal Loan Bank. He said this would mean large savings to municipal governments across Canada.

"These savings can be used to meet the rising crisis in school accommodation or to lower the local mill rate," Mr. Ford suggests.

"Youth must be served. When was there ever a time in our history when more young people had to be served in our schools and colleges.

'58 Figures How York North voted in 1958:

The riding has seven townships, three towns, 20 villages and two Indian Islands.

Change 2 Crossings For School Students

Since the school crossings have been changed on Yonge Street, Const. Doug. Young of the Richmond Hill Police department has been busy instructing pupils at McConaghy Public School.

The cross-walk in front of the school has been changed to Lorne Avenue and Yonge Street, and the crossing at Church Street and Markham Road has been changed to Yonge Street and Markham Road.

On-the-street instructions were given to kindergarten and Grade 1 pupils by Const. Young last Wednesday. He said it will take a little time for the students to get used to the change.

The changes are part of the new system devised by town Police and the Department of Highways to help traffic flow smoothly on Yonge Street, Const. Young said.

Blaze Guts Barn Damage \$22,000

On Saturday morning a barn owned by Donald Boyington on Highway 48, north of Markham Village, was completely destroyed by fire.

Estimated damage, including crops and equipment stored in the barn, was \$22,000. Cattle stabled in the barn were removed safely. The Stouffville fire department responded to the call.

The Richmond Hill Fire Department was called to the home of Mr. Waterfield, 50 Steele Valley Road, at 10:30 p.m. Friday when Mr. Waterfield's car caught fire.

Fire was caused when fumes from a leaky fuel pump ignited. Only minor damage was done to the wiring system of the car.

New Water Tank To Cost \$71,860

Markham Township has authorized the purchase of a 250,000 gallon water tank at a cost of \$71,860 from Horton Steel Works Ltd., Toronto.

It was the only firm to submit a bid when tenders were opened at a council meeting Monday afternoon. Two other companies invited to tender declined to bid.

The tank will be constructed on Bayview Avenue south of Highway 7, on one acre of property purchased for \$4,000 from the Gordon Leitch Estate.

Township Engineer Dusan Miklas said he expects the tank to be in operation by the end of October. It will have a 135 foot high water level above the grade, he said.

When completed it will help to boost the water pressure in the township system, the engineer stated.

Newmarket Hospital Psychiatric Ward

Included in the plans for the second addition to the York County Hospital since World War II is a 24 bed psychiatric ward for treatment of mental patients in the upper part of York County.

Contract for the addition has been awarded to Donolo Construction Co. The cost of the new addition will be almost entirely covered by federal and provincial grants.

Dr. S. E. Jensen, director of the mental health clinic, Newmarket will act as consultant to family doctors whose patients will be admitted. Friends and relations will be able to visit freely the ward, officials said.

The County Hospital Commission feels that with the great interest aroused by the Canadian Mental Health Association, they will receive widespread support in their campaign for funds. They expect the total indebtedness to be liquidated in less than five years.

WREN MORRIS Wren Beverley Anne Morris, daughter of Mr. and Mrs. L. V. T. Morris, of Carville Road, Richvale, has successfully completed an eight-week basic training course at HMCS Cornwallis, near Digby, N.S., and has begun training in communications at Cornwallis. Wren Morris attended Thornhill High School before entering the navy at HMCS York, Toronto Naval Division, in February.
