To Construct Addition On Department Building

An 850 square foot addition to the roads department building was authorized by Markham Township Council Monday night.

Contract for the \$8,324 second storey was given to St. Andrew's Construction Ltd., Toronto, only one of five firms who submitted prices on the work.

Township Engineer D. Miklas recommended to council the Toronto firm to start immediately so that badly needed additional space for his department could be available as soon as possible.

The engineer said that tenders for heating the structure will be called this week.

Several members of council asked if it would be cheaper to sub-let the contract to individual firms.

Mr. Miklas said he did not advise this method due to the supervision needed by municipal employees and the added responsibility of securing various sub-trades. He doubted if it would be cheaper.

Local Ford Dealer Honoured With Award

A. E. Thompson (left) regional manager of Ford Motor Company of Canada, is shown presenting the Distinguished Achievement Award to R. D. Little and D. R. Little of R. D. Little & Son Ltd. This award, given for outstanding sales

and service performance during 1961 was won by only one other Ford dealer in Ontario.

R. D. Little & Son, the well-known local Ford dealer, has served the Richmond Hill area since 1927. (Photo by Lagerquist)

Saving Begins At Home

If you are thinking of buying a new or used car, the best common sense counsel you can follow is to buy it locally from a reputable dealer.

Despite the simple economic logic of this advice though, many well-intentioned and otherwise sensible folks will drive fifty miles and more to "save" fifty dollars.

Exceptions to this rule make sense when a motorist knows an out-of-town dealer in whom he has complete confidence. Or when he has real reason to complain of service in his own locality. A small price difference by itself, however, is seldom a wise justification for purchasing a car outside of your own town or city.

An out-of-town buyer should expect to trade for less because the dollar difference most frequently is expended in other ways: Paying for service that would normally be free at your selling dealer's, travelling costs and loss of time in warranty adjustments.

It is virtually standard practice among many dealers to trade off questionable used cars to out-of-town buyers so as to protect their local reputation. These cars are sometimes priced below market averages but they are not bargains. If they were the kind of automobile that the dealer knows would create satisfaction for their owners and goodwill for himself, the dealer would sell them locally where he knows he has to make good on service requirements.

Your local dealer is sharing your community tax burden and frequently the worthwhile work of service clubs and local charity efforts. If he wishes to stay in business, he knows he has to earn and keep your trust and patronage. It's just sound good sense to consider him first for your car needs.

500 Pheasant Chicks To Find Home In Twp.

Markham Township has taken steps to increase its pheasant population. At Monday's council meeting, it was announced the Department of Lands and Forests would deliver 500 pheasant chicks to the township, July 31.

According to Clerk H. Crisp, H. Miller, R.R. 2, Markham has agreed to care for the chicks for 10 weeks after their delivery. Markham will pay Mr. Miller one dollar per chick for board, Mr. Crisp said.

At the end of 10 weeks, the department will release the birds throughout the township.

Council Refuses To Allow Movies

Vaughan Township Council has turned down a request for Sunday movies in the township. The request had come before the finance and general purpose committee Thursday.

The committee received a letter from A. H. Jolley, executive secretary of the Motion Picture Theatres Association of Ontario, asking for action by the council on an application by the association for a vote on Sunday movie.

The committee recommended that council turn down the application because there are only two drive-ins, operating from May to October, in the township. Council adopted the report.

St. Paul's Lutheran Ch. Summer Time Service

St. Paul's Lutheran Church will hold its Sunday worship services at 10 a.m. beginning July 1. A Wednesday evening service will be held for those out of town on weekends.

The congregation's summer schedule calls for Sunday school classes to meet during the 10 a.m. worship service. However, no classes will be held July 1, August 5 or September 2, the holiday weekends.

The Wednesday evening services will be held in Zion Lutheran Church, two miles south of Maple on Keele St., at 8 p.m. They begin July 4.

These mid-week services will be identical to those held Sunday mornings. They are an accommodation to cottagers, fishermen, and others often absent on Sundays.

"We pray that God never takes a holiday from caring for us," said Pastor Myers. "These services will help us not to take a holiday from him."

The Sunday services will be held in Walter Scott Public School on Markham Rd. The congregation worships there pending construction of its new church on Bayview Avenue.

KING TWP.: King Township Council has decided to have ratemakers and Department of Transport Officials meet in the King office at 3 p.m. on June 27 to discuss the future of a proposed airport between Highway 400 and the King-Vaughan town line.

Bible School On Church Vacation July 9 To 20th.

The churches of Richmond Hill, located on the east side of town are co-operating in a daily church vacation school again this summer, with sessions planned for the mornings of two weeks, Monday to Friday, July 9th to the 20th. The hours will be 9.15 to 11.45. A program of Bible study, music, games, and hand-work will be conducted under the guidance of a capable staff of leaders recruited from the churches concerned, St. Gabriel Anglican, St. Paul's Lutheran, St. John's Baptist, and St. Matthew's United. The program proposed is produced by an interdenominational committee for the church vacation schools on the continent. There will be departments for kindergarten (4 and 5 year olds), primary (6, 7 and 8 year olds) and junior (9 to 11). There are also openings for some teenage helpers. A fee of fifty cents will be charged each student to cover the cost of hand work materials for the two weeks. Children are urged to be on hand for the opening morning.

