Pioneer Festival

Describes Early Life In Ontario

Some 12,000 people attended the sixth annual Pioneer Festival held at the Black Creek Conservation area last Saturday. In a sparkling October day, people of all ages swarmed through the historic buildings, and thronged about the demonstrations of typical pioneer activities.

A complete demonstration of butchering by the Pennsylvania German Folklore Society was very popular and children watched open-mouthed as whole pig carcasses were speedily turned into juicy cuts of meat, including tempting fresh bacon and plump sausages. All these were speedily sold over the counter, the last of the sausage sold in bulk as they ran out of casings for it.

The apple-butter making also drew huge crowds, and the spicy aroma from the huge kettle suspended over a brisk fire drew onlookers from all sides. As soon as the delicious seasoned apple-sauce was cool enough to handle, it was ladled into cartons and sold as quickly as it could be passed across the counter.

The printer at the village press also found a ready sale for his newspaper as youngsters stood around holding their nickels outstretched as each sheet was lifted from the press.

Womenfolk clustered interestedly around the demonstration of rug hooking where several lovely rugs were displayed by Kingcraft. The lovely quilts displayed by the Burwick W.I. were also attention-getters.

Demonstrations of pottery-making, weaving, wheelwrighting and flailing of grain also had interested spectators.

All the demonstration booths were nicely situated on the broad village flats and it was at the north end of the flats the Ontario Arms Collectors' Association put on an ear-splitting demonstration of the firing of antique muskets.

At the south end of the flats, a rustic outdoor theatre was set up. Following the parade through the village at noon by the Royal Regiment of Canada, a continuous program was presented at the theatre. The Marie MacDonald Dance Studio presented groups of Scottish, Irish

and French dancing. The Bolton Community Choir, led by Mrs. Dorothy Addison, was well received, as was the German Choir "Harmonie" led by Mr. A. Wolter. Latvian folk dancing was presented by the "Dizdances" Group, and Moravian dancing by the Moravian Slovak Circle. The Victorian play, "Lady Audley's Secret", was presented at 3 p.m. and at 7 p.m. by the North York Little Theatre Group, directed by Peter Court.

Local residents were most interested to see the now completely restored Dixon Hill School, formerly located in Markham Township near Ringwood, and there was a long line-up of visitors waiting to step over the well-worn threshold to view the neat and spare interior. The same austere atmosphere prevailed in the Fisherville Presbyterian Church which was recently moved to the Pioneer Village from its site on Steeles Ave. at Dufferin Street, where it served as a parish for 104 years.

The Laskay Emporium was jammed all day, as two staff members, in period costume had a hard time keeping up with orders for their home-made candy and other old-time sweets — licorice whip, marshmallow brooms and barley sticks.

The hundreds of youngsters who cascaded all over sections of the Pioneer Village on Saturday — and all through the season — have had a fine opportunity to get a close look at Canadian history and absorb a vivid picture of pioneer life. The first building, the Dalziel barn, was acquired by the Conservation Authority in 1954. There are now 14 buildings in the village, 10 of which have been reconstructed on the site. The administrator of the Historic Sites

Division, Mr. A. Colucci, is at the village all year round and plans are in progress to increase the scope of the project, adding several new buildings, for the centennial celebrations in 1967. New construction is carried on when the season closes on October 31st.

DIAL SERVICE and DIRECT DISTANCE DIALING

Starting October 21st, come to **GORMLEY**

1. DIAL SERVICE WITH 7-FIGURE NUMBERS.
2. DIRECT DISTANCE DIALING
This is the fastest, easiest, most modern way to make your Long Distance calls! It means that you can dial almost any number in any town in Canada or the U.S. from your home or office... establish your own connection in seconds! Simply dial 112 — then the Area Code if needed — and the distant number. When you have completed your dialing, an Operator will ask: "Your number, please!" Just give her the number from which you are calling; your connection will then be completed automatically!

For Gormley, this means that all numbers begin with the figures "886". Please use all seven figures when you dial your local calls, starting Sunday. All the new numbers are listed in the new phone book which was just sent to you. Please check the number you are calling before dialing! You'll save yourself time and trouble. If you'd like to keep a personal list of telephone numbers, you might like a copy of Bell's Blue Book! Please ask for it at our Business Office. It's free.

Calls without Long Distance charges: From the same day on, all calls from Gormley to Markham, Unionville and Richmond Hill as well as to Clarendon and Stouffville — will be free of Long Distance Charges. Simply dial the full seven figures of the number you wish to reach!

BELL Built, operated and owned by Canadians.

60,000 NEW JOBS

We Canadians buy imported manufactured goods at the rate of \$235 per person per year. If each of us diverted \$100 of this to the purchase of Canadian-made goods, we would help create 60,000 new jobs in Ontario.

We are the world's greatest importers. Contrast our yearly total with that of other countries:
Americans spend \$35 per capita on manufactured imports...
The British spend \$75...
West Germans spend \$60...
Canadians spend \$235 per person per year!

If these expenditures in Ontario on imported goods could be reduced by \$100, we would still be amongst the world's greatest importers. If that \$100 were diverted to Canadian goods we would add \$600,000,000 to our economy and help create 60,000 new jobs!

To accomplish this, the consumer must become "label conscious"; it is the sum of all our day-to-day purchases which can add up to the success or failure of our economy. Whenever the consumer reaches out for an imported product, he or she should ask, "Is there a Canadian equivalent?" For in most cases there is a Canadian product that is as good or better. The more money we spend for things we make, the more prosperous the people of Ontario will be!