It is suggested that it may be possible for parents in the north and south ends of town to organize travel pools to make it possible for the children in these districts to attend.

One of the features of church vacation school is the mission project. This year, since the general theme is the Bible, an offering will be received on the first Friday of the school for the Bible Society. The following Friday the project for support will be the roof top schools of Hong Kong.

Accept Low Bid On Road Culvert

Markham Township Council Monday night accepted the lowest of five bids for a 192 inch culvert to be installed on Con. 5 at Devil's Elbow.

Armeo Drainage and Metal Products Ltd., Guelph, tendered a price of \$7,650 plus provincial tax. Its bid was \$306 lower than the highest submitted.

Council will make application to the government for permission to use some of the \$12,000 remaining in the Hurricane Hazel Fund to pay part of the expenditure. Eighty-five per cent of the cost is subsidized by the Ontario Department of Highways.

Township Engineer Dusan Miklas told council installation of the culvert would start as soon as possible.

13th Brownie Pack

"Far beyond our expectations," were the words expressed by the leaders of the 13th Brownie Pack (Brown Owl Mrs. Josie Fleming, Tawny Owl Mrs. Vera Smart, and Packie Charleen Rayson) in reference to both the successful financial and social results secured from the holding of the 13th Brownie Pack bazaar at St. Matthew's United Church, on June 16.

The leaders are very grateful for the donations, help and attendance by the friends, mothers, grandmothers, and grandfathers who had a cup of tea. Thanks also go to fellow Guides — both in brown and blue.

While all Brownies in the pack helped, the Sixers and Seconds deserve special mention for their efforts in the tea court and toy booths. As a fitting climax to their successful bazaar effort, the 13th Brownie Pack will be transported in a chartered bus on July 9, when they will be treated to an all day picnic on Centre Island.

Cadi Remands Youth On Joy-Riding Count

A Markham youth has been charged with joy-riding in connection with a car stolen June 20 in Ringwood.

Dennis Jordan, Ringwood, was arrested June 21, in Markham, and remanded for a week when he appeared before Magistrate Hollinrake in Markham court.

More Than Half Receive Vaccine

A total of 61,908 persons, 54 per cent of the population in York County, received a first dose of Sabin Oral Polio Vaccine during May, according to a report given to the Board of Health by Medical Officer Dr. Robert M. King.

Almost all elementary and secondary school students received vaccine or 93 per cent of the enrollment in elementary schools, and 83 per cent of the enrollment in secondary schools.

A total of 17,328 infants and pre-school aged children received the cherry-flavored pleasant tasting vaccine. This was 59 per cent of this age group.

The vaccine was well received by the younger generation and made available in every school in the country during school hours, Dr. King said. Pre-school children and adults were able to get the vaccine at any one of 41 evening clinics spread across the country.

The second dose of the oral vaccine will be made available during October, and plans are under way now for the schools and clinics.

Outstanding features of the new type of vaccine included the ease of taking the vaccine by mouth rather than needle, speed with which large numbers of persons could be served, and the most negligible effects reported by persons taking the vaccine.

Rates Explained By Area Trustee

The creation of school area three has caused inconsistencies in tax rates in the western part of Markham Township. The section is an amalgamation of school sections 3, 4, 5, 6 and 7.

Trustee S. R. Patterson, speaking at the Buttonville School Parents' Club, said surpluses or debts of the old sections were applied to tax rates in each section.

Mr. Patterson cited two examples, S. S. 5 Buttonville, had a substantial surplus at the time of amalgamation, he said. About \$12,000 of the amount was applied to taxes this year, reducing the mill rate from 13.8 in 1961 to eight in 1962, he told the meeting.

Heavy expenditures at Headford (S. S. 3) will be necessary to either repair the old building or to add a room at S. S. 4 to accommodate Headford students. Mr. Patterson explained that this would raise the mill rate in the section from 12.1 to 25.3.

Next year township school area three should expect a rate of about 17 mills, according to Mr. Patterson.

To Reduce Level Of Township Road

Vaughan Township Roads Committee has been advised that the Department of Highways has approved a proposal to lower the Elgin Sideroad and would subsidize any costs realized by the township. The matter was discussed and accepted by council at a meeting Monday night.

Elgin Sideroad, which is presently closed, runs through a series of four gravel pits. Since the pits are being excavated right up to the roadside, the road will have to be lowered.

Township Consulting Engineer Keith Hopper has been authorized to carry out the necessary engineering to establish the location and levels.

Elgin Sideroad extends from Dufferin to Keele Streets, north of the Maple Sideroad.
